3. Use Facebook avatar video:

This newly updated feature creates great interest in the Facebook user community. However, you can only use animations to make Facebook avatar with mobile version only. We change the GIF image to make avatar Facebook image as usual.

You can see more details in the article [How to use video as Avatar for Facebook on iOS and Android](#).

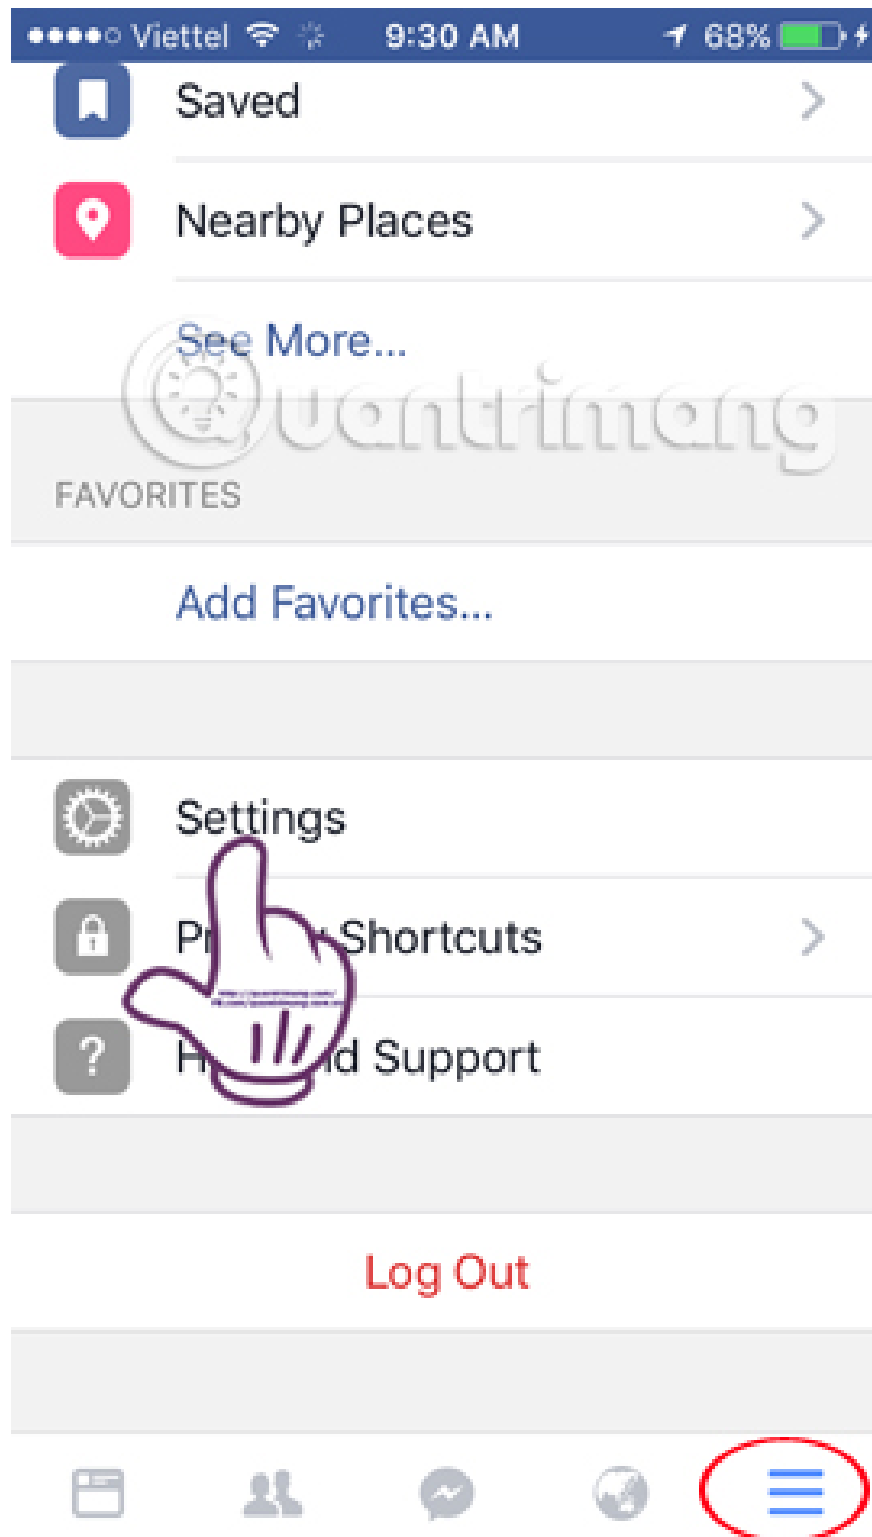

4. Turn off the auto-play Facebook video feature:

Facebook has integrated automatic video playback. However, this causes a small complex session for many users when the video continuously plays.

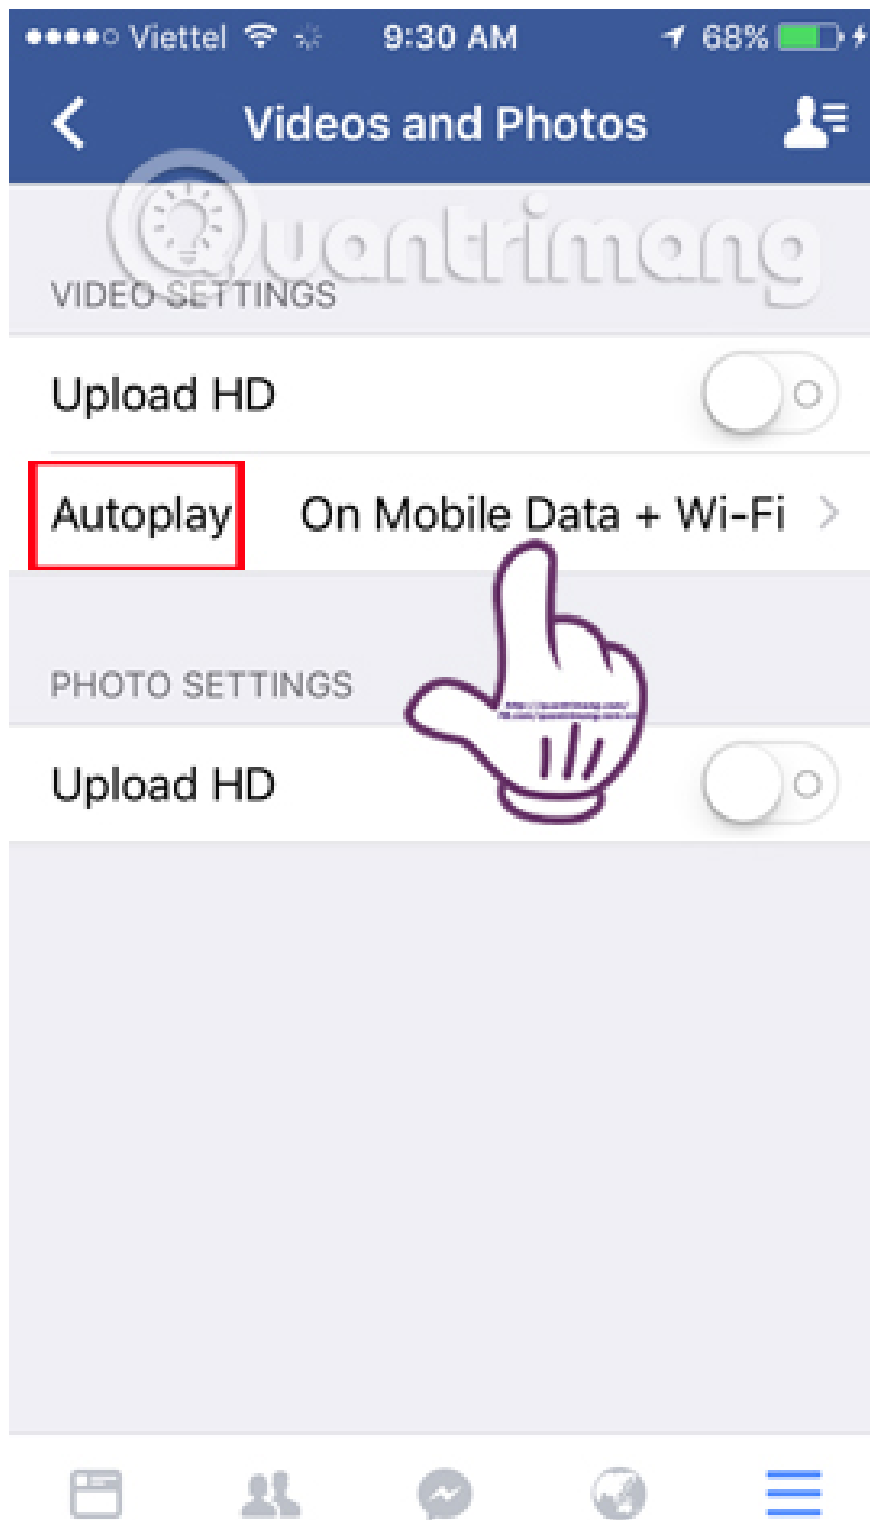

To turn off videos automatically played, you access the **Settings**> **Video and Photos**> **Autoplay path** and choose 1 of 3 customizations, including automatic video playback via mobile connection and Wi-Fi, only Wi-Fi (Just Wi-Fi) or Never (Never).

For more details on each step, see the article [How to disable the auto-run video feature on Facebook](#).

5. Quickly update pages on News Feed:

When using Facebook, the number of pages you like will be hundreds or thousands of pages. Therefore, we will be able to miss hot news from friends or from a fanpage. So, if you want to prioritize interested sites or friends, set up in a separate section.

Step 1:

Click on the **3 dashes** icon, select **Settings** and select **News Feed Preferences** .

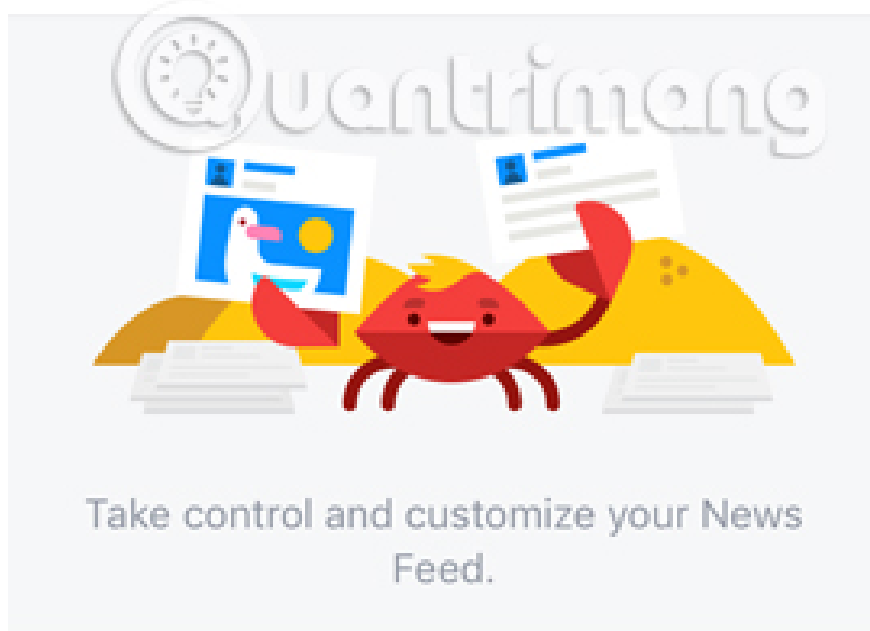

Step 2:

In the **Preferences** interface, you can choose which pages or friends you want to be more interested in on Facebook, by **selecting** the account or fanpage then clicking **Done** .

6. Hide your Facebook friends list:

In order to secure all your friends' information on Facebook, we can completely hide the entire list of friends we have made friends with.

Follow the link below: at the personal page interface, select **Friends**> **Edit privacy (pen icon)**> **Friends list** and select **Just me** .

See more how to do in the article [How to hide your friends list from everyone on Facebook](#).

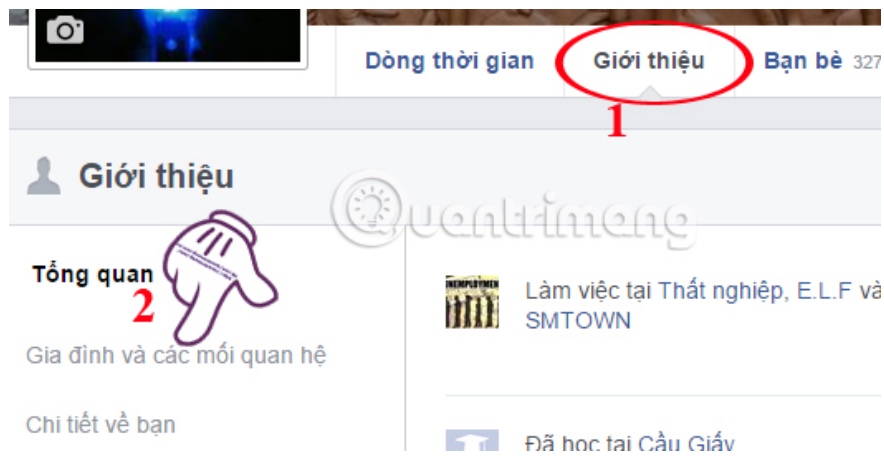

7. How to hide Facebook relationships:

If you don't want others to be too curious about you, we can also hide your friends list or hide relationships on Facebook.

Step 1:

On the Facebook personal account page, click on **About** and select **Family and relationships** section in the Overview section.

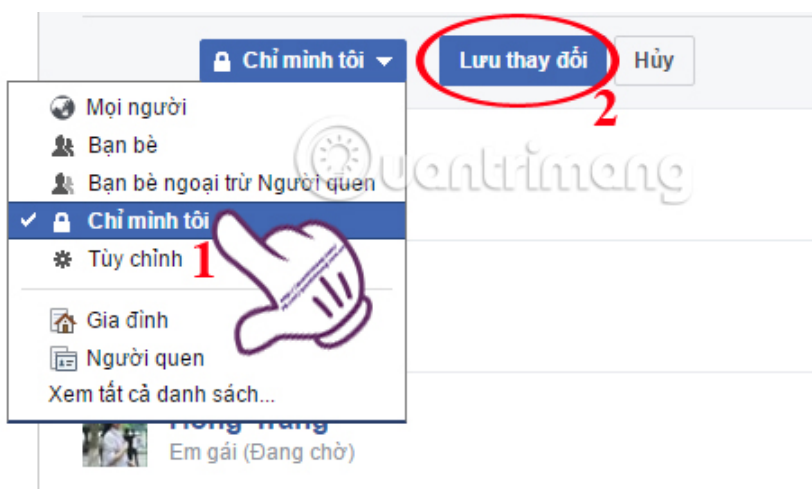

Step 2:

At the relationship you want to hide, click **Edit** .

Here, we can **adjust the mode for relationships** , like publicity, friends or just you see.

8. Restore deleted messages on Facebook:

With messages or any documents and photos that you accidentally deleted on Facebook, we can completely restore using a backup on Facebook. Download of deleted data will be sent via email address and in the form of .zip.

Follow the link below: **Install> General> Download a copy of your Facebook data backup** and follow the instructions.

For more on each step, you can refer to the article [How to recover deleted messages on Facebook](#).

Above is a summary of some tricks you will often use on Facebook. Each trick will help you learn more about the great features on Facebook. However, one important thing we must remember is to use ways to enhance Facebook's security.
