

Top 5 ultrabooks good for work

Ultrabook is the laptop line flooding the market today. However, a small amount of ultrabooks are designed for light office work as well as entertainment.

Ultrabook is the laptop line flooding the market today. However, a small amount of ultrabooks are designed for light office work as well as entertainment.

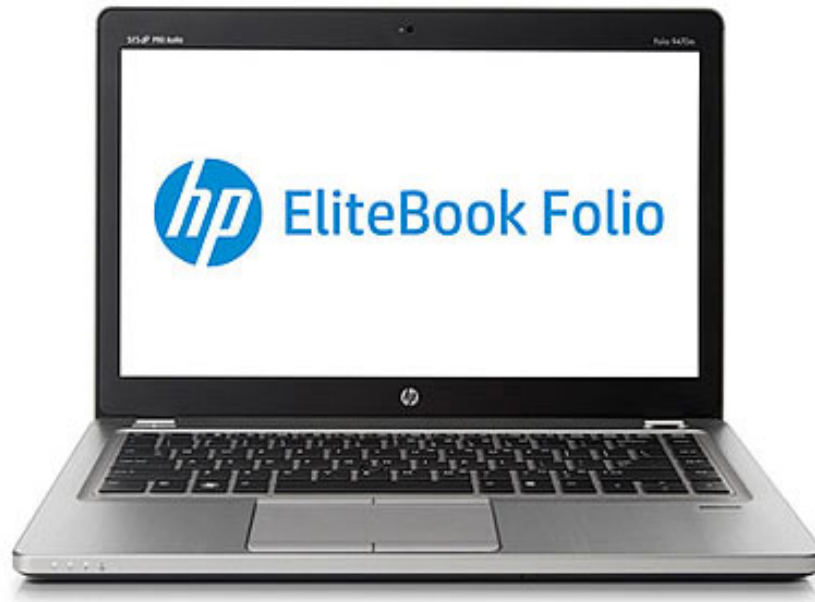

For those who need to buy ultrabook to work, especially those related to data security . the choice is not much. The following 5 ultrabooks have the perfect combination of sleek design along with security tools and good management.

Fujitsu LifeBook U772

Fujitsu's LifeBook U772 is not only ultra-thin (1.93 cm) but weighs just over 1.3 kg, well suited for those who need to work but have to move a lot. The large 14-inch screen of the device is designed to be bundled into a 13-inch magnesium frame for convenience. Besides light weight, the battery life is also impressive with 10 hours of use after a full charge. This is one of the best ultrabook models available today. U772 is equipped with advanced security features such as fingerprint sensor, hard drive encryption technology to protect important data. Machine has a starting price of 1149 USD (23.9 million).

HP's upcoming EliteBook Folio

The EliteBook Folio is a laptop that will follow HP Folio 13. success, although it was announced in May, but it won't be available until October. This is the ultrabook for business users to expect from HP. It offers many configuration options, from Core i3, i5, i7 chips to hard drives of 320 GB, 500 GB, or 256 GB SSD. Battery allows optional 4 cell or 6 cell. Along with common ports like ethernet, VGA, EliteBook Folio will be equipped with many advanced security features that ultrabook competitors will not get. This model will have a 14 inch screen and weighs 1.6 kg. Selling price has not been disclosed by HP.

Lenovo ThinkPad X1 Carbon

It is a combination of beautiful design but excellent durability. This is the thinnest and lightest laptop in Lenovo's famous ThinkPad. Thanks to carbon fiber, it weighs less than 1.3 kg but still meets the military's durability standards. Even, this is considered the lightest 14-inch ultrabook today. The outstanding feature is that the machine uses a rough screen for very high resolution, up to 1600 x 900 pixels. This is one of the highest

resolution ultrabooks

Highest screen today. High resolution makes video as well as text, images . displayed on a sharp screen. The screen also displays more icons.

The carbon X1 is equipped with Lenovo's RapidCharge technology, which allows you to recharge your battery for only 35 minutes. Machine prices start at 1299 USD (27 million).

Lenovo ThinkPad T430u

Being classified in the ultrabook line, the ThinkPad T430u is priced quite soft (779 USD or more than 16 million VND) and is suitable for those who have graphic related work needs thanks to Nvidia GeForce discrete graphics card option. The machine is 14 inches wide, weighs 1.85 kg and is 2.1 cm thick. T430u uses 3rd generation Core i chip, 8 GB RAM, 1 TB hard drive and 7-hour battery. Like the ThinkPad laptops, T430u comes with many security features such as fingerprint reader, USB key. Machine on shelves in September.

Toshiba Z930

Weighing less than 1.13 kg, 8-hour battery, high-speed SSD, many good security technologies . are the strengths of Toshiba Z930. It is lighter than the MacBook Air and equipped with popular security features like TPM (Trusted Platform Module), IT management tools, waterproof keyboard, integrated VGA and HDMI ports for easy connection with projectors. Z930 allows customization of processor up to Core i7 with vPro technology for better security, 12 GB RAM, 512 GB SSD drive. Machine price starts at 899 USD (18.7 million).
