

To download Hard Disk Sentinel, the hard drive temperature checker application for USD 20, is free

Hard Disk Sentinel is a professional hard drive monitoring (HDD and SSD drive) software that helps search, diagnose and repair computer hard drive problems.

Hard Disk Sentinel is a professional hard drive monitoring (HDD and SSD drive) software that helps search, diagnose and repair computer hard drive problems. Usually the app costs \$ 20 but is currently being promoted for free on the SharewareOnSale page to 15 hours on April 12, 2018. If you have a need to use it, please register quickly to own this useful software for free.

Hard Disk Sentinel will check hard drive hardware including status, temperature, SMART value (Self-monitoring, analyzing and reporting technology, built into most hard drives and solid state drives) and measure the drive transfer speed in real time. After the checkout process is over, it will provide a report and display the status of the SSD or HDD with multiple alarm options to ensure maximum security for your valuable data.

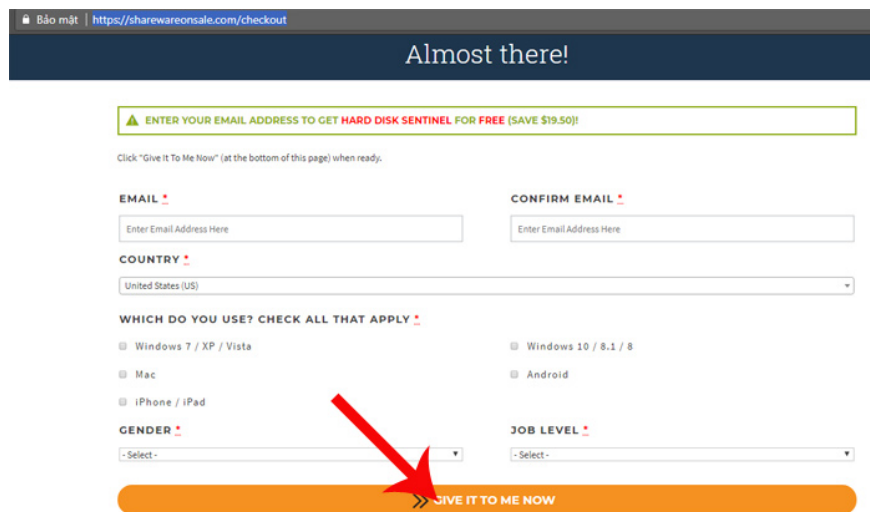

How to own Hard Disk Sentinel for free on SharewareOnSale

Step 1: Visit the link below and click on the words **DOWNLOAD HARD DISK SENTINEL NOW**.

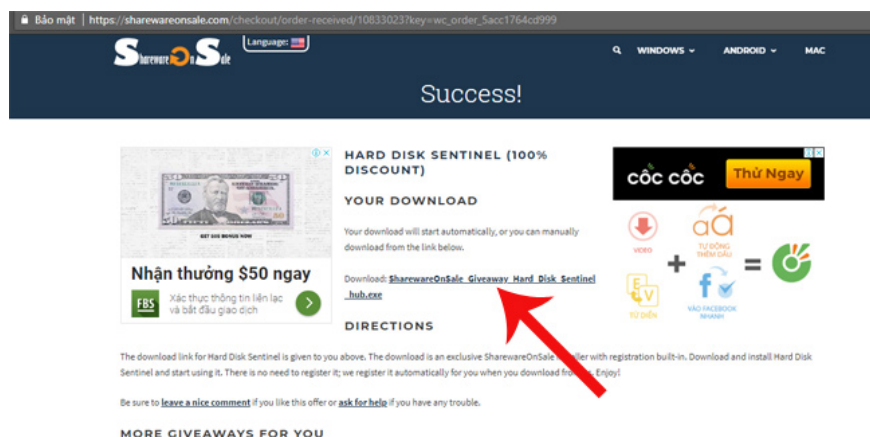

1. Hard Disk Sentinel Free

Step 2: Fill out the required information and press the text GIVE IT TO ME NOW.

Step 3: In the new window, the Hard Disk Sentinel installation file, which has a free license key, is automatically downloaded. You only need to proceed with the installation according to the instructions. If the installation file does not download itself, you can click on the link in the new window as shown in the image to download.

Note:

The promotion period lasts only 15 hours on April 12, 2018.
