

Tips for playing Captain Tsubasa: Dream Team for beginners

Captain Tsubasa: Dream Team tips for beginners, Helpful tips for newcomers Captain Tsubasa: Dream Team, help adapt and finish the match

Captain Tsubasa is a famous anime/manga about football, with a huge fan base. Even famous Japanese players such as Nakata Hidetoshi, Narazaki Seigo and international players such as Zinedine Zidane, Francesco Totti, Fernando Torres or Alessandro Del Piero said that they found and were inspired by this series.

It is because of this great love that the game Captain Tsubasa: Dream Team has received a lot of attention. The game perfectly reproduces special techniques from the original anime in beautiful 3D such as Tsubasa's steering wheel or Hyuga's tiger.

If you also love Captain Tsubasa and are about to enter the game, let's discover helpful tips for newcomers Captain Tsubasa: Dream Team to help adapt and finish the match quickly.

Learn about the characters

Rarity of the characters

Captain Tsubasa: Dream Team has many characters available with distinct play strategies. Furthermore, these players are classified based on different rarity. These rarities include R, N, SR, SSR, and UR. The rarity provided is based on the number of skills and the level cap of that particular player.

Each character has different specialties. and comes with unique features. Such features depend on the following:

1. Dribbling: the ability to handle the ball, the more skillful the player, the more specialized in this item.
2. Hit: the character's ability to penetrate.
3. Block: the ability to block an opponent.
4. Speed: shows the speed of dribbling, blocking and shooting the ball of the player.
5. Technique: Increases the player's interception skill.
6. Capture: the ability to control the ball with oneself for long periods of time.

Ability Limit Increase

The ability limit increase occurs when a particular player, along with his skills and characteristics, reaches the maximum level. Maximum gain limits exist for different characters on the basis of their characteristics. Therefore, there are some limitations related to this issue.

Group skills

The presence of team skills is to improve the characteristics of players in a team. Each character has different unique team skills. This depends on the player's specific nationality, location and type criteria.

Automatic team arrangement

Players can press the Auto-pick button to automatically select the team that comes with 2 options:

1. Automatically select entire team: Clicking here will select the best team skills and strategies everyone has.
2. Automatic selection of players to join: If this option is selected, the strongest players available will be included in the team first.

Group uniforms

Gamers can choose to customize the team's uniform. In addition, more customizable designs will be rewarded after completing daily activities or tasks. All shirt-related information and options are available in the Team menu.

Tips for competing in Captain Tsubasa: Dream Team

Research your opponent

If you want to win the match, the player needs to show extraordinary dribbling skills. with quick and skillful passing actions.

Therefore, it is best for everyone to study the opponent's playstyle before showing their skills. Research their weaknesses and adjust your actions accordingly. In this way, gamers will definitely win any match.

Types of players

There are a total of 3 different types of players in Captain Tsubasa:

1. Agile players (A): Difficult to deal with skilled players but show dexterity in front of players They are difficult to stand against skilled players. But very skillful against players with endurance.
2. Endurance (F): Not too strong against fast players but can easily beat skilled players.
3. Skill players (S): Easy to suppress agile players but weak against endurance players.
