

Top 5 Free Fire characters have the ability to restore the most powerful color

In Free Fire, each character possesses a special skill. A person who can spot an enemy, a movement speed booster or someone who can heal HP and EP. So in terms of healing, which characters have the best healing ability, Free Fire?

There are many ways to **heal in Free Fire**, and some characters even have their own healing powers. In this article, TipsMake will list the top 5 characters with the greatest ability to restore colors in Free Fire.

1. DJ Alok

Perhaps not surprisingly, the name DJ Alok ranks first on the list of characters with the most healed abilities Free Fire. Alok's skills are so strong that after a lot of characters are added to the game, he remains one of the best in Free Fire.

The Drop The Beat ability restores HP to all team members and increases movement speed for everyone within a radius of 5 meters. This effect lasts for 10 seconds with a cooldown of 45 seconds at maximum level. Movement speed bonus is almost 3 times higher than Kelly's ability.

2. Luqueta

Luqueta is a skillful soccer player, known for his "Hat Trick" skill. This ultimate skill helps you to achieve maximum HP per target kill, with a maximum limit of 35 (can be obtained after 2 kills). Overall, the Hat Trick works similarly to the A124's skill, but you don't even have to activate it or care about EP.

3. A124

The A124 combat robot has a skill named "Thrill of Battle" which allows her to become unbeaten in 1 on 1 battles. At maximum level, the A124 can turn 50 EP into HP, giving her effectively 250 HP, enough to outlast most enemies.

In other words, she can instantly heal in the middle of a fight. When combined with other characters on the list such as Alok's abilities, the A124 will be unbeaten. However, since this is an active skill and comes with a cooldown of 90 seconds initially, you must find the best time to use it.

4. Kapella

Although Kapella's "Healing Song" skill is just passive, but the amazing numbers it gives are extremely impressive. You will get 20% more HP when using Medkit. Kapella also heals 10% of HP for other characters. That means Kapella's skills are suitable for combining with all characters in the game.

5. Notora

The girl has a tomboy appearance and is also a member of a biker gang with unique healing skills. When driving a vehicle, her "Race's Blessing" skill can restore all members' HP in the same vehicle as her. At first level, Notora will recover 5 HP every 4.5 seconds and will recover 5 HP every 2 seconds at maximum level. Because this is a passive skill, there is no cooldown and limit for healing, so you can restore your HP to the maximum.

Here is a list of characters with the best healing skills Free Fire. So which is your favorite character?
