Dorothy lived in the middle of the great prairies of Kansas with Uncle Henry, who was a farmer, and with Aunt Em, who was the farmer's wife.

Dorothy vivía en medio de las grandes praderas de Kansas con tío Henry, que era granjero, y con tía Em, que era la mujer del granjero.

Their house was small because to build it they had to transport the wood in a cart from a distance of many kilometers.

Su casa era pequeña porque para construirla habían tenido que transportar la madera en una carreta desde una distancia de muchos kilómetros.

There were four walls, a floor and a roof, which made one room and in that room there was a rusty cookstove, a cupboard for the dishes, a table, three or four chairs and the beds.

Había cuatro paredes, un piso y un techo, que completaban una habitación; y en esa habitación había una oxidada cocina de hierro, una alacena para los platos, una mesa, tres o cuatro sillas y las camas.

Flowlingo uses immersion techniques to help you learn a language. Immersion is a technique used in bilingual education, in which two languages are used to teach in a variety of topics, including math, science or social studies. You will find individual tabs for web pages, videos, music, books and one for the words you are learning. When you select the target language, more content will appear in that language. For example, it includes links to popular websites from BuzzFeed, CNN, Wikipedia, and more.

When reading a book, choose the difficulty level from **Basic** to **Max**. At **Basic** level, each word will include a translation, but not at **Max**. When watching videos, you can listen and read them if you want. You can also click on words, add them to the flashcard to save and review later. When you review the words, the application will show you pictures to help you remember the words.

Knudge.me helps you learn and improve English vocabulary effectively and scientifically. This application uses artificial intelligence and gamification (application of principles, elements in game design into fields, non-game situations with the aim of making participants feel excited and interactive. more) to simplify the learning

process. It provides you with different types of courses, multimedia support and word games to help you learn good vocabulary. There are courses like common English verbs, the difference between words or mistakes and the use of vocabulary building at different levels.

Based on your selection, new content will be unlocked through notifications every few hours. Through a flashcard, it tells you the meaning of words with specific images and examples. The application will mix the words you have learned with new words, so you will not get bored.

Repeat questions to check if you have learned the new word. For each correctly answered question, you earn a credit. Knudge.me also offers 12 different word games focused on enhancing vocabulary, reading and writing speed. You can even create a challenge to play games with friends.

Vocabulary builder from Magoosh helps you learn the exam level words for different competitive exams. The application includes three parts: Vocabulary common for GRE and GMAT, high school vocabulary for ACT and SAT, and English learning vocabulary for TOEFL and IELTS.

When you select a part, the application has multiple categories (**Basic, Intermediate** and **Advanced**) and the levels in each category. At each level, the application will ask you multiple choice questions. All you have to do is choose an exact meaning. Don't worry if you answer incorrectly because it's part of the learning process.

The application uses intermittent repetition technology, which means it will ask you the same recurring question until you really master it. You can also join a random user to play a turn-based game, then Vocabulary Builder will randomly select 20-25 difficult words. Your goal is to answer those questions correctly before time runs out.

# *Author's Personal Note*

A heartfelt thanks to Evelyn M. Duffy, my assistant on five books that have covered four presidents. President Trump presents a particular hurdle because of the deep emotions and passions he brings out in supporters and critics. Evelyn immediately grasped that the challenge was to get new information, authenticate it and put it in context while reporting as deeply as possible inside the White House.

Evelyn knew this was history and we had to get as much as possible quickly while memories were fresh and documentation and notes still available. At times we researched, interviewed, transcribed and rewrote sections of the book in a day or two covering foreign policy from North Korea to Afghanistan and the Middle East; and on the full range of domestic issues from trade, immigration and taxes.

You often use a dictionary to find the meaning of a word. But this is not the best method to learn new words. The dictionary application does not allow you to memorize the word and they lack context or multimedia support to help you remember a word. That is where the Vocabulary Word application can be useful.

You can add words to your vocabulary list from any application. Select any word, press the three dots menu and click **Vocabulary List**. Or you can share a word via the **Share** menu . The word will be added to the **My List** tab . When you click on the word, you'll see details including definitions, wiki links, synonyms, sample sentences and searchable notes or tags.

**Discover** tab includes easy and difficult words. You can add a word from the **Discover** tab to your list. When you start filling your words on the **My List** tab , you'll see a periodic message to help you remember the word. This app also allows you to take tests using fast word games. If you are an avid reader, this application is especially suitable for learning vocabulary.
