### *2. Dynamic Theme.*

While the name "Dynamic Theme" may be a bit confusing, the app is not. It's completely free, and the settings and interface are quite similar to Windows 10, which makes it easier for you to operate. Along with that, you can change the lock screen and the background to a single Bing or Spotlight image, and set the app to automatically update your device with new Bing and Spotlight images.

### *Features and specifications of Dynamic Theme.*

- Use Bing or Spotlight search for daily featured images as wallpaper or lock screen.
- Use a Bing image or Spotlight window as your wallpaper or lock screen.
- Use personal images as background or lock screen.

- Different modes supported: static images or slideshow (one or more folders)
- View recent Bing Daily images.
- View recent Spotlight window images.
- Use Bing daily featured images or dynamic Spotlight windows.
- Configurable alerts to notify when new Bing or Spotlight daily featured images are published
- Automatically or manually save daily images to Bing or Spotlight windows.
- Sync your settings between different devices.

Download **Dynamic Theme** to change wallpaper automatically with Bing images every day, bringing a fresh experience to your device.

### 3. *Wallpaper Studio 10.*

Wallpaper Studio 10 has a beautiful HD wallpaper library for Windows 10 devices, including Windows 10 Mobile and even themes and wallpapers for Microsoft Band.

With over 20,000 neatly arranged and categorized HD images and a keyword search feature, it's no problem to find the best image for your device. With a clean interface using the hamburger menu in the left corner, you can easily access options such as viewing image categories in Categories, viewing favorite images in Favourites, accessing Settings or viewing image options for Microsoft Band... The app also places a search box in this position, allowing you to search for images by keyword.

#### *Features and specifications of Wallpaper Studio 10.*

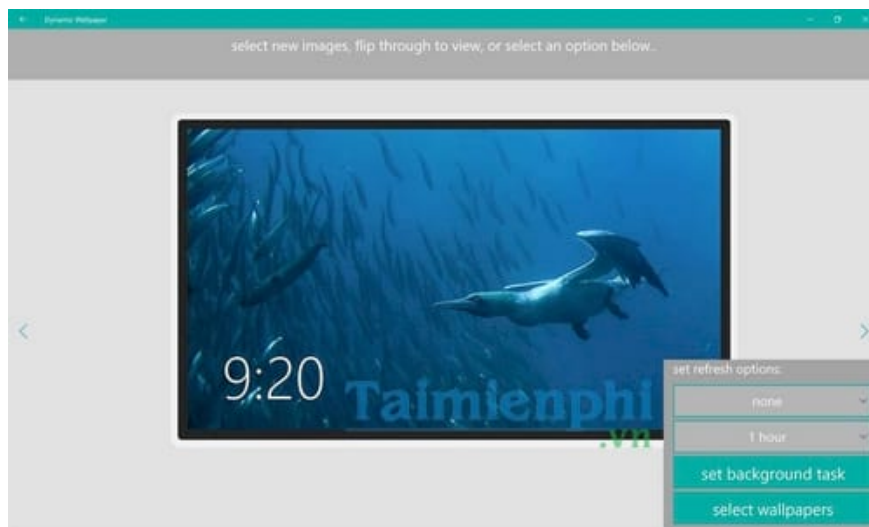

- Images are divided by type, easy to search and always updated.
- Users can rate and share photos.
- Easily search photos by keyword, category, tag, color or popularity.

- Sync between Windows 10 devices.
- Useful Live Tile and search features.
- Use the image as a lock screen, wallpaper or simply download it to your device for other purposes.
- Save your favorite images.
- Supports all Windows 10 devices, including Microsoft Band and Microsoft Band 2.
- Feature to create folders and view slideshow photos.

#### 4. *Dynamic Wallpaper.*

Unlike other wallpaper apps on this list, Dynamic Wallpaper doesn't rely solely on Bing or Spotlight to bring you wallpapers. The universal app provides wallpapers from sources like 500px Pulse, 500px Macro, and NASA Astronomy. You can also add your own images to the collection. Like most wallpaper apps, Dynamic Wallpaper automatically changes your lock screen and desktop wallpapers. It also lets you save wallpapers automatically and set Bing regions.

#### *Features and specifications of Dynamic Wallpaper.*

- Save Bing wallpapers to your device.
- Set up background tasks (daily for Bing and custom for available files), disable

Download **Dynamic Wallpaper** to automatically update wallpapers from Bing every day and customize images to your liking, bringing a diverse wallpaper experience to your device.

#### 5. *My 500px.*

The favorite app of the 500px photography community, it is probably the best place for geeks to get awesome wallpapers for their computer devices. Locating the right type of wallpaper is not difficult in this app because it

is all categorized in the options. If you also have a pic you have taken, the sharing option is also present in this app so you can share your creation with the world. To remove the ads inside the app, you will need to make an in-app purchase.

### *Features and specifications of My 500px.*

- Upload directly from your phone to 500px.
- View and save photos to your device.
- Live Tile - cycles images from a feed of your choosing.
- Automatically rotate wallpapers from a feed of your choice.

Download **My 500px** [here](#).

### *6. Daily Pic.*

This is a simple app that just takes advantage of Bing's potential and lets it be served to the user in a quiet different way. This app can be set to save Bing's daily images and apply it to your computer on the lock screen or as wallpaper, or simply save the images so that you can use that image later. To remove the ads inside the app, you will need to make an in-app purchase.

### *Features and specifications of Daily Pic.*

- View and download daily photos via Bing wallpapers.
- Downloaded by many users (landscape & portrait settings).
- Live Tile Displays the current Bing image.
