

# Tips to defeat hunters in Haunted Dorm

Haunted Dorm is a horror strategy game but equally interesting. Participating in the game, players will feel the atmosphere of suspense and heaviness throughout, and also have to try to overcome that fear.

Gamers must protect their dreams from the dream hunter and escape the terrible nightmare. This goal can be quite difficult for new players, so let's apply the Haunted Dorm tips below to beat the hunter and have a good dream.

## Tips for playing Haunted Dorm

When playing Haunted Dorm, everyone will have to work with another player to defeat the hunter with obstacles, turning the bedroom into an impregnable fortress. However, the longer the player survives, the stronger the hunter becomes. Therefore, it is important for players to plan each step to be able to stand even when all teammates have been eliminated and are alone against the opponent.

### Choose a bedroom with a good location

One of the most important things to do when playing Haunted Dorm is to choose your bedroom before the hunter arrives. The best bedroom location where other residents surround the bedroom so people don't have to

face the hunters directly.

Weapons have a specific range of attack, so when the hunter arrives in your room, the weapon from another resident will automatically fire and deplete his HP.

**Upgrading the bed produces more gold**

Do not rush to invest gold in weapons if the gold production is not high enough. Prioritize the initial gold to upgrade the bed because it will increase the gold production for the player. The higher the bed level, the more

gold it will take to upgrade it.

Until a certain point, the player will need to use lightning points to upgrade the door. So make sure to have enough generators to generate lightning spot in short time.

### **Use the camera to watch other players**

People can use the CCTV at the top to monitor the activities of other players. Areas with fewer inhabitants will increase the risk of people being attacked by hunters. With this CCTV, gamers can plan upgrades and defenses for their rooms.

### **Watch ads to upgrade the door**

After entering the game, the system will provide short ads to upgrade the door for free. However, don't rush to use this at the beginning of the game. Use it when you want to upgrade to door 5 to unlock the premium bed that requires 500 gold.

### **Always accept to collect 3 times**

Successfully Evaded the  
Dream Hunter

**TipsMake**

After defeating the dream hunter, everyone will receive more gold and advanced items that can be used further. After that, the player will be offered to collect 3 times by watching short ads. Make sure to do this to get a lot of useful resources for buying higher level tools.
