

Top 10 Action games - Shooting Games - The most rewarding role-playing game in 2021

This article I will share the top 10 games worth playing in 2021, including shooting games, Battle Royale, online action.

If you are a gamer who is too bored with famous games like AOE empire, shooter PUBG or MOBA games - tactics like League of Legends, then in the list below will be quite new games. , and especially it's free so I believe that these will be the right games for those who are looking for a new - interesting game.

1. Fortnite

1. **Genre** : Build-and-battle royale
2. **Platforms** : PC, PS4, Switch, Xbox One, iOS, Android

If at this point you have never heard of Fortnite, I am completely surprised. With **Epic Games'** PUBG-esque 100-player PvP mode , it's free to play on almost anything and becomes a real trend not long after its 2017 release.

Fortnite has even become the rare social hub for music concerts, launching virtual trailers and hangouts to promote it to people around the world.

There is also a free *creative mode* and a paid co-op experience, "Save the World" wave defense. But the Battle Royale mode has always been the most popular multiplayer thing in the Fortnite giant.

As a light shooter - free and does not require a heavy configuration, I believe this will be a game worth for anyone and friends to enjoy this summer.

2. Warframe

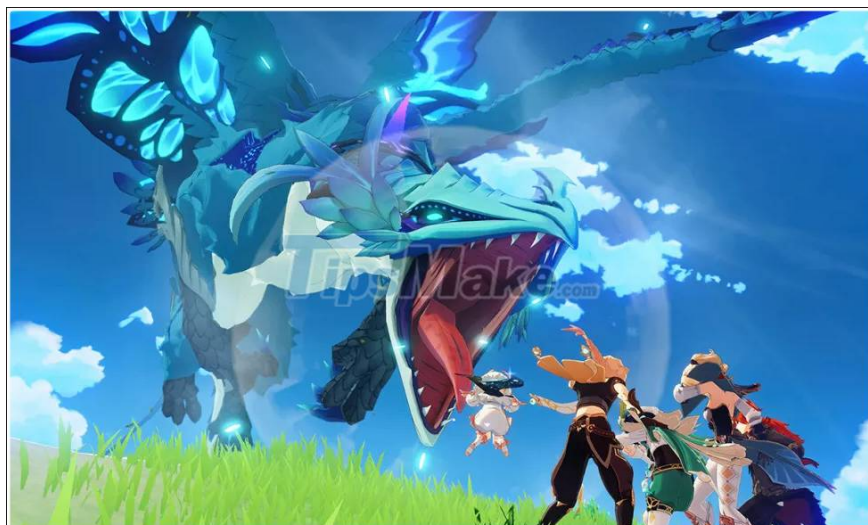

1. **Category** : Action Online
2. **Platforms** : PC, PS4, Switch, Xbox One

Online games released five years ago hardly appear on this day, but **Warframe** has a difference in the middle of its development team, the good days of this game seem to still be. in front of.

Game of ninjas in exotic spaces fighting weird enemies continues to evolve, first with more randomly generated corridors, then a whole new open world to explore and now ship battles with all sorts of combat warframes.

Warframe remains one of the best free fun games you can play in the summer of 2021.

3. Genshin Impact

1. **Category** : Open world adventure
2. **Platforms** : PC, PS4, Android, iOS

Possessing an open world with stunning views, tough enemies and fun new characters to work with, all of which helped Genshin Impact instantly level up near the top of the game. this list.

It takes the massive expansive space and elemental response of The Legend of Zelda: Breath of the Wild, combining them with a smooth and satisfying combat system inspired by the anime action scene.

That's right, the gacha elements will help you feel very excited when you earn 'income', and you also have to put your heart into unlocking certain characters or devices. Fortunately, you can simply ignore all of that and still have hours of fun.

4. Destiny 2: New Light

1. **Category** : Online map loot shooter
2. **Platforms** : PC, PS4, Xbox One

You can't play all of Destiny 2 for free, but you can play everything available in the first year free first year release of Destiny 2.

It's a bit hard to figure out which parts of the game in Destiny 2: New Light are free of charge, and somehow you have to purchase the Forsaken expansion pack to play. But don't let that stop you as Destiny 2 is always some of the best action shooter you can experience right now.

You can play through the entire Red War campaign, do all Crucible PvP activities, you can explore tons of open world patrol missions. You will only need to pay to update all the new quests, features or terminals of the current game, but that's when you've spent dozens of hours in the game.

5. Apex Legends

1. **Genre** : Battle Royale
2. **Platforms** : PC, PS4, Xbox One

Apex Legends is a smooth battle royale game from the manufacturer that created Titanfall 2. In addition to **Respawn Entertainment** 's shooters , Apex Legends is also designed to modernize the genre with reduced downtime between games. Smart match and revive system to bring teammates falling back.

All of that and its 'hero' squad ("Legend" in game parlance) are some of the most colorful outrageous games I've played in years, each of whom has powerful abilities to make a difference while staying focused on shooting gameplay. In terms of gameplay, you have a lot of options in battle royale games.

6. Call of Duty Warzone

1. **Genre:** Battle Royale
2. **Platforms:** PC, PS4, Xbox One

Call of Duty Warzone is not the first game to develop in the battle royale genre, but anyone who has played it before must recognize it as one of the best shooters. Although its nature is not so different from Call of Duty: Modern Warfare, Warzone is completely free to play on all supported platforms.

The game has two main supported modes, **Battle Royale** and **Plunder** - allowing you to drop yourself into a map built from memorable puzzle pieces in Call of Duty, search for loot, and fight alongside you. raft.

Loadout Drops even lets you carry your favorite gear from Modern Warfare and Gulag's multiplayer mode, giving you a chance to fight back even if you've been eliminated.

Those are very sincere reviews of Call of Duty Warzone free, a smart and new game that you can enjoy even if you are not a fan of the Call of Duty series.

7. Valorant

1. **Category:** Tactical hero shooting game
2. **Platform:** PC

This powerful shooter comes from the creators of League of Legends. Inspired by **Overwatch** and **Counter-Strike**, the developer has added tactical elements to the map, making you choose the perfect timing to attack your opponent instead of rushing yourself out without thinking.

You get instant access to **Valorant**'s list of Heroes from the moment you start playing and you can unlock more by completing missions, or pay to expand the game's fun.

But because it is on the list of free games, I am sure that with the basics, you can enjoy the eye-catching action for free without losing a penny.

8. Dauntless

1. **Category:** Co-op hunting monsters
2. **Platforms:** PC, PS4, Xbox One

Even if you've never played other co-op monster hunting games like the Monster Hunter series, **Dauntless** is still the easiest way to get started. The game has a core loop gameplay motif of taking down giant monsters, then using their parts to craft new weapons; stronger to take down larger bosses.

But compared to many games, I feel Dauntless is much easier to get used to, because the weapon combat systems are easy to use and can experience online games at any time.

9. Brawlhalla

1. **Category:** Fighting games
2. **Platforms:** PC, PS4, Switch, Xbox One

If you've ever played **Super Smash Bros** then you will definitely enjoy playing **Brawlhalla** . It might not be on Nintendo's favorite fighting game list, but it has friendly gameplay along with nice graphics - suitable for both casual players as well as veteran gamers too bored with violent games.

10. Path of Exile

1. **Genre:** Action role-playing
2. **Platforms:** PC, PS4, Xbox One

Very few action role-playing games have ever passed "good" status, but **Path of Exile** is one of the few. Many players have said that even if it is not free, they are still willing to spend some money it is reasonable to be able to experience it.

Launched in 2008 and named by the Vietnamese community as 'Road of Exile', the game is often compared to **Diablo** by its graphics and gameplay. Best of all, Path of Exile lets you invite your friends to play with you for free on both PC, PS4 and Xbox!

So the top sharing best free games worth playing summer 2021 is over. Have you ever played any of the games on this list? Which game do you think is the most worth playing?
