

Top 7 hottest cheap touch laptops in 2023

Criteria for choosing a touch laptop that suits your needs. Introducing the top 7 cheap touch laptops that are most popular today.

The appearance of touch screen laptops has brought a new user experience. Even though they were released a long time ago, touch laptops still affirm their class and sophistication. With many lines of touch laptops on the market today, choosing the right device for many people is quite difficult. Therefore, in this article TipsMake will introduce to you the top 7 most popular cheap touch laptops.

Criteria when buying a touch screen laptop

Before making the decision to buy a cheap touch screen laptop, you need to carefully study the product's features. Basically, a cheap touch laptop needs to meet some of the following criteria to meet usage needs:

1. **Easy to control and use:** Currently on the market there are two types of touch laptop screens: capacitive touch screen and resistive touch screen.
2. **Draw and write notes easily:** To support convenient operations, you should choose a laptop with a touch pen. The stylus will help write and draw more accurately, quickly and easily.
3. **Good screen brightness, realistic colors:** Screen brightness has a big impact on touch screen quality. Therefore, you should choose a laptop with good brightness and sharpness to achieve the best working efficiency.
4. **Modern, luxurious feeling:** Touch laptops that can rotate 360 degrees will bring a modern, smart and extremely convenient feeling. Screens that can rotate 360 degrees are also very convenient when you need to work in groups, discuss, exchange work, etc.
5. **Good display quality:** Choose a laptop with sharp display quality and realistic images to increase the quality of the user experience.

Top 7 cheap touch laptops

Once you understand the criteria for choosing a cheap touch laptop as above, you can completely confidently choose a laptop that suits your needs. To help you quickly choose the laptop model you like, TipsMake would like to introduce to you the top 7 most popular cheap touch screen laptops today.

1. HP Pavilion X360 14 dy0172TU Laptop

| Characteristic | Describe |
|----------------|----------|
|----------------|----------|

| | |
|------------------|---|
| CPU | Intel Core i3 Tiger Lake – 1125G4 |
| RAM | 4GB |
| Hard Drive | 256GB NVMe PCIe SSD |
| Screen | 14 inches, Full HD (1920 x 1080), touch, 360 degree folding |
| Design | Plastic case – metal back cover |
| Special | Has a touch screen and integrated LED lights |
| Operating system | Windows 11 Home SL |
| Reference price | About \$800 |

The low-cost touch laptop HP Pavilion This high-end laptop possesses monolithic beauty and delicate lines that create elegance and luxury for the user.

Picture 2 of Top 7 hottest cheap touch laptops in 2023

HP Pavilion The 14-inch thin-bezel screen creates an extremely comfortable working space with the device. Full HD 190x1080P screen resolution, IPS panel provides eye-catching, sharp image quality.

This cheap touch laptop uses an Intel Core i3-1125G4 chip with 4 cores and 8 threads, maximum clock speed of 3.7 GHz, providing strong performance for entertainment and work tasks. 4GB DDR4 RAM, 3200MHz bus supports laptop multitasking at the same time. You can open multiple tasks at the same time to work, switch back and forth between software without worrying about lag. With a 256GB NVMe PCIe SSD hard drive, you can freely download and store data and software on your computer without worrying about full memory.

The laptop's keyboard is neatly designed, has excellent key bounce, and fast response speed. Furthermore, the key also has integrated LED lights to help you work more easily in dark conditions.

2. Asus VivoBook Flip 14 TP470EA Laptop

| Characteristic | Describe |
|------------------|---|
| CPU | Intel, Core i3, 1115G4 |
| RAM | 4 GB, LPDDR4X, 4266 MHz |
| Hard Drive | 512GB SSD |
| Screen | 14.0 inch, 1920 x 1080 Pixels, IPS, 60Hz, 250 nits, LED Backlit, 360 degree folding |
| Design | Plastic case, silver color |
| Special | Touch screen |
| Operating system | Windows 11 Home |
| Reference price | About \$700 |

The cheap touch laptop Asus Vivobook Flip 14 TP470EA EC346W is considered a multi-purpose device as it can both rotate 360 degrees and has an extremely sensitive multi-touch screen. 14-inch ultra-thin bezel screen, Full HD resolution with 178-degree wide viewing angle helps display images more realistic, sharper, and more vivid.

Picture 3 of Top 7 hottest cheap touch laptops in 2023

With the 11th generation Intel core i3 processor, office and entertainment tasks on the device can run smoothly. The device uses 4GB of high-performance LPDDR4X 4266 MHz RAM, increasing the laptop's multitasking capabilities. The device's SSD hard drive has a capacity of up to 512GB, making booting and accessing data on the device extremely fast. You can comfortably store data without worrying about full memory.

Asus Vivobook Flip 14 TP470EA EC346W touch laptop is a versatile laptop that can be used as a tablet or presentation device thanks to the flexible 360-degree folding mechanism. The hardness and durability of the hinge have been proven when tested up to 20,000 times of opening and closing.

3. Surface Go i5 1035G1 Laptop

| Characteristic | Describe |
|------------------|--|
| CPU | i5, 1035G1, 1.00 GHz |
| RAM | 8 GB, LPDDR4X (Onboard), 3733 MHz |
| Hard Drive | 128GB SSD M2 PCIe, does not support upgrades, does not support any other expansion slots |
| Screen | 12.4 inches, 1536 x 1024 (148 PPI) |
| Design | Plastic case – metal back cover |
| Special | Has a touch screen |
| Operating system | Windows 10 Home SL |
| Reference price | About \$850 |

Microsoft's Surface Laptop Go i5 1035G1 is designed in a minimalist style but is still no less modern and youthful. The screen size is 12.4 inches compact but with a viewing angle of up to 178 degrees, the IPS panel combines a resolution of 1536 x 1024 (148 PPI) to help images always be displayed sharp and high quality.

Picture 4 of Top 7 hottest cheap touch laptops in 2023

Surface Laptop uses a powerful Intel Core i5 Ice Lake 1035G1 processor to help you solve tasks smoothly and quickly. Intel UHD Graphics graphics card helps to process images more clearly, providing good support for image processing and graphics on computers.

The computer has 8GB RAM with a bus speed of up to 3733 MHz so you can open multiple tabs to work at the same time without worrying about freezing. The machine's 128GB SSD hard drive meets relatively stable storage needs, ensuring fast boot and read and write speeds on the machine.

In particular, this compact machine weighing only 1.11kg is integrated with an extremely sensitive multi-touch screen that allows users to operate directly without the support of a mouse. Loud, clear sound technology with high fidelity and smart sound adjuster help you easily change bass parameters to your liking.

4. Asus VivoBook Flip 14 R7 TM420UA Laptop

| Characteristic | Describe |
|----------------|--|
| CPU | Ryzen 7, 5700U, 1.8GHz |
| RAM | 8GB, DDR4 (Onboard 4GB + 1 slot 4GB), 3200 MHz |
| Hard Drive | 512GB NVMe PCIe SSD |

| | |
|------------------|---------------------------------------|
| Screen | 14 inches, Full HD (1920 x 1080) |
| Design | Metal case |
| Special | Has a touch screen and keyboard light |
| Operating system | Windows 11 Home SL |
| Reference price | About \$900 |

The Asus VivoBook Flip 14 R7 TM420UA touch laptop is truly the perfect choice with its trendy design, folding screen, powerful performance to meet the needs of Office, light graphics, and daily entertainment.

Picture 5 of Top 7 hottest cheap touch laptops in 2023

The device uses a powerful AMD Ryzen 7 5700U CPU with an AMD Radeon Graphics graphics card to help the device quickly handle tasks, including graphic design and running complex software extremely smoothly. 8GB laptop RAM supports multitasking and can open multiple tabs at the same time to work. 512GB SSD hard drive provides extremely large storage space, while boot time or data access time is also shortened.

The laptop also integrates an extremely convenient one-touch fingerprint unlocking feature. The keyboard is equipped with a backlight to help you work easily in low light conditions. With a weight of only 1.5kg and a 14-inch screen size, this is a compact touch laptop that is extremely flexible for you to carry and use anytime, anywhere.

5. Laptop HP Envy x360 Convert 13 ay1056AU R7

| Characteristic | Describe |
|------------------|---------------------------------------|
| CPU | Ryzen 7, 5800U, 1.9GHz |
| RAM | 8GB DDR4 (Onboard), 3200 MHz |
| Hard Drive | 256GB NVMe PCIe SSD |
| Screen | 13.3 inches Full HD (1920 x 1080) |
| Design | Metal case |
| Special | Has a touch screen and keyboard light |
| Operating system | Windows 11 Home SL |
| Reference price | About \$1400 |

HP Envy x360 Convert 13 ay1056AU R7 Laptop is a thin and light business laptop model, modern design with powerful configuration, 360-degree folding touch screen that can transform into an extremely flexible tablet. The machine is finished with a meticulously machined metal shell, rounded corners and a matte black paint color that enhances the elegance and health of the machine.

The keyboard is arranged evenly on both sides, the keys are squarely designed without rounded corners, creating a strong, decisive and dynamic look. In addition, the included LED light system helps users work even in low-light environments.
