

# Top 5 best 15 inch laptops 2020

15-inch laptops are neither too big nor too small, they are reasonably sized. The following is a list of the best 15-inch laptops 2020.

15-inch laptops are neither too big nor too small, they are reasonably sized. Between large 17-inch laptops and compact 11 to 13-inch devices, these 15-inch laptops are the most popular mobile device on the market.

That's because the best 15-inch laptops offer just enough screen area for productivity tasks, and are compact enough to take them anywhere, as most of them are very thin and light. Plus, they have enough space to hold powerful components - from high-end processors to top-notch graphics cards - making these laptops suitable for intensive tasks like video editing and gaming. .

The following is a list of the best 15-inch laptops 2020.

## Which is the best 15 inch laptop 2020?

1. Microsoft Surface Book 2 - The best 15-inch laptop overall
2. Acer Swift 3 - Comprehensive 15-inch laptop
3. HP Specter x360 15T - The best 2-in-1 15-inch laptop
4. Apple MacBook Pro - The best 15-inch laptop for creativity
5. Asus VivoBook S15 (S532F) - Thin, light and strong

## 1. Microsoft Surface Book 2 - The best 15-inch laptop overall

1. **CPU:** Intel Core i5 - i7
2. **Graphics :** Intel UHD Graphics 620 (i5) - Nvidia GeForce GTX 1060 (i7)
3. **RAM:** 16GB
4. **Screen :** 15 inch 3240 x 2160 PixelSense touch screen
5. **Memory :** 256GB SSD - 1TB
6. **Price:** VND 43 million

### Advantages:

1. High performance
2. Excellent flexibility
3. Great battery life

**Defect:**

1. Expensive

Microsoft Surface Book 2

Microsoft has made a very special product: Surface Book 2. This is an extremely flexible 2-in-1 machine, hiding a lot of power inside the relatively thin design. Thanks to the GTX 1060 graphics card, the Surface Book 2's Core i7 configuration can even handle new games at Full HD resolution and show everything in great detail.

The Surface Book 2 has an extremely long battery life. The only drawback is the price is too high.

## 2. Acer Swift 3 - Comprehensive 15-inch laptop

1. **CPU:** 8th Gen Intel Core i3 - i7
2. **Graphics:** Intel UHD Graphics 620 - Nvidia GeForce MX150 (2GB)
3. **RAM:** 8GB
4. **Screen:** 15.6 inches 1920 x 1080
5. **Memory:** 256GB SSD / HDD 1TB + SSD 256GB or Intel Optane 16GB
6. **Price:** 13 million VND

**Advantages:**

1. Excellent value for money
2. Impressive strong performance
3. Nice keyboard and trackpad

**Defect:**

1. The appearance is not very attractive

### Acer Swift 3

If you don't want to spend a lot of money on Surface Pro 2, then consider the Acer Swift 3. This laptop is very feature-rich.

Acer Swift 3 has an 8th Generation Intel processor and is equipped with many powerful components. You also get an impressive port selection, along with excellent input peripherals (including a large touchpad and backlit keyboard), a fingerprint scanner and excellent battery life.

At first glance, the Acer Swift Swift 3 might look unattractive, but it's a great comprehensive tool.

## 3. HP Specter x360 15T - The best 2-in-1 15-inch laptop

1. **CPU:** 6-core Intel Core i7
2. **Graphics:** Nvidia GeForce GTX 1650
3. **RAM:** 8GB - 16GB
4. **Screen:** 15.6 inch 3160 x 2140 touch screen
5. **Memory:** 256GB SSD - 2TB
6. **Price:** 35.5 million VND

### Advantages:

1. Attractive design
2. Strong performance
3. Stunning 4K screen

### Defect:

1. There are a few weird design decisions

### HP Specter x360 15T

The HP Specter x360 15T is a laptop that looks great with an elegant design, although there are a few oddities, such as the touchpad being placed in an uncomfortable position. This laptop is equipped with 9th Gen Intel Core i7-9750H.

The included Tilt Pen can be used to draw and design on delicate 4K IPS touchscreens. This 2-in-1 device also has a GTX 1650 graphics card, meaning it can even handle 1080p gaming.

## 4. Apple MacBook Pro - The best 15-inch laptop for creativity

1. **CPU:** Intel Core i7 - i9
2. **Graphics:** AMD Radeon Pro 555X - Radeon Pro Vega 20, Intel UHD Graphics 630
3. **RAM:** 16GB - 32GB
4. **Screen:** 15.4 inches 2880 x 1800 IPS
5. **Memory:** SSD 256GB - 4TB
6. **Price:** 52 million VND

### Advantages:

1. Performance is faster than ever
2. Optional 32GB RAM
3. Useful Touch Bar

### Defect:

1. Expensive

## Apple MacBook Pro

If you want a powerful 15-inch laptop that's ideal for creative work - such as video editing or Photoshop - then you should consider the MacBook Pro.

This year, Apple boosted the power of the 15-inch MacBook Pro with the new 9th-generation Intel processor, with options to run up to powerful 8-core Intel Core i9. This 2019 version is a significantly more powerful MacBook than its predecessor.

This 15-inch laptop is ideal for 'heavy' editing with AMD Radeon Pro graphics solutions and the ability to upgrade to 32GB RAM. And don't forget the high-quality Retina display along with the improved Touch Bar! That would certainly be very useful things for creative applications.

## 5. Asus VivoBook S15 (S532F) - Thin, light and strong

1. **CPU:** Intel Core i5-8265U - Intel Core i7-10510U
2. **Graphics:** Intel UHD 620
3. **Screen:** 15.6 inch LED-backlit Full HD (1920 x 1080) 16: 9
4. **Memory:** 256GB / 512GB / 1TB PCIe SSD
5. **Price:** VND 11 million

### Advantages:

1. The bright, colorful 15.6-inch screen
2. Weighs only 1.8kg

### Defect:

1. Average battery life

## Asus VivoBook S15

Although the Asus VivoBook S15 has been designed to be one of the best ultra mobile devices on the market by 2020, it also provides a display large enough for those who need it.

Asus VivoBook S15 boasts a 15.6-inch screen and great performance without compromising on slim design. You can't play heavy games, but you can do some photo editing operations.
