

# Top 5 cheap, cheap headphone headphones

Are you looking to buy genuine, cheap headphones but don't know any reputable places to sell and which ones should you buy to get the best product, tailored to your needs and budget? So today we will list 5 best and most affordable headphone headsets for your reference and easier choice.

Are you looking to buy genuine, cheap headphones but don't know any reputable places to sell and which ones should you buy to get the best product, as well as your needs and budget? So today we will list the top 5 best headphone headsets - the most worth buying for you to have a better reference and choice.

## Sony MDR-ZX310AP headphones cost 740,000 - 850,000 VND

"Top 5 best headphones to buy" can not ignore the Sony brand line, has occupied many love and trust of young people. More specifically, the line of Sony MDR-ZX310AP headphones - the product has many colors and along with the impressive and modern design brings many useful and ideal ways to use.

### Advantages :

1. **Built-in convenience microphone:** The Sony MDR-ZX310AP headset is equipped with convenient microphones, meeting your needs such as voice chat, skype . Micro is designed with advanced noise filtering technology, clear sound and eliminate outside noise, making it easy to identify words clearly.
2. **High quality audio:** 30mm wide Dynamic diaphragm membrane with neodymium magnet technology for high quality sound reproduction. At the same time, the audio frequency range: 10 - 24,000Hz, the sensitivity of 98 dB / mW helps the melody emit faithfully and vividly.
3. **Smooth ear design:** The tangle-free twist cable makes it more convenient for you to move and use. Besides, the earcups are made of high-quality leather, ensuring good sound retention, providing a comfortable feeling. Colorful products give you many choices.
4. **3.5mm connection standard:** The product uses the most popular 3.5mm connection standard. You can easily connect to many different devices to enjoy music wherever you are.

### Defect:

1. The product has only one connection standard, the 3.5mm jack, so for those who are looking for a headphone with bluetooth, the Sony MDR-ZX310AP headset is not integrated.
2. This is a cheap, deep bass line that has not really been favored as much as the Sony headphones with a higher segment of VND 1,800,000 - VND 2,500,000.

## **Xiaomi Mi Headphone Comfort Headset ZBW4353TY**

Xiaomi is a famous and reputable brand from Chinese electronics manufacturer based in Beijing. Xiaomi Headphone products have durability and very internal strength when investing in bass and price is quite comfortable than other products of the same class, making every user can own. In this article, I will introduce the Xiaomi Mi Headphone Comfort headset ZBW4353TY is being favored by many young Vietnamese because of the stylish fashion that this headset presents, as well as other outstanding sounds.

### **Advantages:**

1. The product consists of 2 main parts: Headband and pair of large Ear Pads on both sides, Headband section is made of plastic with padding made of Silicone material, providing smoothness to your ears. The headband can also adjust the width to fit different head sizes. Plastic ear pads, large in size, embrace the listener's ears, combined with soft and soft leather padding to help you feel comfortable when wearing for a long time.
2. The bass and treble are quite impressive, meeting all the needs of audio entertainment such as listening to music or watching movies of many people.

**Defect:**

1. However, because of the white tone, combined with the two-eared leather cover, it is difficult for users to keep the "dashing" look of this headset for a long time.
2. For connoisseurs, you should definitely need a more advanced headset. Because bass is not much focused, the treble sound is better but not really. But when there is a mix of mix, it will meet many sound standards that the basic listeners like.

**Wireless headset H6080 costs 1,090,000 - 1,200,000 VND**

A neat headset, with bluetooth 4.0 connection, . do you like it? That's the Rapoo H6080 wireless headset that connects Bluetooth 4.0 quickly with just one touch.

**Advantages:**

1. Bluetooth 4.0 is fast in the 10-meter connection distance with current audio-visual devices. In addition, this headset also supports adding Microphone for users to listen to call anytime, on the headset bar and equipped with additional volume adjustment.
2. The loudspeaker is designed to fit into the ear and get a smooth night with soft cotton, allowing you to enjoy the full tone with the anti-music release feature.
3. H6080 is a combination of clear reverberation and powerful bass, allowing users to experience the best melodies.

**Defect:**

1. This is a wireless headset, only with bluetooth 4.0 connection, so it is only compatible with devices that support this bluetooth feature.

## **Creative MA2600 headphones cost 1,800,000 - 1,980,000 VND**

Creative - Singapore brand has created a very charismatic sound with a lighter price - the Creative MA2600 headset

### **Advantages :**

1. The 40mm wide diaphragm is quite sophisticatedly designed for clear sound. The cushion of the speaker membrane is quite thin, but the soft leather around it will help you feel more comfortable.
2. Powerful bass force stretches round to make perfect for this headset. The appearance of Mid bass in this mid-range headphones makes the MA2600's bass band feel deeper and wider. Upperbass sounds full but still offers control, not encroaching on other sound bands. The combination of the Mid range is naturally full of detail and Treble echoes the listener with every deep song, imbued with each sweet melody, or the clearness of the negative sound when the song is written. Rock, vibrant Dance.
3. The headphone cord design is flat, anti-tangled

### **Defect:**

1. The soundproof headphones are not good because the music speakers designed next to the speaker membrane.

## **Sony XB650BT Bluetooth headset costs from 2,549,000 to 2,990,000 VND**

Adding another line of headphones is a good idea when naming it here as a Sony XB650BT Bluetooth headset. This headphone is included here is not without reason, because the biggest advantage is the terrible bass for every great melody.

### **Advantages:**

1. Extremely powerful bass for users to experience the best timbre, to meet a variety of entertainment needs from powerful Bolero or Rock music genres to movies, or live in the gaming world with every resounding sound. Real HD.
2. Bluetooth 4.0 connection quickly with just one touch double. With 30-hour usage mode, users can listen to music, entertain continuously without fear of interruption, or gamers do not have to stop playing.
3. Smart design, 360-degree rotating speaker, light weight, . will make you comfortable and impressed with this product.

### **Defect:**

1. It is hard to find the disadvantages of this headset. If so, it may be missing without supporting a 3.5mm jack. If you have multiple connections like that, there will be more utilities to use, as well as making it easier to choose a compatible device.

2. The metal part in the frame may be scratched if there is friction from a pointed object.

These are ideal headphones for many different prices. Hopefully, this article will help you easily choose a headset suitable for you.
