

To become an 'zoo' owner in the Adorable Home, these are things that a player must 'keep in mind'.

If you are raising your ambition to become a 'senior zoologist' in every sense in Adorable Home, surely the following article will be able to help you achieve that.

Adorable Home is a mobile game that is receiving special attention from the online community. The content of the game is quite simple, the player's job is to take care of cats with their partners, thereby getting a heart to buy furniture.

Because the game mainly revolves around caring for the boss, up to the present time, the publisher has provided players with a total of 12 cats ranging from easy to raise to "super cool". However, this has made some players have trouble if they can not remember the color of hair and their bowl for easy care.

Not all cats are equally easy to keep.

The following is a way to distinguish each species as well as each separate feeding bowl.

Snow

Characteristics: White body coat. How to get: Get right when starting the game. Round eating bowl, red with white polka dots.

Niki

Description: Full-body hair is black. How to receive: Received only when opening Catbox. Square, black feeding bowls resembling feathers.

Peanut

Description: Whole body yellow, with some dark spots on the back. Round bowl with banana leaves, with yellow oval spots.

Oliver

Characteristics: Whole body white, some gray spots on the back and one eye. The bowl is gray, with a black border in the middle and a bow of the same color.

Molly

Features: Gray body with few white spots. Rounded gray with white polka dots.

Tobby

Features: White body with some gray markings on the back. Plain white round bowl.

Moka

Characteristics: Full body color, few yellow spots. Golden bowl with round brown bottom.

Tiger

Description: Whole body yellow, with some brown streaks on the back and face. Round bowl is yellow smooth.

Gabu

Characteristics: Body gray, only white under belly. Blue square bowl.

Elisabeth (SSS difficulty)

Characteristics: Full body, crown on head. Characteristic eating bowls.

Max

Characteristics: Whole body in orange, with yellow streaks on the back. Orange round bowl, shaped like a yellow cat's hand.

Cookies

Features: Calico cat (white, yellow, gray). Wooden dining bowl with square shape.

In addition to the cats, the publisher also provides players with countless other animals such as dogs, ducks, bears, swans . Here is how you can attract them to and collect hearts .

Step 1 : First, if you want to attract other animals, you need to own a garden first. There, you can buy swimming pool, tables and chairs, flower pots to attract all species.

Buying a large garden is the first step of the plan to "exploit" the heart from them.

Step 2 : Choose to buy decorative items from the store to attract the corresponding animals. For example: Buying a pool will attract ducks, walrus, frogs .

Note: After adding items to the garden, you need to wait a while for the animals to start appearing.

Step 3 : Notice the heart symbol sometimes appears on their heads, click to get a reward.

Following is the detailed information of each animal as well as the corresponding items in Adorable Home.
