Don't miss the extra rewards

At the time of touching the jumping package lying in the street, the player will have a free item. But remember, before hitting the Place button and noticing the purple Extra reward button, people have to see an ad, from which you can easily earn an additional piece of furniture.

Take advantage of the features of Ads Boost

In Pocket Love, gamers can make good progress when it comes to building their own dream home. The game was very generous at the time when it came to increasing the player's collection points and EXP. The most interesting thing about this game is that people can get some free items in the game just by watching ads.

Get daily rewards

Just click on the current in-game weather display (in the upper left corner of the screen), below the digital clock to open the 7-day weather forecast page. This page shows all the rewards players will receive at the time of login every day for the next 1 week. These rewards can be necklaces, clothes, random furniture, and coins. Watch out for special packages on Tuesdays and Saturdays as they may contain pet collars.

Clean up the streets to earn bonuses

Gamers can earn bonuses just by cleaning the streets. People will find some insects, flies, rats and garbage all over the street. Just tap to remove them and earn coins as rewards. Drag your finger across the screen to find trash and insects.

Complete the work

Complete all the assigned missions, from which the player can get some free items in the game. All those quests also help people progress in the game faster.

Players just need to click on the to-do list in the bottom left corner of the screen, then complete all the requirements to receive special in-game rewards.

Remember that everyone must complete all 3 tasks shown in the to-do list to receive the special reward shown at the bottom of the To-Do List. By completing everything, gamers can get some pet collars.
