

Top 5 good laptops for gamers

There are many factors to create a great gaming laptop, such as processing power, eye-catching graphics or solid designs. Let's take a look at some of the gaming laptops in the price range from 829 USD to 3442 USD.

TipsMake.com - There are many factors to create a great gaming laptop, such as processing power, eye-catching graphics or solid designs. Let's take a look at some of the gaming laptops in the price range from 829 USD to 3442 USD.

Alienware M17x R4

You can hardly find any better gaming laptop than Alienware M17x R4. Complementing the smooth design is one of the most powerful Ivy Bridge mobile processors available today. This model is also equipped with Nvidia GeForce GTX 680M discrete graphics card, RAM capable of upgrading to 32GB and 500GB hard drive. The M17x R4 also has a sleek 17.3-inch LED-backlit screen with a familiar resolution of 1920x1080 pixels. Its battery life is up to 5 1/2 hours, more than 2 hours compared to most competitors of the M17x R4.

Price : 1499 USD.

Origin EON17-S

This desktop replacement laptop is one of the fastest thanks to the Intel Extreme Edition Core i7-3920XM processor overclocked to 4.5GHz. You can also upgrade RAM to 32GB and own an Nvidia GeForce GTX 674M graphics card.

Price : 1560 USD - 3442 USB (depending on configuration).

Samsung Series 7 Gamer

The Samsung Series 7 Gamer laptop does not have any outstanding advantages but in return, the performance is stable without spending much money. It uses Intel's i7-3610QM 2.3GHz processor platform, 16GB of RAM and a 1.5TB large-capacity hard drive with a 17.3-inch display. The keyboard is also a highlight on the Series 7 Gamer with red WASD keys (these keys are most used by gamers).

Price : 1899 USD

MSI GT70

It may not impress the design, but the 17.3-inch gaming screen system will give you good performance with more than 5 hours of battery life - something never seen with a gaming laptop. The built-in features of the GT70 will make you forget about unimpressive designs like three USB 3.0 ports, Wi-Fi standard 802.11 b / g / n (speeds up to 450Mbps) and two hard state drives (SSDs).) SanDisk U100 60GB.

Price : 2,099 USD.

Acer Aspire Timeline Ultra M5-581TG-6666

The only Ultrabook among laptops here, the computer has a 15.6-inch screen with a weight of 4.5 pounds. It is equipped with an Intel Core i5-3317U processor, 6GB RAM, Nvidia GeForce GT 640M graphics card and a

500GB hard drive with a battery life of up to 7 hours. Acer Aspire Timeline Ultra is also suitable for more users for less than 1000 USD.

Price : 829 USD.
