Launched in March, Animal Crossing: New Horizons has crazy young people and spread dizzying speed on social networking sites.

Within the first 6 weeks of being released, Animal Crossing: New Horizons reached a world record when it reached 13.41 million copies. In the Vietnamese market, these game tapes are now sold out in online stores. Not only that, this game is so attractive that many people who have never played games on Nintendo's systems have to spend money to experience.

Among Us

Another popular name that cannot be ignored is Among Us. You can [download Among us](#) and play here. In the past time, this game is a game that is storming the gaming community. Needless to say about the appeal of this game as you can see it appearing in most of the prestigious charts.

Among Us puts players in teams of 4-10 players to repair a space station by completing various missions. While all try to complete the mission, there are killers mixed into the crowd to secretly kill each one. The game was originally released in 2018, but at the time of its launch there were very few people playing the game. However, in recent times, Among Us suddenly hot back with tens of millions of plays every day.

Among Us's highlight is the gameplay in the form of "Werewolf" that makes everyone have to deceive each other to win. The point of the matter is that you must know or recognize who is the truth, who is the liar to make the best decision.

Call of Duty: Warzone

Launched in March 2020, Call of Duty: Warzone used to be considered a phenomenon of the game world. This is a completely free standalone expansion of Call of Duty: Morden Warfare. That means you don't need to own the original version but you can still download and play it.

In general, Call of Duty: Warzone's Battle Royale mode allows 150 people to compete in a large map. Each team consists of 3 people, will support and coordinate with each other with the goal of becoming the last survivors.

Each player has a pocket with a start of 0 \$. To increase this amount, you have to go pick up the money bags around the map. In addition, killing other players will also help you increase your income. This money will be used to buy solid items, items, old support, heavy weapons and resurrection abilities.

With the first death, each player will have another chance to live again. You will be pushed into a 1vs1 mini arena. The winner of this match will be returned to the main arena. In addition, your teammates can also help you revive by spending money, \$ 4500 / life.

There are many different types of supports that AI can go with your team. For example, you can rent a helicopter to shoot at a certain location on the map . Of course, these activities will cost a lot of money.

Fall Guys

Fall Guys' unexpected success is due to the extremely fun game and is seen as a unique addition to the competitive and saturated Battle Royale game market. Unlike other gunshot Battle Royale games, Fall Guys has a fun color when players are transformed into a bunch of silly, bean-shaped creatures trying to overcome challenges to become a winner. final. With a bright, playful, and colorful aesthetic, Fall Guys is the complete opposite of what you'd expect when uploading to Battle Royale.

Valorant is an FPS game once known as Project A, first announced in October 2019, in the new series of Riot Games - the father of League of Legends. The biggest difference of Valorant compared to games of the same genre like Overwatch or Paladins, is that even though the characters possess unique skill sets, most of them are auxiliary moves, while the fighting is still determined by conventional gunfights.

Since the release of the closed beta on April 7, Valorant has quickly created a great attraction, even threatening to be a potential rival to future FPS games like CS: GO. , Overwatch.
