Currently, threats from dynamic software, malware, viruses . etc. are all around us, they can infect computers from any source. Therefore, an anti-virus software to protect the computer is essential. Currently on the market there are many different antivirus software vendors, each row has its own strong points. In this article, TipsMake.com will introduce to you the top 5 best free antivirus software today, please refer.

1. Avast Free Antivirus

Avast is one of the easiest-to-use antivirus software and one of the few programs that provides solid protection against strange virus attacks - new threats that anti-virus programs The virus has not been updated yet to identify it. Impressively, Avast tried to protect against 100% of all new malware attacks in expert tests. Since Avast merged with AVG Antivirus to provide a more robust solution, they have provided comprehensive anti-malware protection with a range of useful features that are usually only available through paid services. charge.

Features provided:

1. On-demand and real-time scanning
2. Protect web and email
3. Browser plugin
4. Hardened mode
5. Safe browser for banking and shopping
6. Video downloader
7. Password manager
8. Wi-Fi / network scanner

2. AVG AntiVirus Free

AVG Technologies is one of the biggest names in the antivirus industry and is loved by users because it runs continuously in the background without you having to do anything. AVG antivirus is still a good choice to

protect your computer. The free AVG antivirus software has earned good ratings from virus laboratories. It has features like link scanning for malicious links, downloads, and email. You can also scan your PC for performance problems with this free antivirus software. AVG has recently been acquired by Avast but all AVG products are still ongoing. So it's your choice now, choose Avast or AVG. Free AVG is available for Mac, Android and PC.

Features provided:

1. System optimization tool
2. Download and scan emails in real time
3. Browser extensions online shopping
4. Do not disturb mode
5. Document destruction feature

3. Kaspersky Free Antivirus

Kaspersky has been one of the leading antivirus companies for a very long time and its products regularly appear at or near the top of the scoreboard for most major testing laboratories. Kaspersky Free Antivirus provides you with the company's top-rated antivirus engine and blocks intelligent malicious links completely. You don't even have to do anything - just leave the application running in your system tray and you will hardly know it there.

Features provided:

1. Privacy protection
2. Protection for all devices
3. Scan the gap
4. PC Cleaner
5. Privacy Protection
6. Troubleshooting Microsoft Windows

4. Bitdefender Antivirus Free Edition

One of the most recommended free anti-virus software is **Bitdefender**, and it is also one of the fastest free antivirus programs available, with little impact on your computer's performance. It consistently ranks first in various anti-virus tests.

Although the free version does not provide all the special features that paid versions bring, Bitdefender Free still includes particularly good basic features.

Features provided:

1. Protection from scams
2. URL blocking
3. Extensions for browsers
4. Anti-ransomware tool
5. Cleaning tools

5. Avira Free Antivirus

Avira has been greatly improved after the redesign in 2018. Now it becomes lighter and has less impact on computer performance, and it comes with a more user-friendly interface. What makes it different is its comprehensive protection against everything from malicious viruses to the most dangerous Trojans. Plus, the heuristic tool allows it to detect really good viruses (unknown threats) - a feature not often seen with free anti-

virus software.

This perfect and versatile antivirus software also integrates many additional features to give users more choices.

Features provided:

1. Firewall manager
2. Extensions for browsers
3. Scan fast, full and customize
4. Scheduled scans
5. Privacy protection to block online advertising
6. System acceleration tool
