

Top 5 oil-free air compressors have the best reviews from customers

The following 5 oil-free compressors are best-selling in the first quarter of 2019 for dental and medical use. Oil-free air compressors come from reputable brands, high durability, noise reduction.

5 samples of oil-free air compressors below are used by many dental clinics and hospitals. If you intend to buy an oil free compressor, please refer to the products below.

Top 5 best-selling oil-free air compressors in the first quarter of 2019

1. Wing negative oil-free air compressor TW-OF550 - Reference price: 1,700,000 VND

Wing air compressors have a variety of colors to choose from: orange, red, white, yellow, blue, green. Users can also choose 1 of 2 capacity levels to suit the work needs: 9 liters or 25 liters.

Air compressors produce compressed air that does not contain oil and should be used without harm to health, compressed air, environmentally friendly. Wing TW-OF550 has pressure gauges, rugged mechanical design, durable copper wire motor, long-lasting operation.

Wing TW-OF550 oil-free air compressor when using extremely low noise level, 1 minute can charge 110 liters of gas, 3 / 4HP capacity helps to produce compressed air very quickly.

Specifications:

1. Voltage source: 220V
2. Container capacity: 9 liters, 25 liters
3. Pressure: 8 kg / cm²
4. Motor core: Copper wire
5. Model: Direct air compressor
6. Air flow: 110 liters / minute
7. Capacity: 3/4 HP
8. Made in Vietnam
9. Brand: Vietnam
10. Warranty: 6 months

2. Oshima 9 liter oil-free air compressor - Reference price: 1,890,000 VND

Oshima air compressors are one of the extremely famous brands in the Japanese market. This type of direct air compressor helps to produce compressed air that is both fast and effective at avoiding loss of compressed air.

The product has a small capacity of 9 liters, suitable for the needs of small-scale dental clinics. Gas cylinders made of metal coated with electrostatic paint for high durability.

9-inch Oshima oil-free air compressor with small weight that is easy to move. 100% copper wire motor core, operates with 1HP capacity with 8 bar pneumatic pressure.

Specifications:

1. Voltage source: 220V / 50Hz
2. Rotation speed: 1,450 rpm
3. Cylinder diameter: 63mm
4. Motor core: 100% copper wire
5. Model: Direct air compressor
6. Pressure: 8 bar
7. Capacity: 1HP
8. Product weight: 16kg
9. Made in China
10. Brand: Japan
11. Warranty 12 months

3. 1HP oil-free air compressor TW-OF750 35 liter - Reference price: 2,500,000 VND

Wing TW-OF750 air compressor has a large capacity of 35 liters for you to use compressed air comfortably. The continuous amount of compressed air is 145 liters / minute to help users feel comfortable using it.

Air compressors have a fairly simple structure, with pressure gauges, easy to use. The camera body is equipped with 2 wheels and hand pull so users can move the machine to the desired location more convenient.

Motor core wrapped in copper wire for long life. The amount of gas generated is 100% clean and oil-free so it is often used in dental clinics, laboratories .

Specifications:

1. Voltage source: 220V
2. Container capacity: 35 liters
3. Pressure: 8 kg / cm²
4. Size: 75cm x 35cm x 60cm
5. Air flow: 145 liters / minute
6. Capacity: 1HP
7. Made in Vietnam
8. Brand: Vietnam
9. Warranty: 6 months

4. Pegasus TM-OF750 oil-free air compressor (40 liters) - Reference price: 3,800,000 VND

Pegasus air compressors have a very compact round cylinder shape, equipped with pressure gauges to help users easily observe when working with the machine.

A 40-liter container is suitable for use in large-scale dental clinics. Products with small noise should be suitable for quiet environment such as hospitals, clinics, research centers .

Pegasus TM-OF750 luxurious white coating, 1HP operating capacity for pneumatic loading efficiency is 145 liters / minute.

Specifications:

1. Voltage source: 220V
2. Pressure: 8 kg / cm²
3. Model: Direct air compressor
4. Air flow: 145 liters / minute
5. Air tank volume: 40 liters
6. Capacity: 1HP
7. Made in Vietnam
8. Brand: China
9. Warranty: 6 months

5. Air compressor with no oil reduction Wing TW-OF750 (25 liters) - Reference price: 2,050,000 VND

Another product comes from the Wing brand, which is the oil-free air compressor Wing TW-OF750. This is an oil-free air compressor that operates extremely smoothly, compressed air without extreme oil to ensure human health.

When used, it does not generate toxic emissions to the environment. The tank capacity is 25 liters, the air flow is 145 liters / minute. Compact design, fast loading, power saving use.

Specifications:

1. Voltage source: 220V
2. Container capacity: 25 liters
3. Pressure: 8 kg / cm²
4. Model: Direct air compressor
5. Air flow: 145 liters / minute
6. Capacity: 1HP
7. Made in Vietnam
8. Brand: Vietnam
9. Warranty: 6 months

These are the 5 best-selling oil-free compressors on the market, integrating many outstanding advantages so that customers are highly appreciated for quality. Hope to be the best suggestion for you to have more choices when buying.
