1. League of Legends

When it comes to MOBA games for PC, surely League of Legends is also known as League of Legends in Vietnam. This is the MOBA game with the most frequent players in the world and in Vietnam, you just need to go to the sharp shops to see a lot of people playing this game. Professional tournaments are also held regularly with huge prizes even a lot more than traditional sports enough to see how big League is the MOBA game title.

2. Dota 2

Referring to League of Legends without mentioning Dota 2 is a mistake because these are two big rivals. Although not as popular in Vietnam as League of Legends, the world of Dota 2 is very popular. With beautiful graphics and diverse gameplay, Dota 2 is currently the highest MOBA game on the current PC platform.

3. Dropzone

Dropzone is quite unique MOBA game when it is combined with the whole strategy game series. For the other MOBA series, we only control one birthday, in Dropzone you can also control the soldiers to a suitable location to capture the base. In addition, in Dropzone you can customize your flap and build races with specific weapons to surprise your opponents. This is what makes Dropzone different from other MOBA games.

4. Marvel End Time Arena

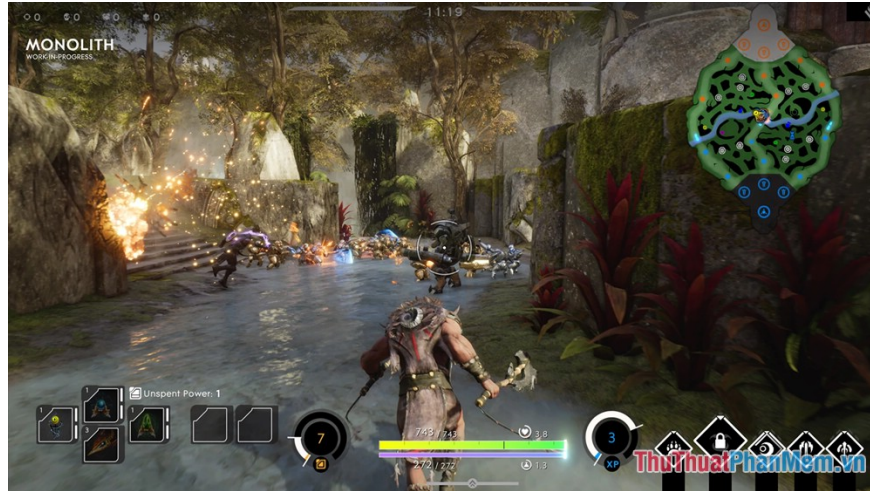

If you are a big fan of Marvel cinema and comics, Marvel End Time Arena is the game for you. Also with the MOBA style like the usual games but the characters in the game are taken from characters in the Marvel universe such as Iron man, Captain America, Hulk, SpiderMan . etc . these must be familiar characters belongs to you. The game has very beautiful graphics, the skills of the character are also very close to the ability of the characters in the movie, the error is quite similar to League of Legends so you will also be very easy to get used to.

5. Awesomenauts

Awesomenauts is the MOBA game with the most difference of all the titles listed in this list. It has a great alternative, instead of playing on a map with 3 lines like other MOBA games, the Awesomenauts is designed under 2D cartoon graphics with maps of different basements. At first glance, you may think of games like Megaman or other scene travel games. However, its connection is still similar to other MOBA games that are divided into 2 teams and each will choose for themselves a character with a unique ability with the mission of breaking down the enemy base.

6. Paragon

Paragon is a quite special MOBA game when it is combined with the third-person role-playing game series, quite unique. At first glance you will feel similar to the epic shooting action games like Titanfall but its nature is still MOBA. You will choose a character from the list of available characters in the game, each character will have a separate skill set suitable for each role in the match. In battle your mission is to destroy the opponent and destroy the opponent's main house to win the final. The game has extreme 3D graphics, making your MOBA experience even better than any MOBA series available on the market today.

7. Games of Glory

Games of Glory is a MOBA game set in the future where modern weapons are used. The characters in the game are equipped with weapons of powerful destruction and these weapons are extremely diverse. From all kinds of guns, to near-weapon damage or even magic. In this game you can also upgrade your character in a certain direction to match the ongoing battle.

8. Master X Master

If you've ever played the Blade & Soul game, surely when playing the Master X Master will see a familiarity, because the context and character designs in MXM are taken from Blade & Soul and anyway, the two games This is by a manufacturer. MOBA calculation in MXM is clearly shown in the 5v5 gameplay on a 3-way map and your main task is to destroy the main house of the enemy to win. However, the difference of this game is that in a match you can control 2 characters and can switch between the two characters in each given situation.

9. Hero of The Storm

Hero of The Storm is the MOBA game of the famous game company Blizzard. It has the same error game as other famous MOBA games like League or Dota 2, but Hero of The Storm has quite a variety of map systems and slightly different gameplay. Because Blizzard is the same company, when you play you will meet a few generals in the famous titles Warcraft, Overwatch, Diablo or Starcraft.

10. Fringe Wars

Instead of controlling the characters like in the above MOBA games, in Fringe Wars you will be able to control the extremely epic spaceships that we only see in fiction movies. In Fringe Wars, there are many different types of spacecraft and each has its own characteristics and strength suitable for each role. In addition, all types of spacecraft you can upgrade more powerful weapons to destroy the enemy spacecraft.
