

Top 6 best-selling cheap 11th generation core i7 laptops at the beginning of the year

A high-end 11th generation core i7 laptop is always attractive to customers. But before spending a large amount of money to own it, many customers are still wondering which model to choose! If you are the same, please refer to the article below!

You will have many options for the laptop you need to buy because there are many products with different configurations on the market. Choosing the CPU type is one of the top concerns because it directly affects the usage process. In which, cheap 11th generation core i7 laptops are highly appreciated for their good processing ability, fast speed and reasonable price. Let's refer to the top 6 cheap 11th generation core i7 laptops below from TipsMake.

HP Gaming Laptop VICTUS 16-d0197TX (4R0T9PA)

The laptop is designed squarely with a matte black paint finish. In terms of finishing, the HP Victus 16 has a metal case. The weak areas such as the lid, keyboard frame, etc. are sturdy; and the hinge also feels solid when opened and closed.

The computer screen is up to 16.1 inches, still very compact, equivalent to 15.6-inch products on the market. However, the weight is a bit high at about 2.46kg.

The cheap 11th generation core i7 laptop HP Victus 16 will have a full keyboard of numbers and letters; convenient for work as well as entertainment from data entry to gaming.

The HP Victus 16 has a large touchpad with a smooth surface that feels comfortable to the touch. Combined with quick response and accurate tracking; there is almost nothing to complain about the experience of swiping, dragging, etc. on the product.

With HP Victus 16, users will experience the power of 11th generation Intel Core i CPU, 8GB/16GB DDR4-3200MHz RAM, NVMe SSD for storage and NVIDIA graphics card. These are all the latest high-performance components at the moment, with many deep structural improvements to bring good and optimal power compared to the previous generation.

HP Victus 16 can own abundant connection ports. Specifically, users will have 3 USB-A ports, 1 USB-C 3.2 Gen1 port supporting image output, HDMI 2.1 port, RJ45 LAN port, SD card slot and 3.5 combo headphone jack - convenient for all needs to connect gaming gear, hard drive or memory card to serve multimedia users.
