Vietnam is the lowest wage country compared to Asian countries. However, there are still industries that attract a lot of students to study by the 'terrible' salary. If you are wondering how to choose a career with a high income, you can refer and orient your career later.

1. CEO at high-end hotel (210-350 million VND)

Leading the top 10 jobs with the highest salary, it is impossible not to mention the CEO job at high-end hotels. According to the statistics of the Vietnam National Administration of Tourism, there are about 5,000 3-5 star hotels in the country, but most of the most popular hotels in the best locations must hire foreign companies to manage. With 10,000-15,000 USD / month (equivalent to 210-320 million / month) this is the average salary of foreign CEO of a luxury hotel in Vietnam.

2. Bank leaders (over VND 100 million)

Most people working in the banking industry have a relatively high salary, especially for bank CEOs, the income of some major bank CEOs is between VND 4.8 - 7 billion / year, and the CEOs. Other income is around 2 billion VND per year. If you love this industry, you can refer.

3. Human resource management (VND 30-100 million)

Currently, a new graduate student working in the human resources industry can find a job with a minimum salary of VND 5 million / month, the head of the department is paid more than USD 1,000 / month and the position of director of human resources can income from 2,500 to 3,000 USD / month. Even large foreign corporations are paying 4,000 USD / month for this position in Vietnam.

4. Pilot (70 - 80 million VND)

Pilots are also quite interesting and have a great salary. According to the statistics of the 5-year payrolls from 2008 to 2013, published most recently by Vietnam Airlines (VNA), the average salary of the pilots in 2013 reached VND 74.8 million / month. This level has decreased by 4.5 million compared to 2012, and 6.7 million compared to 2011.

Although the salary is so high, many people believe that this salary is not commensurate with the pressure and nature of aircraft control work. Because pilots are the only people 'holding' the lives of hundreds of passengers, pilots are also risky occupations, requiring high levels of concentration. Before that, they had to go through a rather long and harsh process to practice.

5. Information technology programmer (VND 20-30 million)

Currently information technology is quite developed, almost all jobs depend on technology, so this profession always keeps the position 'hot'.

7. Flight attendants (18-20 million)

Like pilots, flight attendants are also a profession with a high income from 18 to 20 million VND / month. Although not faced with the pressure as a pilot, but flight attendants also encountered a lot of difficulties, such as having to work away from home, not fixed hours. But in return, the advancement opportunity of this profession is relatively fast.

8. Secretary - assistant - executive (average 18 million / month)

Secretary - assistant - executive always attracts many applicants with an average salary of 18 million / month. Despite the high salary, this industry requires experienced candidates and withstands high pressure on the job. Besides, the workers need to have acumen and skill in life.

9. Air traffic controllers (VND 15-20 million)

With the nature of stressful work, the harsh training program makes those who do not have the patience and love of reward reward halfway. Besides professional skills, English is also required to inform pilots.

Stressful work, air traffic controllers must constantly observe on the machine, look at the schedule and arrange the flights. Sometimes unexpected and dangerous situations will occur, you need to have "steel spirit" to keep calm but handle.

In return, the salary of this job is relatively high compared to other jobs. Currently an air traffic controller can receive about 15 million / month, and there are many remuneration.

10. Engineer (average 17 million / month)
