1. PLAYERUNKNOWN'S BATTLEGROUNDS

This is definitely the hottest game in 2018, but when we hear the name, we know right away what this game is. **Playerunknown's Battlegrounds** is also known by the gaming community as PUBG, this is a survival game line with shooting to fever the gaming community right from its launch until the present time. In the game, you will be playing a warrior then dropped on an island with 99 other people, your task is to search for equipment such as weapons, ammunition . etc . then find a way to survive under the muzzle of the enemy. Danger will always take you down so be careful and try to be the last person to survive.

2. ARK: SURVIVAL EVOLVED

Another famous survival game is ARK: Survival Evolved, in the game you will return to the ancient era where dinosaurs still exist on earth. Starting the game you have absolutely nothing in your hand so your task is to explore the world around you and find a way to survive in a world full of danger from the big dinosaurs. However, if you do not like to play alone, you can choose to become teammates of other players, build a tribe and fight together. Thanks to this factor, this is a pretty fun game if we play with friends.

3. THE FOREST

If you are a fan of horror games, *The Forest* is the choice for you. Combining horror and survival elements, the game will bring you a completely new experience. In the game you will be the only one to survive a plane crash and get lost in a mysterious forest. Here you have to search for tools and food to survive and explore the world around you. But the special point is that the forest is full of dangers from cannibal tribes and even mutants due to brutal experiments. Although it is a survival game, the game has a very interesting and mysterious story so to experience this game best, you should learn about the story of *The Forest* before playing.

4. SUBNAUTICA

If you are bored with the survival game in the forest or on the ground, *Subnautica* will be a whole new experience for you. Instead of living in the forest in this game, you will have to survive on a strange planet full of immense water mites filled with the dangers of strange creatures that you have never seen before. You will have to live in water 24/24 so the most important thing is oxygen to breathe, in addition to you you must also avoid yourself from being hungry. The game has a number of different game modes such as: **Survival** - (**Survival** , worry about food and drink, blood), **Adventure** - (Mainly exploring the seabed, only Oxy and HP), **Creative** - (Relaxation creative to build like *Minecraft*) and finally **hardcore**- (Like survival like death is to play again from the beginning). Because the game is still in development, the plot is not yet complete, but in return the game has very nice graphics because of the sea bed environment so the colors are shimmering fanciful. In

short, this is a survival game worth your experience.

5. RUST

If you have experienced harsh survival games like ARK Survival, The Forest, Dayz . etc, then RUST is a game that you cannot ignore. Enter the game with just a stone and a torch and the battle is like a pupa you must survive in a world full of wild. Use the tools you have in hand to find food, build yourself a hidden place to cope with the hungry and the cold, you will find this is an extremely harsh world. Not only that, you can absolutely use your creativity to create powerful weapons such as bows or even powerful fire guns to fight with other players. The game has a pretty nice and realistic graphics that will give you a very memorable experience, especially when playing with friends.
