Besides, the game with beautiful graphics also consume a lot of resources on the computer and they are also a way for gamers to show off the apparatus.

In the era of technology development today, the game is increasingly elaborate meticulously for the graphics, the titles with nice graphics always have a big attraction to gamers. Besides, the games with beautiful graphics also consume a lot of resources on the computer and they are also a way for gamers to show off the machines with dinosaur configurations. TipsMake will send you top games with the best graphics.

1. Cyberpunk 2077

Cyberpunk 2077 will be the first name on this list although they have not been released at the moment, as expected, this game will be released in late 2020. This is a role-playing game that shoots and decodes missions to explain the entire storyline in the game, based on the manufacturer's trailer, we can see this is a racing game combining action pinnacle shooting action. Although not yet launched, but Cyberpunk 2077 is more pre-Order than ever before with numbers up to 10,000 times and the price of Cyberpunk 2077 is not cheap, they cost nearly 1,000,000 VND.

2. Ancestors

Ancestors will take you on the journey of human evolution since we were an ancient chimpanzee walking on all fours. The evolution process changes based on the player's actions interacting with the game's content and that process changes a lot if you influence them in a positive or negative way. In addition, this journey of million-year evolution also requires you to be "skillful" in maintaining the race. Ever since the launch of Ancestors has been rated as a graphics game of the Top terrorists in the world today. This game has been fully developed and is being sold for around VND 350,000.

3. Death Stranding

Death Stranding is a Shipper simulation game, just joking! This is a sci-fi game set in the end of the world and your mission is to deliver and transport national "secret" packages so they can restore the world. Besides you also face the mysterious forces that appear from the explosions on the earth, these invisible ghosts will be a nightmare when you move. Right from its debut, Death Stranding is highly appreciated from the story line to the character creation when they are too genuine.

4. ABZU

You are a lover of the blue ocean, love the sea and fishes around the world, ABZU game will be the choice for you. The ABZU game is set in the background and storyline beneath the blue ocean of the earth, where there are millions of species of fish that we need to explore. This light entertainment game takes you on a series of fascinating missions in the deep blue ocean.

5. Resident Evil

Resident Evil is probably a game that is too familiar to gamers when they have gone through a lot of different development versions. Every season, every version, the manufacturer has a blow to the graphic design of the game making them more vivid and more realistic. Resident Evil game will need to play the guts, not fear before the intimidating situations "intimidating" in the game.

6. Final Fantasy

When it comes to games with beautiful character figures, the title of Final Fantasy will definitely be proposed first, this action game has very creative and beautiful characters. After each version, the manufacturer has upgraded a lot more in terms of graphics performance, making them more and more beautiful. Recently, we have a Demo version of Final Fantasy 7 Remake extremely attractive with giant graphics platform.

7. Nier: Automata

Upon debut, Nier Automata won the award for the game with the most beautiful female character. The 2B-Nier girl that the manufacturer built has a sexy, sexy look with long legs and skimpy outfits. Besides, environmental graphic elements also help make the game more vivid, more attractive to players. Despite being released a long time ago, the name Nier Automata has never been forgotten from the list of top games.

8. Predator: Hunting Grounds

Predator: Hunting Grounds is adapted from a movie of the same name, set in the battle of the green forest and the alien monster capable of invisibility in the forest. The game Predator: Hunting Grounds is heavily focused on the graphic element when they create a meticulous monster, beautiful rebel army and full of battlefield appeal. Immediately after the pitch and shelves, this game received a series of nominations related to graphics.

9. Sea of ??thieves

Sea of ??thieves has a beautiful graphics platform but is unlike anyone else, although the graphics of Sea of ?? thieves are very beautiful, they bring joyful, animated and creative tendencies. This pirate game will take you to explore the world to find treasures or to rob other pirate boats. This is a strategy game combining action is worth a try, the graphics platform of Sea of ??thieves is beautiful from the table so we do not need to talk too much.

10. Chernobylite

Chernobylite is a game related to real events in the world, the explosion of the Chernobyl nuclear radiation plant in the world has created a shock. When Chernobyl exploded, the entire city was frozen and removed, and the state had to build a "storage box" to cover the plant before the radiation spread too hard. The game Chernobylite follows closely to the content of the event but also has a bit of variation to create appeal.
