Mini car washers are now quite popular for use, which is a great choice for every family because of convenient features such as washing cars, floors, cleaning the yard . quickly. However, when you intend to buy a car washing machine, there are quite a lot of questions.

To find out more about this line of washing machines and have more options, you can refer to the article "Top 5 cheap mini car washers in good quality".

What is a mini car washer?

Mini car washers can be understood as compact high-pressure pumps that can be moved with one hand, designed specifically for washing vehicles (cars, motorcycles, bicycles, etc.).

Mini car washer has many advantages:

1. Compact design, easy to move, easy to install
2. Designed so that the use is the most convenient, simplest
3. Especially the machine is safe for users because the parts are wrapped in a plastic cover
4. In addition to washing motorbikes, it can be used to:
 1. Water the tree
 2. Floor cleaning
 3. Sanitize a lot of mud
 4. Cleaning household appliances
 5. Some machines are designed for cleaning: Industrial machines, decks, cleaning cages .
5. Various models, designs, many prices for you to choose

1. Kachi high pressure washer sprayer 1.400W

Advantages:

1. Japanese brand
2. Ergonomic design: wheel, hand pull, coil position on the body, gun rack
3. Strong, water-saving injection pressure satisfies the needs of car washing, watering and floor cleaning
4. Save water when using
5. The price is extremely reasonable, only about 1.3 million

Defect:

1. The machine does not include water supply cord, so you need to equip it

For a feature-rich car washer product like the Kachi 1.400W that costs 1.3 million, it is an extremely reasonable machine.

Refer to product information at META.vn

2. High pressure washer BT526

Advantages:

1. Exclusive brand in Japan
2. High quality materials, good impact resistance
3. Water flow up to 5.5 liters / minute, maximum pressure of 90 bar and the washing nozzle up to 5m long
4. The price is less than 1.2 million

Defect:

1. The machine does not have the supplied water cord
2. There are no wheels but the weight is also quite light

Refer to product information at META.vn

3. Karcher K2 Compact Car washing machine

Advantages:

1. A very prestigious brand in the manufacturing industry of cleaning equipment from Germany
2. Ergonomic design, easy to use
3. Strong spray force, good response to car wash, daily cleaning needs
4. Accessories that meet the needs of home use
5. The price is only about 2.9 million

Defect:

1. No wheels but with handles, light weight easy to take

2. Karcher K2 Compact Car is one of the car washers rated as good compared to the price.

Refer to product information at META.vn

4. Bosch mini car washer AQT 33-11

Advantages:

1. Being able to absorb water by itself
2. Long nozzle and powerful spraying ability
3. There are filters to protect the engine from dirt
4. Price is about 2.2 million

Defect:

1. Not equipped with wheels but with handles and compact design

With a price of 2.2 million, a car washer from a prestigious Bosch brand is a reasonable choice.

Refer to META.vn product information

5. V-JET VJ 100 car wash machine

Advantages:

1. There are wheels to help the moving process very convenient
2. Ability to self-absorb water in pots, buckets, tanks
3. Save energy and save water
4. Price about 1.6 million

Defect:

1. Magnetic motor so the machine has a heavy weight, but in return for a high and durable machine life

A machine with a strong operating capacity but a compact design like VJ 100 is very suitable for family use.
