

Top 15 most attractive Android strategy games

Strategy game is a type of game that requires some skill, intelligence, and skill to win through the levels and win the spoils. This game genre is highly addictive and enthralled by players.

Strategy game is a type of game that requires some skill, intelligence, and skill to win through the levels and win the spoils. This game genre is highly addictive and enthralled by players. In console games, there are a lot of games in this category, but there is a more interesting fact that even on Android platforms there are many other strategy games on the game machine. Because there are so many strategy games on Android, they don't bring the same quality and performance. In order for players to avoid poor quality games, the article will introduce you to the list of the best strategy games on Android.

1. 10 best software emulators for gaming consoles

1. Age of Civilizations

This is a strategy game in which players will have to defend their country from attacks. Find yourself a clever tactic and confront the challenge. The price of this game only has 3 USB.

Download : Age of Civilizations

2. Thief Card

In the game, players must apply strategies to avoid being tracked and scored. The game will also provide options for the player to remain hidden, just do everything to level up.
