

# This is the smartphone with the cheapest 120Hz refresh rate in the world at the present time

Owning a screen with high refresh rate is a trend in the smartphone world recently.

Owning a screen with a high refresh rate (refresh rate), up to 120Hz is a trend in the smartphone world recently. This trend is driven mainly by manufacturers from China, and POCO is no exception.

If you are unfamiliar with the name POCO, remember the Pocophone F1 that stormed the Vietnamese market nearly 2 years ago. POCO was previously known as a part of Xiaomi India, but now the company is operating completely independently, and they have just brought the market up again with the launch of POCO X2 - The cheapest 120Hz smartphone in the world today.

Traditionally, POCO X2 is still a phone with high configuration but priced at a 'startling' price. First let's review the design of the product. Basically, POCO X2 has many similarities in design with Redmi K30, a smartphone that is also very popular at the moment of Xiaomi, with a back cover that spreads the eye for eye-catching effects from every angle. . The cluster of 4-sensor cameras located vertically in an area made up of countless concentric circles creates an interesting highlight.

On the front, we will still have an almost 'infinity' panel that occupies the front space, and use the tablet-shaped 'punch' design to accommodate the dual selfie camera cluster right inside the screen. 4 rounded corners for a firm feeling when handling. In general, POCO X2 aims to be a luxurious, sleek design, suitable for the tastes of most users today.

In terms of hardware configuration, this smartphone is powered by Snapdragon 730G chip along with 6GB / 8GB RAM, 64GB / 128GB / 256GB internal memory (with support for microSD expansion of up to 512GB). The panel on POCO X2 is LCD, 6.67 inch, FHD + resolution, supports HDR 10 and especially the refresh rate up to 120Hz.

In terms of imaging capabilities, POCO X2 is equipped with a 4-megapixel rear camera cluster, including the Sony IMX686 64MP main sensor + 8MP lens for super wide-angle shooting + 2MP macro sensor and a 2MP depth sensor that supports shooting. photo delete fonts. On the front will be a dual-lens dual camera cluster with a resolution of 20MP and 2MP, also supporting font removal.

Other notable specifications include 3.5mm audio port, USB type-C charging port, fingerprint sensor on the side, Bluetooth 5.0, 4,500mAh battery supporting 27W fast charging.

POCO X2 will be officially on shelves on February 11 with 3 color options: Pink, blue, and purple, with expected price as follows:

1. 6GB / 64GB costs US \$ 225 (about VND 5.2 million)
2. 6GB / 128GB priced at 239USD (about 5.6 million VND)
3. 8GB / 256GB costing 281USD (about 6.5 million VND)
