

Top 5 best Xiaomi WiFi routers

Wireless routers are being used in almost every corner of the world today. The best wireless router will ensure your network connections are strong and reliable.

Wireless technology is considered to be one of the most advanced and convenient technologies ever invented. Wireless routers are being used in almost every corner of the world today. The best wireless router will ensure your network connections are strong and reliable. Here are the top 5 Xiaomi WiFi routers that can be purchased at the moment.

1. Xiaomi Mi Mesh Router

Reference price: VND 3,450,000

Xiaomi Mi Mesh Router is a set of 2 routers using WiFi Mesh technology. It creates a stable wireless connection, broadband and high speed in your house.

Characteristics:

1. Support 802.11k / v protocol, auto network switch
2. Dual band 2.4GHz and 5GHz
3. Optimized for Xiaomi Smart Home
4. Giving strong signals can penetrate walls
5. 4 integrated signal amplifiers

6. Qualcomm 4-core ARM DAKOTA processor
7. Support for IPv6
8. The new generation of MU-MIMO technology

Advantages:

1. Suitable for many different houses
2. Good signal, no dead zones
3. Easily manage your child's online time
4. Can connect up to 248 devices

Defect:

1. Price is higher than standard routers
2. Only able to make the most if you live in a large space
3. Takes up more space than standard routers

2. Xiaomi Mi WiFi Router 3A

Reference price: 530,000VND

Xiaomi Mi WiFi Router 3A has a good-looking, lightweight appearance. The classic design with four powerful antennas provides wide coverage when multiple devices are connected. Xiaomi Mi WiFi Router 3A is ideal for use in large homes. Router configuration and management is done through a well-designed and intuitive web interface.

Characteristics:

1. The 5GHz frequency can help the antenna to achieve 6dBi and 2.4GHz is capable of increasing to 5dBi.
2. Monitor the status of Xiaomi Mi WiFi Router 3A via the app
3. Device with MT7628A processor
4. There is no USB 2.0 interface
5. WiFi distance can reach 100 meters
6. Supported systems include Windows 8, 8.1, 7, XP, Vista, 2000, Mac OS and Android
7. Maximum LAN data rate is 100Mbps

Advantages:

1. High data rates up to 1167Mbps (5GHz) and 867Mbps (2.4GHz)
2. There are 7 built-in network security features
3. Can manage parameters and networks easily through the Xiaomi Mi WiFi app

Defect:

1. Limited capacity in areas with lots of WiFi

3. Xiaomi Mi WiFi Router HD 2TB

Reference price: VND 2,225,000

The next generation of Mi Routers, Xiaomi Mi Router HD, has improved performance and strong WiFi coverage, requiring no external extenders. Mi Router HD uses the latest 802.11ac standard, allowing several devices to connect at the same time and reach a maximum speed of 2533Mbps.

Characteristics:

1. 1.4GHz IPQ8064 dual core main processor
2. Latest WiFi 802.11a / b / g / n / ac standards
3. Dual band 2.4GHz and 5.0GHz networks simultaneously, speeds can go up to 2600Mbps
4. 4 external antennas for faster wireless performance at longer distances

Advantages:

1. Beautiful and elegant appearance
2. Easily manage network settings with the Xiaomi MiWiFi app
3. Support external hard drive

4. Xiaomi Mi WiFi 4 Router

Reference price: VND 1,228,000

Mi WiFi 4 Router has a trend-keeping design, 4 antennas and an aluminum-magnesium alloy housing. The Xiaomi Mi WiFi 4 Router comes with the latest 802.11ac WiFi technology, which is 3 times faster than the wireless N speed and delivers a combined wireless data transfer rate of up to 1167Mbps.

Characteristics:

1. Mi Router 4 has an MT7621A processor that supports up to 128 devices, 128MB RAM and a 128MB drive

2. Supports dual band Gigabit WiFi (2.4GHz and 5GHz)
3. The new version includes WPA-PSK / WPA2-PSK encryption and DoS protection
4. There is a feature button to quickly connect new gadgets
5. Manage and configure via browser or mobile app for Android and iOS

Advantages:

1. Ideal for HD streaming, online gaming and other bandwidth intensive tasks
2. 4 antennas for wider coverage and better performance when multiple devices are connected
3. Ideal choice even for a big house

5. Xiaomi OLLIVAN Wireless Router

Reference price: VND 1,042,000

Xiaomi OLLIVAN is Xiaomi's low-end wireless router, priced at less than \$ 45 (VND 1,042,000). This router has all the basic features and capabilities you've seen in most of the above routers. Xiaomi OLLIVAN is a great wireless router for indoor use.

Characteristics:

1. Xiaomi OLLIVAN is a dual band router
2. There are speeds of 300Mbps and 867 Mbps for the 2.4GHz and 5GHz bands respectively
3. There are four wireless antennas
4. Has MT7620A processor and 128MB DDR2 RAM

Advantages:

1. Convenient USB 2.0 port for software upgrade
2. 2 Ethernet ports are great for connecting TV and game consoles
3. The router has WPA-PSK / WPA2-PSK encrypted wireless security protocols
4. 128MB storage capacity

Defect:

1. Installing a router can be a challenge for many
2. The speed of the router is quite low.
