

# Top 10 free multiplayer games on web browser

If you are looking for free online games to play with your friends, this is the article for you.

TipsMake will synthesize you the best games on the web browser that can be played on the same computer or on 2 different machines.

## Games on the same computer

### 1.8 Ball Billiards Classic

This is a completely classic billiard game with the same rules as you already know. You play in turns and have to hit the ball in the hole, required to hit the type with a stripe or smooth depending on the first left you hit the hole. Although this is a mouse-friendly game, you can also play it easily with the touchpad on your laptop.

First, you have to choose the correct angle, then move the mouse to pull the stick back to the right force. And finally released to hit the ball. This is one of the best free billiard games to play with your friends.

### 2. Gunball!

Gunball is like soccer but uses guns. In this pixel graphics game, you and your friend will control 2 characters on the screen, each with a gun and a goal to protect, in the middle is a large ball. You have to skillfully shoot the ball at the opponent's goal to score points, whoever scores 5 points first will fight months.

Gunball is an example of a game with simple mechanics but super fun. You will need to move around the screen to both shoot and defend at the same time.

### 3. Firefall

Fireballs like a comet are falling in the sky, you will be a blue or red oval on the ground. Your task is to move left or right to not be hit by the fireball. While avoiding fireball isn't that difficult, the real fun here is: how will you destroy your opponent? Find ways to use your character to push / block the opponent to get them hit by a fireball. This is a game that easily causes emotional fractures, right?

## 5. Money Movers

This is another team game. In Money Movers, you play the role of two robbery brothers who must perform daring crackdowns. Each level will be the steps for you to gradually escape the prison, you use each character's special ability to solve that puzzle and go to the exit.

The muscular brother can pick up items and throw them away, but move slowly. Meanwhile, the younger brother is more agile and jumps higher. Using the combination of these abilities, you will have a myriad of different ways to neutralize switches, get past guards, .

Also, when you finish the game, continue your experience with Money Movers 2 and Money Movers 3.

# Online games over the internet

## 6. Ludo King

The classic Ludo game has turned into an internet phenomenon, and Ludo King is the best app to play. You can play locally with friends on the same computer or online with other players. The Ludo has a structure that closely resembles the familiar seahorses. Players will roll the dice one by one and the goal is to bring the pieces from home to the stop of the same color. Along the way, try to destroy the opponent's chess pieces as well as avoid being destroyed by them.

In the browser, you can only play Ludo through Facebook, you will need a Facebook account to play. You will not need this social network on your mobile phone, but you can use your own Ludo account.

## 7. 8Ball Online

8Ball Online is one of the quickest ways to start a game of billiards online, but hard to play with a friend. Because, you will have to randomly pair up with an online player. So you and your friend need to get into the game at the same time and hope to be paired up. Don't worry because 8Ball currently doesn't have many online players, the odds of you meeting each other is high. The physics of the game is the bright spot for us to choose 8 Ball instead of other billiard games.

## 8. JigsawPuzzles.io

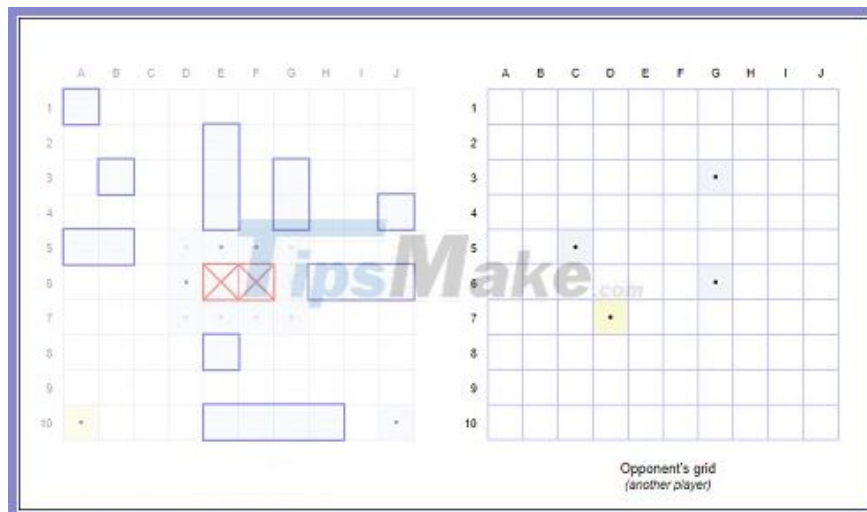

What happens when you and your friend solve a giant jigsaw puzzle. JigsawPuzzles.io offers a lot of pictures for you to choose from and it's easy to get used to. To start a private game, you will need to log in with your Google, Facebook or Twitter account. Then you can choose the puzzle type (nature, animal, art, .), size (how many pieces it will have) and who can help you solve it. Once the game is set up, send the link to your friend and get started.

In the game there will be a chat box for you to communicate. You will make a puzzle by dragging the puzzle pieces and inserting the frame. The game also automatically saves progress if you need to stop halfway and come back later.
