AV-TEST July 2017 www.av-test.org

Microsoft has improved Windows Defender, the default security solution offered on Windows 10. Evidence is that the score this time is higher than the recent rankings. Specifically, 6 security points, 5.5 points for performance and 4 points for usability.

According to detailed test results, Windows Defender prevented 98.9% of total malware attacks in November and this result increased to 100% in December. But Windows Defender will slow down the 6% and Kaspersky slow about 13% when browsing the web.
