3. Notes when buying selfie sticks

There is no shortage of photographic sticks on the market, but not all devices are suitable for you. There will be some caution when we choose to buy a selfie stick.

1. Check device compatibility

Selfie sticks will connect to the phone in different ways, such as jack plugs, bluetooth. You check to see if the phone is connected to the 3.5mm jack. Most of the selfie sticks require the minimum operating system of iOS 5 and Android 4.3 to ensure a stable connection.

2. Check the design of selfie sticks

Each device has a different length and size when folded. We have to buy with easy-to-control criteria, easy to connect to avoid problems when using. The weight of the stick is also interesting, because when you travel long distances or mountain roads you cannot hold a large selfie stick.

3. Material of sticks to take a selfie

Quality selfie must ensure durability, firmness, not loose when used. Usually, you choose ABS plastic with high strength, holding it firmly.

4. Selfie stick feature

Today's shooting sticks have many other functions, such as adding movie mode, charging mode or adding a tripod to place on any plane. You have to determine what needs you have to find the sticks that have such features.

5. Duration of using sticks

The time to use shooting sticks is also very important. When referring to the line of selfie sticks readers should also ask carefully about the battery life, avoid interruption when shooting.

6. Brand and price of sticks

Famous brands, the price of sticks is also relatively high. However, you should still look to buy in reputable places to ensure quality.
