

Top 10 Legit Sites Where You Can Buy TikTok Followers UK (Cheap and Fast)

Everyone wants to gain a big audience organically; however, the large number of users on the site and its algorithms can make this type of growth an uphill battle.

Sometimes it really helps to buy TikTok followers in the UK – this tells the algorithm that your profile is growing in popularity, which in turn improves your videos' visibility.

But which are the finest places to find genuine TT fans? Continue reading to learn about the top websites to buy TikTok followers in the UK.

Why Do You Need More TikTok followers?

The more real TikTok adherents you have, the sooner and more often people will see your content. This works in more than one way – yes, your fans are more likely to see your videos, so it makes sense that more followers also means more views.

But there is another benefit: When you have an increase in fans, the website's algorithms recognize your account as popular, and content from popular creators is placed in peoples' feeds more often.

Getting More User Interactions

Additionally, user interactions are an important aspect of the algorithm. New fans see your latest videos and may interact with them, which means they will see more of your videos in the future. Finally, TikTok users who meet a threshold of 10,000 fans and 100,000 video views can apply for profit-sharing with the Creators Fund.

Acquiring real TikTok followers will help you to get to these goals faster. Some people who may benefit the most from purchasing followers include business owners, aspiring influencers, authors, performers like actors and singers, coaches, fitness enthusiasts, people seeking social proof for a business, and anyone struggling to build a personal brand on their TikTok account.

1. You start by going to the website and choosing a number of followers for TikTok, with packs from 20 to 10,000.

Boosbe

Picture 4 of Top 10 Legit Sites Where You Can Buy TikTok Followers UK (Cheap and Fast)

Boosbe offers a more limited range of options for purchasing TikTok followers, from 100 to 2,000 available per purchase. Some people may find that fewer options make it easier to decide on a package to try.

Pros:

1. Boosbe promises results on social media within a day.
2. This site is a good option to start with a smaller number of fans (2,000 or less).
3. The initial investment is low - £2.04 to £36.79.
4. Boosbe says the site is secure, and its TikTok users are 'real-looking.'

Cons:

1. Boosbe's TrustPilot rating is only 2.3, yet they still display it proudly on the site.
2. The FAQs dance around the question of whether fans are all real or your account might get banned. At different points, they refer to their followers as 'real' and 'real-looking' and blame any potential purges on the user's previous habits of buying fake fans.
3. If you take the time to convert pounds into dollars, you'll see that Boosbe is actually quite a bit more expensive than the first three sites (SocialsGrow, Inlu Boss, and SocialsUp, which are fairly close in pricing).
4. If you need more than 2,000 new friends on social media platforms, this may not be the best option.

Pricing: 100 TikTok friends will cost only £2.04, while 2,000 go for £36.79 (prices adjusted based on the current exchange rate).

Bizboostup

3. The checkout process is short and simple, similar to most other sites. You enter your email and TikTok profile, and payment method, then receive confirmation.
4. Pricing is more competitive than Boosbe and closes to SocialsGrow after conversion into pounds.
5. Bizboostup says that all social media marketing fans are real and won't be dropped. Followers come from more than 30 countries, including the UK.

Cons:

1. The site doesn't have options for people who just look to buy TikTok followers at a minimal amount, such as 50.
2. You have to contact customer service if you need delivery at a specific time for weekly and monthly packages.

Pricing: Prices vary from £4.11 for 200 new friends to £591.25 for 50,000 (prices adjusted based on the current exchange rate).

Bestfollowers gives you access to 100-10,000 genuine TikTok fans, and you are free to buy them at any time.

Pros:

1. Bestfollowers claims they've 'helped many users get the verification badge' but does not guarantee they can get everyone verified. They note that there are other factors that contribute to the verification process, but having more quality TikTok followers will definitely help.
2. The site also says all their users are real and also active followers, reducing the risk of your new fans getting caught in a bot purge.
3. The ordering is fast and simple.

Cons:

1. Prices are slightly more expensive than SocialsGrow, but not as exorbitantly high as Boosbe.

Pricing: 100 friends are £2.99, and 10,000 are £129.99.

Pros:

1. The site promises to deliver only real UK TikTok followers.
2. Instaboost also focuses on the safety and security of its services.
3. They offer a retention or 'no drop' guarantee and will replace any fans that disappear.

Cons:

1. The limited number of packages may not be ideal for people who want a smaller or larger amount of fans.
2. Pricing is more than double SocialsGrow, despite both sites providing the same features (real TikTok followers and secure checkout).
3. Instaboost says delivery takes two days regardless of package size but notes that they can perform slower delivery if you ask for it specifically. If you want a small package delivered within 24 hours, it probably isn't the right site for you.

Pricing: 500 friends cost £19, and 2,500 are £69.

Socialpro

If you *only* want UK TikTok users, this may not be the best choice.

Pricing: 50 friends cost £0.81, while 100,000 cost £821.18. (These rates are adjusted using the current exchange rate for dollars into pounds. The exchange rate is variable, and prices are subject to change.)

Why is buying TikTok followers beneficial?

It can be difficult to expand your account's following naturally. As TikTok grows in popularity, with more than 1 billion active users, it only becomes harder to differentiate your account and reach new people. An influx of new subscribers tells the TikTok algorithms that your content is making an impact, and more users will have a chance to see and interact with it.

Having a higher subscriber account is also essential if you aspire to become an influencer. Many people want to enter this lucrative field today, so advertisers have numerous creators to choose from. They generally prefer people with a larger, authentic-looking audience, so the ideal solution is to purchase discreetly-delivered subscribers.

FAQ

Is buying TikTok followers a violation of law or TikTok's Terms of Service?

No. It's not illegal, and TikTok's TOS doesn't forbid you from paying people to be your fans, but it does forbid fake or bot accounts. If you get fake fans, you could get in trouble with the platform, though, so you should only buy from sites with real, genuine users. Fake followers' accounts tend to be purged frequently anyway, so it's a waste of time and money to buy these as subscribers.

Are the followers you buy online real?

Most of the sites listed above state that they only have real followers. However, we advise you to read the FAQs on the individual websites for more information on what types of followers they have.

When will I get my followers?

Again, this depends on the specific site you choose. Most will offer a time estimate on their packages. In general, larger orders will take more time than smaller ones – for instance, most sites can complete a 50-count order in an hour, but one for 10,000 subscribers or more might take a day or two.

We recommend ordering ahead of time if you need a certain number of fans for a specific date or event.

Can TikTok ban my profile for purchasing subscribers?

They can't ban you for the actual purchase, no. However, they can suspend or ban your account if you get too many bot fans or interactions, so you don't want to purchase fake followers. Always use reputable sites with 100% real subscribers to protect your account.

Is this service really effective?

Yes. As long as you use a legitimate site with real fans, you will get the audience increase you need safely and securely. Many of the sites referenced here have satisfaction guarantees – check the individual site for their specific policy.

In most cases, if you have a problem with your order, their customer service email is readily available on the website. Send them a note outlining the problem in as much detail as possible, and a customer support person will respond as soon as possible.
