

Top 5 best 17 inch laptops 2020

To make it easier to find the ideal 17-inch laptop, TipsMake.com has compiled a list of the best 17-inch laptops 2020. Find out in the following article.

Owning one of the best 17-inch laptops is awesome. Many 17-inch laptops are now designed for gaming. In fact, the best 17-inch laptops on the market can compete with some gaming PCs for performance. This makes them a great choice for intensive creative work, like video editing and 3D design.

To make it easier to find the ideal 17-inch laptop, **TipsMake.com** has compiled a list of the best 17-inch laptops 2020. Find out in the following article.

1. HP Omen 17 - Great gaming laptop (28 million VND)

1. **CPU:** Intel Core i7 - i9 9th generation
2. **Graphics:** NVIDIA GeForce GTX 1660 Ti - RTX 2080 with G-SYNC
3. **Screen:** 17.3 "diagonal FHD IPS anti-glare WLED-backlit (1920 x 1080) - 17.3" diagonal 4K IPS anti-glare WLED-backlit (3840 x 2160)
4. **Memory:** 512GB SSD - 1TB

Advantages:

1. Good price
2. 4K screen, G-Sync

Defect:

1. Thick plastic frame

HP Omen 17

The HP Omen 17 comes with the most powerful specs in a gaming laptop. What really matters here is the display, as HP offers a number of options, including 1080p with a fast refresh rate.

2. Asus ROG Zephyrus S GX701 - The best thin and light 17-inch laptop for gaming (VND 63 million)

1. **CPU:** Intel Core i7
2. **Graphics:** Nvidia GeForce RTX 2060 - RTX 2080 Max-Q
3. **RAM:** 8GB - 24GB
4. **Screen:** 144Hz FHD (1920 x 1080) panel with G-Sync
5. **Memory:** SSD 512GB - 2TB

Advantages:

1. Highly mobile
2. Good performance
3. The screen shows great colors and accuracy

Defect:

1. Expensive

Asus ROG Zephyrus S GX701

Asus ROG Zephyrus S GX701 is a powerful gaming laptop, but still lightweight and highly portable. Machine is only 18.7mm thick and weighs 2.7kg.

However, with this 17-inch Asus laptop, you still have a six-core i7-8750H CPU powered by GeForce RTX 2080 Max-Q with 8GB of video RAM (with up to 24GB of system memory).

The screen is great, suitable for professional photo or video editing. However, the short battery life and the high price make many users frustrated.

3. LG Gram 17 - The best 17-inch laptop overall (27 million VND)

1. **CPU:** Intel Core i7-8565U
2. **Graphics:** Intel UHD 620 graphics card
3. **RAM:** 16GB
4. **Screen:** 17-inch 2,560 x 1,600 LCD
5. **Memory:** 256GB - 512GB SSD

Advantages:

1. Extremely thin and light
2. Good performance
3. Wonderful screen

Defect:

1. Slightly higher prices
2. Looks uncertain
3. Speakers and keyboard need further improvement

LG Gram 17

As you might guess from the product name, LG focuses on creating a very light and thin notebook, which comes with a 17-inch screen. Gram 17 is 17.8mm thick and weighs 1.34kg.

The 17-inch IPS screen boasts a 2560 x 1600 resolution. Another plus for the LG Gram 17 is good battery life and a wide selection of ports. This laptop delivers great performance thanks to an Intel Core i7-8565U processor, along with 16GB of system memory.

4. Asus TUF Gaming FX705DT - Best affordable 17-inch laptop for gaming (22 million VND)

1. **CPU:** AMD Ryzen 5 3550H
2. **Graphics:** Nvidia GeForce GTX 1650
3. **RAM:** 8GB
4. **Screen:** 17.3-inch FHD (1,920 x 1,080) NanoEdge-level IPS
5. **Memory:** 512GB SSD

Advantages:

1. Impressive performance compared to the price
2. SSD NVMe 512GB
3. Keyboard optimized for gaming

Defect:

1. The webcam and speakers are a bit bad

Asus TUF Gaming FX705DT

This Asus gaming laptop has a Ryzen 5 3550H processor with a GeForce GTX 1650 graphics card with 4GB of video RAM, along with 8GB of system memory. FX705DT also boasts a 512GB NVMe SSD and a backlit keyboard optimized for gaming.

It all makes the Asus TUF Gaming FX705DT a great choice to handle the majority of games at a fine level of detail, while keeping things running smoothly.

5. HP ZBook 17 G5 - Best 17-inch workstation (VND 46 million)

1. **CPU:** Intel Core i5 - Intel Xeon
2. **Graphics:** Up to Nvidia Quadro P5200
3. **RAM:** Up to 128GB
4. **Screen:** 17.3 inch HD SVA eDP anti-glare 1,600 x 900 - 17.3 inch 4K IPS DreamColor (or optional touch screen)
5. **Memory:** NVMe SSD 512GB / SSHD 2TB / Intel Optane 16GB

Advantages:

1. Extremely strong
2. Ultimate 4K screen

Defect:

1. A huge machine
2. Expensive

**HP ZBook 17 G5**

If you want extreme performance from your 17-inch laptop, HP's most recent ZBook will be the perfect choice. It is equipped with the most advanced Intel Xeon processor - or up to the Core i9-8950HK - with 16GB of video RAM.

The ZBook comes with a 17.3-inch 4K IPS DreamColor display, capable of 100% AdobeRGB coverage (or has a more basic 1600 x 900 panel option). There are various storage options like PCIe NVMe SSD, SSHD or Intel Optane memory. The screen of the HP ZBook 17 G5 is also really a great thing.
