

Top 3 most awesome gaming laptops 2019

Here are the most powerful gaming laptops in 2019 with a pitiful design for gamers.

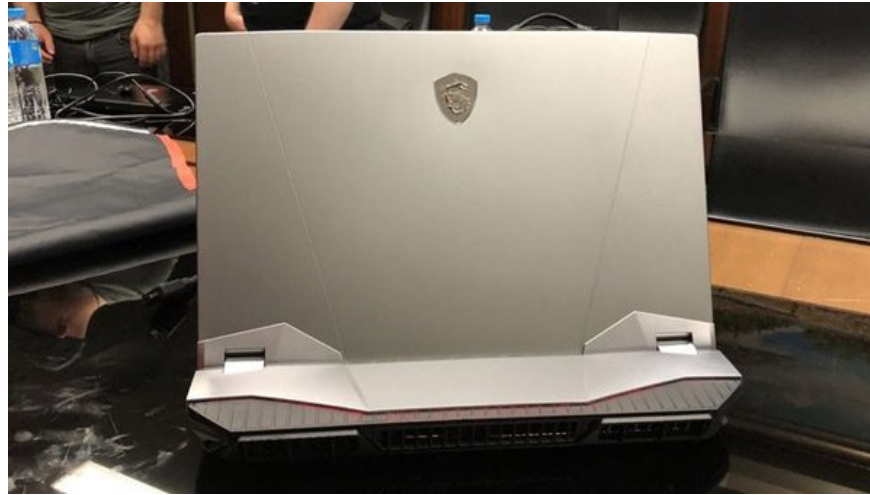

Here are the most powerful gaming laptops in 2019 with a pitiful design for gamers.

MSI GT76 Titan (VND 112 million)

MSI GT76 Titan impresses users with its powerful Intel Core i9-9900K processor, usually for desktop computers. This chip can be overclocked to a maximum speed of 5 GHz thanks to the Cooler Boost Titan cooling system including 4 fans and 11 copper pipes of the machine.

The MSI GT76 Titan also has 64GB of RAM, a GeForce RTX 2080 graphics card with 8 GB of VRAM, 1 1TB SSD hard drive, 1 1TB HDD hard drive at 7,200 rpm. It has a metal casing and weighs up to 4.56 kg.

The version sold in Vietnam is equipped with Full HD screen, IPS panel, anti-glare, supports G-Sync frequency of 240 Hz.

Asus Mothership GZ700 (VND 180 million)

Launched by Asus at CES 2019 earlier this year, the Asus Mothership GZ700 is its strongest ROG (Republic of Gamers) gaming laptop.

ROG Mothership has the strongest configuration among gaming versions released in 2019, with the 9th Gen Intel Core i9 chip and has been overclocked for the strongest performance. It is equipped with Nvidia RTX 2080 Max-Q graphics card, 64GB RAM, 3 M.2 PCIe x4 RAID0 SSDs with a total capacity of 1.5TB, speed of 8,700 MB / sec.

The version sold in Vietnam has a 17.3-inch screen, Full HD resolution with a screen sweep frequency of up to 144Hz, a response speed of 3ms and G-Sync support for a smoother gaming experience.

The front of the device has a diagonal scratch pattern and the illuminated RGB logo is responsible for protecting the screen when closed.

Acer Predator Helios 700 (VND 110 million)

Predator Helios 700 has a very strong configuration with the latest 9th Gen Intel Core i9 chip (can be overclocked), 64GB RAM, GeForce RTX 2070 graphics card or Nvidia GeForce RTX 2080 .

The machine is equipped with a keyboard with a sliding mechanism called HyperDrift, when pulled down to reveal the cooling system and lights below. The touchpad is tilted, forming a shelf for hands to help gamers avoid hand fatigue when operating for a long time. The machine is up to 41.7mm thick and weighs 4.5 kg.

1. 5 causes of fast laptop failure, users should know to avoid
2. Acer Swift 3 S, ultra-light laptop and 11-hour battery life
