When selecting this option, TikTok will guide you to a screen to edit the length of the GIF image. Select **Generate** to create the GIF after it's done. After that, you can share it on different social networking sites or

even via text messages.

6. How to set the timer to record a video

TikTok has a timer feature that makes it easy to record videos in hands-free mode. To set the timer, select the plus sign at the bottom of the screen to start recording the video. However, instead of pressing the big red button, click on the **Timer** on the right of the screen to select the time to stop the video. When using the slider to select a time, TikTok will count down three seconds before starting to record.

TikTok will display the name of the song, as well as videos of other users who have used it. To combine it in your video, select **Use this sound** to start recording.

9. How to create a TikTok lip sync video

TikTok is famous for many lip-syncing videos. If you want to create lip-syncing videos, you may have trouble singing the lyrics. In this case, you can use TikTok's editing tool to create a perfect lip-syncing video.

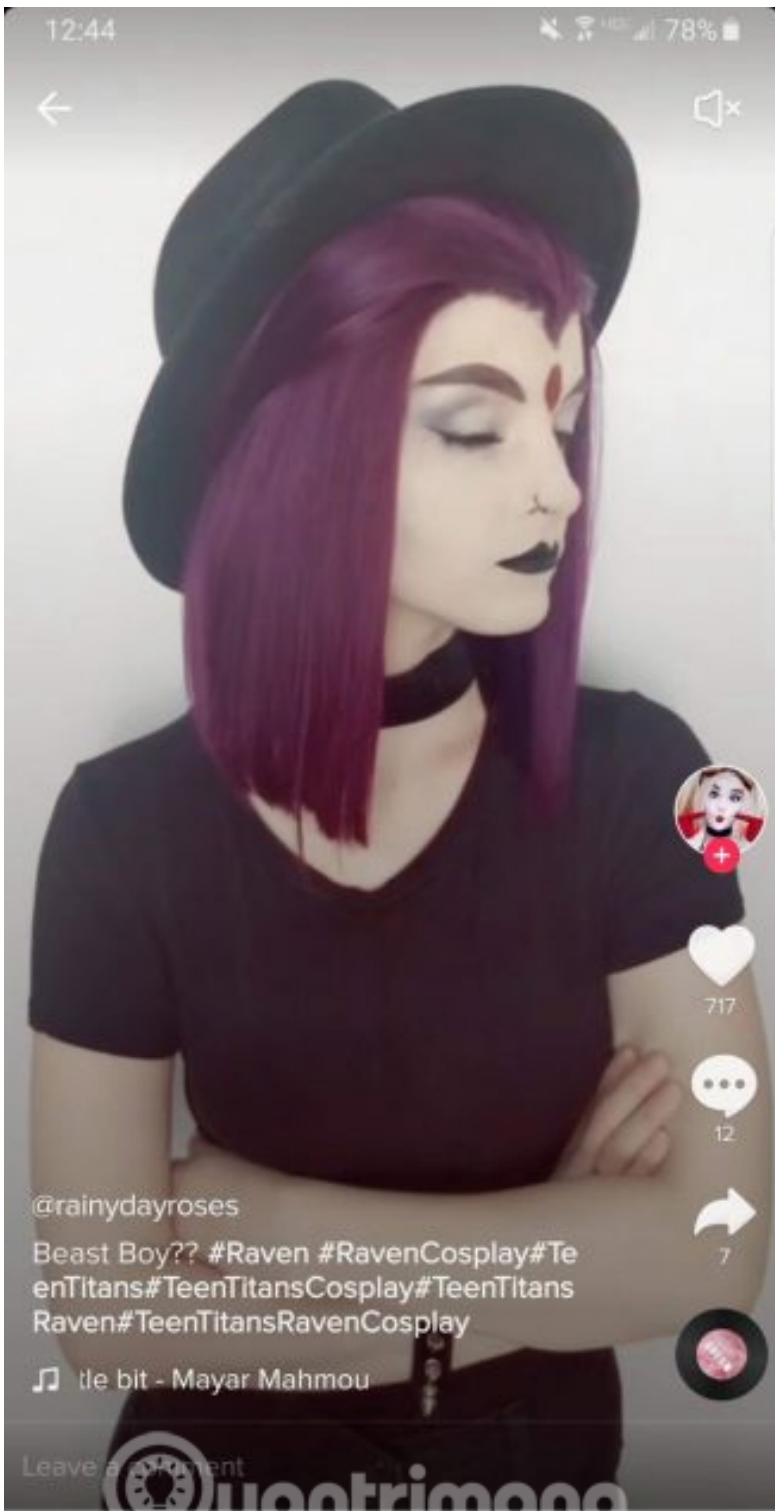

After creating the video, select the **Trim** button at the top of the screen. You can drag the slider at the bottom of the screen to set the time the song starts.

10. How to make a duet on TikTok

With TikTok, you can perform duets with other users regardless of where they are. To start a duet, you need to find a video you want to use first.
