Here **TipsMake.com** would like to introduce to you the Top 10 games about the genre of building city, the best empire for PC. You can show the level of management, construction, as well as the talent to control your city.

## 10. Forge of Empires

With **Forge of Empires**, you will return to prehistoric times, become an emperor and have to run your kingdom. Build them strong and bring troops to invade nearby areas. In the game you will have a land to control and gradually build up a mighty empire. The game requires you to have an empire management skills, land planning and instructions in building the empire as well as commanding soldiers when going to conquer other lands. In addition, the game also has PvP mode, you can challenge with friends to fight hand-to-hand. Use your skills, soldiers, tactics to win.

You can play the game at: <https://om.forgeofempires.com/foe/en/>?

## 9. Lethis

**Lethis** is a city building game that takes place in the Steampunk Victorian universe and is called Lethis. Players need to build and manage the city, providing food for your people while making sure there are enough workers to maintain the production line. Trade and exchange with other people in the city, honor the Emperor's requests and instructions and make your people happy.

### Minimum configuration

1. Operating system: Windows 7/8 / 8.1
2. Processor: Intel core 2 duo, 2.0GHz
3. RAM: 2 GB
4. Empty installation drive: 1.5 GB
5. Video Card: GPU with the lowest memory is 512 Mb (Does not support Intel Integrated Graphics Cards)
6. Sound card: Yes

## 8. Anno 2070

You are bored with medieval city building games with old wooden houses. **TipsMake.com** will introduce to you a completely different game, **Anno 2070**- Build the city of the future. In social games will be divided into 2 camps: Eco and Tycoon. Eco factions are aware that human exploitation has seriously affected the ecosystem. Meanwhile, the policy of the Tycoon faction is to set the goal of promoting economic development to the forefront, despite the impact of the ecosystem. And when the two sides have a conflict of interest, a military conflict - war is inevitable. The player's job is to choose yourself a side, build a strong city to open the door to the future for the world. The point that attracts more gamers is the graphics of the game. The details are depicted extremely clear and true. Anno 2070 also provides a Zoom system to help you observe the activities of the city closer and assure you will be overwhelmed by this extremely impressive image.

#### **Minimum configuration:**

1. OS: Windows® XP / Windows Vista® / Windows® 7
2. Processor: 2 GHz Intel® Core™ 2 Duo or AMD Athlon™ 64 X2 or better
3. Memory: 2 GB (4 GB recommended)
4. Graphics: 512 MB DirectX® 9.0c – compatible with Shader Model 3.0 or higher (see supported list) \*
5. DirectX®: 9.0c
6. Hard Drive: 5 GB

## **7. Dawn of Discovery**

**Dawn of Discovery** Also known as Anno 1404, in the game your mission will be mainly building, diplomatic, trading and defending your country. You can freely design models of each house, park, amusement park . The construction is not as simple as other city management games, when deciding to create a building, a gamer. will see its creation from beginning to end. Imagine you are observing the city from above, then abruptly turn your perspective lower to see each worker rushing to build each wall, placing large wooden beams to create a model. The magnificent and magnificent church you just asked to build before, that is enough to see how attractive and genuine Anno 1404 is. Although set in medieval Europe as a focal point, but you can still develop your own control into the Eastern mystical world. You will have to get used to small villages instead of the magnificent Western cities, and maybe this new "taste" will make many gamers become more interested.

Minimum configuration:

1. Operating System: Windows XP SP3 / Vista / 7
2. Processor: Intel Pentium 4 3GHz or higher processor
3. Video card: 128 MB DirectX 9 compatible Video Card
4. RAM: 1 GB
5. Hard Drive: 6 GB of available hard drive space
6. Microsoft DirectX 9 or 10

## 6. Banished

With the game **Banished** Players will start with a certain population and resources. You need to use resources appropriately, build utility works to expand your village and gradually explore the nature of the city development for yourself. The game allows players to build any building, other than some games that require you to build house A to open house B. With Banished you can build anything the game offers and you have to pay responsibility from that consequence. Building an unnecessary structure will cost you resources, labor and time while there are other more important projects that require investment, which leads to the slow progress of the whole village. The exploitation of resources in the game is also very humane. You can only get timber from the forest but if you exploit it too much the consequence will be the end of the forest. So along with the forest exploitation you need to plant forests. Similarly, overfishing or hunting will keep them from breeding. As your village grows, merchants will come to exchange the traders' most valuable resources and assets.

## 5. Tropic 5

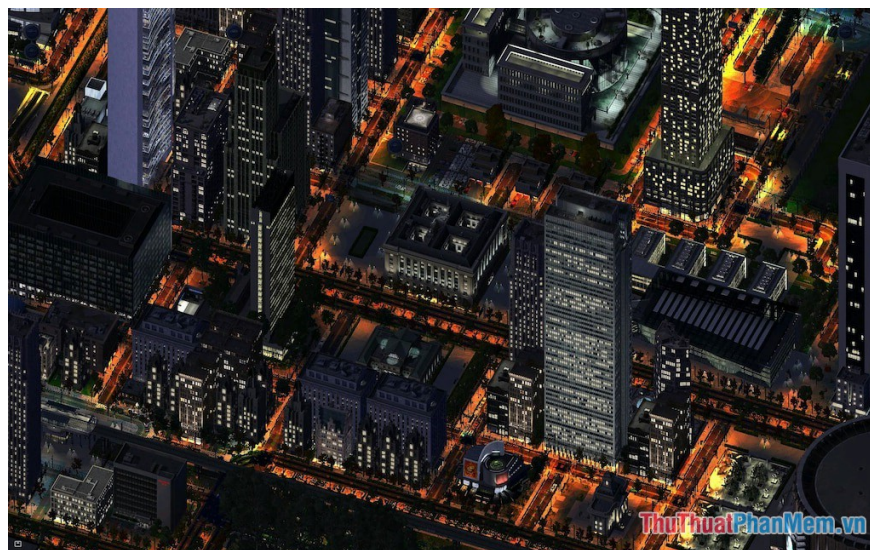

In **Tropico 5** you need to address the needs of the people in your city with the gaze of the opposition. Thereby laying the foundations for his own dynasty. As you play through the years in the game, you can place members of your family in positions of power: such as ambassadors, armed forces commander, even supreme positions in ruling apparatus. Along with the increase in your influence and wealth, threats also increase. You can survive through both world wars, prosper through the Great Depression, rule as a dictator through the Cold War, and push your country through modern times and further.

#### **Minimum configuration:**

1. OS: Windows Vista SP2, Windows 7, Windows 8
2. Processor: 2 GHz Dual Core CPU
