

Tips to open the most recent photo on iPhone very quickly

Long-pressing an app icon on your iPhone will give you more options. Here's the trick to opening your most recent photos on your iPhone.

Long-pressing an app icon on your iPhone will give you more options. Long-pressing an app icon gives you a variety of actions in a flash, instead of the traditional action of opening recently viewed photos in your iPhone album. Here's how to open your most recent photos on your iPhone.

How to open most recent photo on iPhone

It's simple, just **press and hold the Photos icon on your iPhone** . At this point, you'll see a menu of options for the Photos app. **Tap Most Recent** in the menu that appears.
