

# Top 10 Offline games for low-end PC

If you are also passionate about old and good games, let's join me in breaking some more attractive games that the low-profile computer still runs well.

For gamers who do not have conditions, owning a PC with a terrible configuration to play games is extremely difficult, especially when today's games are constantly upgraded and required graphics. you have to invest in a good PC to enjoy them.

But do not be so sad, if you do not have enough budget to buy yourself a terrible PC Gaming, I would like to introduce you 10 old offline games, but extremely good for low-end computers.

## 1. Grand Thief Auto: Vice City (GTA: Vice City)

GTA: Vice City is an open world game known as "Street Pirates".

When it was just released in 2002, this game quickly left countless impressions in the hearts of Vietnamese gamers thanks to the fascinating storyline and rich and unique gameplay.

The game owns a set of vehicles with a massive arsenal of weapons that you can spoil the whole city, doing all kinds of games such as looting, "nice treatment" of civilians, delinquents or even. both police and become a notorious criminal.

## 2. Alien Shooter

Released in 2003, Alien Shooter is a top-down game and is the first in the Alien Shooter series. In the game, you will transform into a warrior against the invasion of monsters from other planets.

When you first enter the game, you will start with two pistols, after the game screen you can use a variety of weapons with different damage, but in exchange, more and more monsters become bloodthirsty and crowded. than. Your mission in the game is to destroy hordes of monsters and survive through the level.

### 3. Half Life 2

First released in 2004, the classic title game of Valve has made fans of the FPS series fidgety and cost the media a lot of ink.

When you first enter the game, you will start with "empty hands" then search for weapons and items throughout the game.

The enemies in the game are extremely diverse, they will attack you with many different strategies, requiring you to find the right way to deal with them. If you are a fan of the FPS series, Half Life 2 is a perfect choice for you.

### 4. Feeding Frezy

Feeding Frenzy is also known to Vietnamese gamers as "Big fish eat small fish".

The game attracts players by a very simple gameplay, that is, you will play the role of a small fish and use the mouse to control the direction of the fish's swimming, eat the little ones, avoid the big fish, the more you eat. The more fish you get, the bigger and more ferocious your fish will be, then your fish can eat larger fish species.

## 5. Age of Empires: The Rise of Rome (Empire 1)

Although it is an old game released in 1998, Age of Empires: The Rise of Rome is still popular until now.

Link to download the standard Empire version, used in the competition: [here](#) !

The game has two game modes that are the single player mode (Single Player) and the multiplayer mode (MultiPlayer). The gameplay of the game is very simple, you will build your own empire and destroy all the evidence of the opposing empire.

If you are a fan of strategy games, Age of Empires: The Rise of Rome is a perfect choice for you.

## 6. Grand Theft Auto: San Andreas

Yes, GTA SA is an open world game that launched in 2004 and is developed by Rockstar Games.

To continue the success of the game GTA Vice City, GTA SA has made many positive improvements in graphics with a wider, more real city.

In addition, the gameplay is also significantly upgraded, your main character can swim underwater and get a lot of extra stats to make your character stronger like when you are playing. games in the RPG genre.

Therefore, if you criticize this as an old game and ignore it, you are sure to pass a legend.

## 7. Megaman X4

Released in 1997, Megaman X4 is known as one of the most beautiful memories in the hearts of 9X generation gamers.

The game will let you choose one of two characters is X or Zero. If you choose the character X, your gameplay will be to use long-range weapons to attack the enemy, if you choose the character Zero you need to have high skills because Zero will use melee weapons. along with fast combos that require you to come close to the enemy.

Megaman X4 is so charismatic that it will take you hours, even days to mull over, find hidden items, how to destroy bosses with a variety of strengths, different skills or practice how to dodge. avoid, reflex .

So the game has a very high replay value and is completely worth the time you spend to enjoy it.

## 8. Hollow Knight

Hollow Knight is a 2D action adventure game developed by Team Cherry.

In the game, you will play the role of a knight in an adventure journey and explore a mysterious ancient land that once flourished but has now faded and sank deep in the dust.

Besides the fascinating plot, the Gameplay of Hollow Knight is also extremely attractive, but somewhat "indigestible" because it requires a lot of brainstorming.

Attacking enemies (especially bosses) by rushing in when they first appear is not a good idea because it will be easy for them to "cast on", instead you should find out and give a reasonable strategy to attack based on how they move and attack.

Hollow Knight is not a game for impatient people, but if you take the effort and time to get used to it, you will surely have a great experience.

## 9. Call of Duty

First launched in 2003, Call of Duty is one of the monuments of the FPS series.

With the true first-person shooter style, Call of Duty gives you the experience of the breath of fierce, fierce war in a desolate, fire-smoke battle scene.

If you are a lover of war-style games and want to transform into soldiers on the battlefield, Call of Duty will be the perfect choice for you.

## 10. Yu-Gi-Oh!

Yu-Gi-Oh! is a war game inspired by the famous Japanese manga of the same name.

In the game, you will play the role of YuGi and find a way to build your own cards to fight other opponents. With engaging gameplay, beautiful graphic design, and a large and large card inventory, Yu-Gi-Oh! will make you feel regretful when you intend to throw away your low-end PC.

Wish you happy gaming.
