Weight	75.2g

2. Logitech M331 Silent Mouse

The next mouse model in the list of **the top 10 best, cheapest Logitech mice today** that TipsMake wants to introduce to you is the M331. This is a **Silent mouse model** with outstanding noise-canceling technology, capable of reducing noise levels up to 90% so you can use it anytime, anywhere without fear of disturbing others. At the same time, those who are annoyed by clicking sounds and want a quiet working space can also refer to this mouse model.

Picture 2 of Top 10 best, cheapest Logitech mice of 2023

With a compact design and soft rounded lines on the mouse body, **Logitech M331** allows users to hold it firmly and comfortably. In addition, the side of the mouse is also roughened to create stability and avoid slipping when used.

Logitech M331 is compatible with devices under MacOS, Window, Android and iOS operating systems. Thus, you can easily connect the mouse to the computer via the USB Receiver with a connection range of up to 10m.

Logitech M331 will bring you the best experience when working, playing games, and entertaining thanks to its 1000DPI resolution. Specifically, the product can move smoothly on most surfaces, minimize friction and achieve high precision in each operation.

In addition, the product also uses AA battery power with a lifespan of up to 24 months. Once the battery runs out, you can replace it easily.

Specifications:

Size	105 x 63 x 38 (mm)
Compatible	Android, iOS, Windows, MacOS
Resolution	1000DPI
Connect	USB receiver
Connection distance	10 m
Led light	Are not
Weight	90g

3. Logitech M337 Bluetooth Mouse

Similar to the **best Logitech mouse** models in the list above, **the M337** also possesses a quite simple, sophisticated appearance with a small, compact design. With the size of the mouse, you can easily put it in your pocket, backpack and take it anywhere.

Logitech M337 is optimized in design to create a mouse form suitable for the user's hand size. The mouse body has curved lines combined with a rubber-coated handle that will bring a comfortable, pleasant feeling and

prevent slipping. This is a highlight that helps users use the mouse for hours without being bothered by pain, fatigue or discomfort.

Picture 3 of Top 10 best, cheapest Logitech mice of 2023

In terms of performance, Logitech M337 has an optical resolution of 1000 DPI, helping the mouse move smoothly, stably and with high precision. Whether you are an office worker or a professional gamer, the product can meet your needs. In addition, the mouse wheel also impresses with the ability to control 4 directions of scrolling up, scrolling down, returning to the previous window and exiting the window.

Finally, it is impossible not to mention Logitech's Silent Mice technology that helps reduce noise by up to 90% with each mouse click. This allows users to use the mouse in any environment without affecting people around them with the mouse click sound.

Specifications:

Size	220 x 150 x 60 (mm)
Compatible	MacOS, Windows, Chrome OS, Android
Resolution	1000DPI
Connect	Bluetooth
Connection distance	10 m
Led light	Are not
Weight	82g

4. Logitech Pebble M350 Mouse

Next, TipsMake introduces you to the mouse model with the best appearance in the list of the **top 10 best and cheapest Logitech mice today**, which is **the Pebble M350**. This is a wireless mouse model with a rather unique design. This product is produced with the main customers being designers - people who have to work regularly with mice and computers.

Picture 4 of Top 10 best, cheapest Logitech mice of 2023

Compared to other Logitech mouse products, the Pebble M350 has a thinner, lighter, more elegant and sophisticated design. With a weight of only 100g and a natural design with rounded corners, the Logitech Pebble M350 will fit comfortably in the user's palm and help them move the mouse smoothly.

Similar to the above Logitech mouse products, the product is also equipped with outstanding Silent technology, capable of reducing noise by up to 90% and providing the quietest working space for users. Comes with a **1000DPI resolution** for smooth movement and high precision.

The Logitech Pebble M350 mouse body will include basic buttons: left, right buttons and mouse wheel. According to actual user experience, the buttons feel quite light and smooth to press. Although still a bit hard, it does not affect the user experience much.

In particular, Logitech Pebble M350 allows users to connect flexibly via two methods: USB receiver and Bluetooth. Accordingly, the maximum connection distance will be 10m. In addition, the product is compatible

with many devices under MacOS, Windows, iOS or Android operating systems. Logitech Pebble M350 uses AA batteries that have a shelf life of up to 18 months and you can easily change them after the battery runs out.

Specifications:

Size	107 x 59 x 26.5 (mm)
Compatible	macOS, Windows
Resolution	1000DPI
Connect	Bluetooth, USB Receiver
Connection distance	10 m
Led light	Do not have
Weight	100g (with battery)

5. Logitech MX Anywhere 2S Mouse

Featured in the list of **the top 10 best, low-cost Logitech mice currently** favored by office workers is **the Logitech MX Anywhere 2S** . The product possesses a unique, compact design with optimal curves, capable of providing a comfortable, natural holding feeling after hours.

A notable point about Logitech MX Anywhere 2S is the Darkfield technology reader capable of sensing up to 4000 DPI. This helps the product move smoothly and accurately on all surfaces, including smooth mirror surfaces.

Picture 5 of Top 10 best, cheapest Logitech mice of 2023

Logitech MX Anywhere 2S connects to other devices via the Unifying receiver, providing fast and stable connectivity. In addition, the product can also connect using Bluetooth over a range of up to 10m with high stability.

Logitech MX Anywhere 2S is integrated with **Easy-Switch** technology , allowing to connect and work with 3 devices under Windows and MacOS operating systems at the same time. You just need to move the mouse pointer between screens and switch from one device to another with just a single click. In addition to the main buttons which are the scroll bar, left and right buttons, and quick scroll toggle button, Logitech MX Anywhere 2S also has 2 additional back and next buttons on the side of the mouse.

In particular, the Logitech MX Anywhere 2S computer mouse is equipped with a battery with extremely large capacity and usage time. You can use the mouse continuously for 60 - 70 days after just one fully charged battery. The mouse's battery charging time is also quite fast, just 1 minute of charging can be used for 1 hour and 3 minutes of charging is enough for you to use all day long.

Specifications:

Size	100.3 x 61.6 x 34.4 (mm)
Compatible	MacOS, Windows
Resolution	4000 DPI
Connect	Bluetooth, USB receiver

Connection distance	10 m
Led light	Are not
Weight	106g

6. Logitech MX Master 2S Mouse

Logitech MX Master 2S is listed as the best Logitech mouse model on this list because of its extremely unique and unique appearance with a body that is slightly inclined to the left. This is also a special point that helps the mouse bring a pleasant, comfortable grip and does not cause pain or fatigue after a long period of continuous use. So, whether you are a gamer or a professional designer, you can use Logitech MX Master 2S to perform your basic to advanced tasks.

Picture 6 of Top 10 best, cheapest Logitech mice of 2023

Logitech MX Master 2S is integrated with the **Logitech Flow** feature, allowing up to 3 devices to be connected at the same time. Accordingly, users can move the mouse and convert data from one computer to another quickly and easily. The product brings maximum convenience with function keys on the mouse body.

In particular, you can assign functions (including 65 functions) to the 6-button system of **Logitech MX Master 2S** through Logitech Options software. Based on your habits, preferences and needs, choose the appropriate function to assign to the buttons.

The resolution of Logitech MX Master 2S reaches **4000 DPI** and users can adjust it to a level appropriate to the nature of their work using Logitech's specialized software. Along with that, the product also applies **Darkfield technology**, helping the mouse to be used on any surface, including smooth glass.

Thanks to Easy-Switch technology, Logitech MX Master 2S can connect to up to 3 devices (computer, laptop, phone) and allows users to switch back and forth easily by clicking the switch button. device. Regarding battery capacity, Logitech MX Master 2S uses a rechargeable battery with up to 70 days of use after just 1 full charge.
