Sets of cards will be completed quickly or slowly depending on the reward of that set of cards. The higher the spin, the harder it will be for you to complete the card because most of the cards are 4 and 5 star cards. You have to open high-end crates to have a high chance of dropping 4 and 5 star cards.

There are also some card sets that have all levels from difficult to easy, but compared to other cards, they will be more difficult to collect because of their rarity. Select Get Card to open the box to get a card, remember that the mechanism for opening cards in the box is completely random. They only differ in the quality of the box.

This is clearly a way to save you when you are about to complete the event reward milestone to receive gifts. However, it will be quite difficult when you are a new player because at that time your number of cards is not much, so it will be difficult to exchange with other players.

With the Trade Card feature, you can get extra spins among a variety of spin earning features.
