

Top 5 cheap thermal generators less than 500K worth buying the most

With outstanding advantages, the top 5 cheap price heaters of less than VND500,000 below have been selected and widely used in many different fields.

Do you need to buy heat generators (heat blowers) for work? However, financial term conditions do not allow you to buy expensive products? Do not worry! Top 5 **cheap thermal generators with** less than 500 thousand VND below will help you solve this problem.

content

1. Total TB1206 cheap heat exchanger
2. Cheap heat exchanger Huyndai HTN600
3. Cheap thermostat Oshima MTN-1500
4. Cheap heat exchanger Davitec DV5900
5. Cheap heat exchanger Tolsen 79100

1. Total TB1206 cheap heat exchanger

Total TB1206 hot air blower is used for repairing, assembling household or industrial production such as peeling and varnish, forming, welding and shrinking with hot air, . Machine Lightweight, the handle is coated with non-slip rubber to provide smooth, firm sensations. The outer shell is made of high-quality plastic that can withstand good impact. The Total TB1206 is also equipped with a plastic heat shield to ensure safety for users when operating in tight areas.**Reference price: 399,000 VND.**

Technical specifications

1. Voltage source: 220V - 240V / 50Hz - 60Hz
2. Air flow: 300 - 500 liters / minute
3. Capacity: 2000W
4. Temperature: 350 - 550 degrees Celsius
5. Weight: 0.95kg

2. Cheap heat exchanger Hyundai HTN600

The Hyundai HTN600 is equipped with 2 temperature levels (300 degrees Celsius and 600 degrees Celsius) to help users perform many different jobs. The electronic circuit control system will automatically shut down the machine if the temperature rises too high to ensure safety, minimizing labor incidents to the lowest level. The case is made of heat-resistant plastic, good insulation. Hyundai HTN600 helps users perform tasks such as peeling paint, firing glue, adhesives, plastic, . quickly and efficiently thanks to the powerful capacity up to 1800W. Its compact, easy-to-handle design and can work in narrow areas. **Reference price: VND 430,000.**

Technical specifications

1. Voltage source: 220V / 50Hz
2. Air flow: 240 - 450 liters / minute
3. Capacity: 1800W
4. Temperature: 300 - 600 degrees Celsius
5. Weight: 0.83kg

3. Cheap thermostat Oshima MTN-1500

Oshima MTN-1500 hot air blower has an outer shell made of high quality plastic material with excellent impact resistance and thermal insulation. The weight is quite light, the handle is covered with rubber, facilitating the movement and gives users a comfortable feeling when operating. Oshima MTN-1500 has 2 working temperatures of 300 degrees Celsius and 550 degrees Celsius. The over heat protection mode makes the machine more durable and safer. **Reference price: 450,000 VND.**

Technical specifications

1. Voltage source: 220V / 50Hz
2. Air flow: 300 - 500 liters / minute
3. Capacity: 1000W (level 1) - 2000W (level 2)
4. Temperature: 350 degrees Celsius

Cheap thermostat Oshima MTN-1500

4. Cheap heat exchanger Davitec DV5900

Davitec DV5900 heat blowers are equipped with 3 different working temperatures of 50 degrees C, 450 degrees C and 600 degrees C, which are suitable for use in factories, homes, . The product has a compact design. Help users easily manipulate without hand pain. The outer casing of high quality plastic tape machine is able to withstand impact, scratch, heat insulation and good insulation. On the handle of the device is integrated with a rotary button, allowing users to adjust 2 different speeds depending on the nature of each material.**Reference price: 450,000 VND.**

Technical specifications

1. Voltage source: 220V- 240V
2. Air flow: 240 - 450 liters / minute
3. Capacity: 2000W
4. Temperature: 50 - 450 - 600 degrees Celsius
5. Weight: 0,7kg

Davitec DV5900 heat blower

5. Cheap heat exchanger Tolsen 79100

Tolsen 79100 hot air heater is widely used in home or material manufacturing factories thanks to its ability to quickly melt materials. The product is compact in the form of a handheld gun so it is very convenient to use. Tolsen 79100 can work on a variety of materials such as plastic, electronics, glue making, coal furnace group . and even roasting coffee. The device has 2 customized temperature extremes of 350 degrees Celsius and 550 degrees Celsius. Tolsen 79100 is highly durable thanks to its high quality materials and many international standards. **Reference price: 420,000 VND.**

Technical specifications

1. Voltage source: 220V
2. Capacity: 1000-2000W
3. Temperature: 350 - 550 degrees Celsius
4. Tolsen 79100 hot air boiler

Hopefully, 5 models of cheap thermos for less than 500 thousand VND will help you. Visit META.vn for advice and order quality and cheap products.
