

Top 5 best tablet keyboards 2019

Tablets are miniature devices with many features, but they have one drawback: no keyboard. This article will introduce you to some of the best tablet keyboards that you can review and choose for yourself the best keyboard.

Tablets are miniature devices with many features, but they have one drawback: no keyboard. You need to use the touch screen if you want to type the text and they are much slower when using the keyboard. Thankfully, there are many keyboards that can be used with tablets and many types to improve the typing experience 10 times. This article will introduce you to some of the best tablet keyboards that you can review and choose for yourself the best keyboard.

Note: The tablet keyboard price in this article is only the reference price at the time of writing, subject to change. You should contact the seller to get the most accurate price.

1. Top best gaming keyboard in 2019
2. Top best wireless keyboard for Mac and PC
3. Best ergonomic keyboard (Ergonomic)

1. Artek Steel Portable Wireless Bluetooth Keyboard (580 thousand VND)

Advantages:

1. Durable design
2. Comfortable to use
3. Compact and lightweight
4. Can be used with any tablet
5. Great battery life

If you want to own a tablet computer that is both affordable and quality, Arteck Steel Portable Wireless Bluetooth Keyboard is the right choice for you. This keyboard is made of stainless steel, resisting the external impact excellently. In addition, it is designed to feel comfortable to type. This keyboard is very thin and light, suitable for use when traveling.

In terms of compatibility, this keyboard can work with all types of tablets thanks to Bluetooth connectivity. You can even connect to a smartphone if you want. Its battery can be used for about 6 months.

2. Jelly Comb Foldable Bluetooth Keyboard (nearly 700 thousand VND)

Advantages:

1. Extremely compact and lightweight
2. Durable design
3. Comfortable to use
4. Can be used with any tablet

Defect:

1. Low battery life

This convenient keyboard comes from foldable Jelly Comb, suitable for traveling. It is also very light and made from aircraft aluminum alloy so you don't need to worry about it taking any damage. It can connect to modern tablets like the Arteck Steel Portable Wireless Bluetooth Keyboard. The battery of this keyboard can only be used for 48 hours, so you need to bring the charger cable with you.

3. Arteck HB030B Universal Bluetooth Keyboard (465 thousand VND)

Advantages:

1. Good price
2. Comfortable to use
3. Compact and lightweight
4. Can be used with any tablet
5. Great battery life

Defect:

1. Unstable design

If you want to find an affordable and good quality keyboard, your best option is the Arteck HB030B Universal Bluetooth Keyboard. It is made of plastic so it is less durable than the above two keyboards. But it gives a great feeling when typing and even with backlight. In addition, this keyboard has an amazing lifespan of up to 6 months and can be used with all modern tablets.

4. Logitech Keys-to-Go (nearly 700 thousand VND)

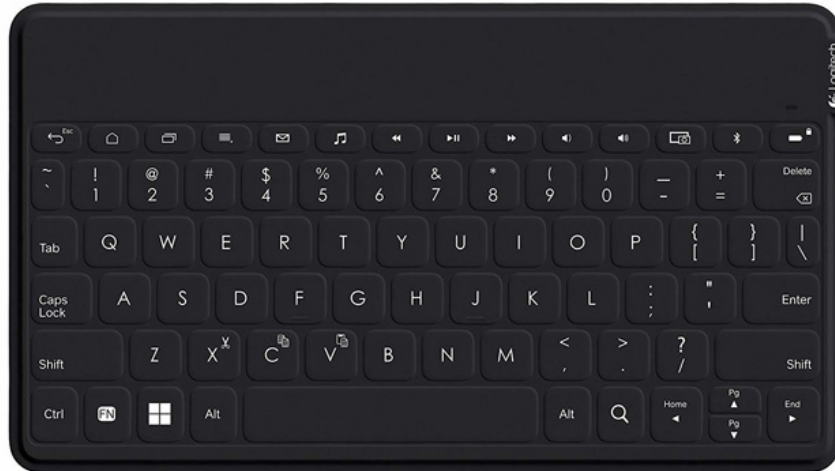

Advantages:

1. Waterproof
2. Comfortable to use
3. Compact and lightweight
4. Good battery life

Defect:

1. Unstable

2. Cannot be used with Apple devices

If you regularly drink water or use other liquids when working on a tablet, the Logitech Keys-to-Go keyboard is definitely on your selection list. It is designed with a water-resistant cover and other liquids, keeping it safe from spills that can damage another keyboard. In addition, it is slim, light and comfortable to use, providing a great experience for users. However, the keyboard is not available with Apple devices, only works with Windows and Android tablets.

5. Microsoft Type Cover (Surface Pro) (1.8 million VND)

Advantages:

1. Extremely comfortable to use
2. Pretty durable
3. No batteries needed
4. Can be used as a screensaver

Defect:

1. Expensive
2. Only for Surface Pro

If you are using Surface Pro, you should consider the Microsoft Type Cover keyboard. It is made of high quality, durable alcantara fabric and is especially comfortable when typing, the color is not fading. It doesn't need batteries, can be pinned to tablets and used without worrying about running out of battery. In addition, you can fold the keyboard to the tablet screen when not in use, like a screen protector cover. However, this keyboard is quite expensive but in terms of long-term value, it is worth buying it.

Tablets are great devices everyone can use, but the lack of keyboards makes it difficult to work, but you can fix that by buying a keyboard to use as a laptop.

There are many tablet keyboards on the market, hopefully this article provides you with suggestions so you can choose to buy a keyboard like that.
