

# Top 8 best projectors of 2019

A projector is an important device for a home theater system. Here are the best projectors from Full HD to true 4K models that support HDR at all prices to choose from.

A projector is an important device for a home theater system. While TVs are a better option for delivering true 4K HDR content, you can't accept images larger than 75 inches.

But 75 inches is only the beginning if you have a good projector. Whether you want to play Blu-ray movies on a large white wall, enlarge your gaming experience, or view photos and slides from your mobile device on a 100-inch screen, a projector is the first choice.

Here are the best projectors from Full HD to true 4K (native 4K) models that support HDR at all prices for your choice.

1. Top 5 best mini projectors
2. Compare the advantages and disadvantages of LCD and DLP technology projectors
3. Principles of choosing a projector

**Note:** Projector prices in this article are for reference only at the time of writing, are subject to change. You should contact the seller for the best price.

## 1. Optoma UHD40 (nearly VND 26 million)

### Technical data:

1. **4K Capabilities** : Yes
2. **HDR** : Yes
3. **Speaker** : 2 x 5W
4. **Lamp** : 2400 lumens
5. **Lamp life** : 4000 hours
6. **Contrast ratio** : 500,000: 1
7. **Input** : 2 HDMI ports, 1 USB port, 3.5mm

### Advantages:

1. Colourful
2. Details
3. Smooth movement

### Defect:

1. Black details are not very good

If you want top-notch technology and great images at a low price, this projector is worth a look. You will get 4K and HDR capabilities for less than 42 million VND.

Colors are vivid, true, detailed and smooth motion, Optoma UHD40 is an affordable standout projector, simple.

## **2. Epson EH-TW650 (12.4 million VND)**

### **Technical data:**

1. **Type** : LCD
2. **Resolution** : Full HD
3. **Aspect ratio** : 16: 9
4. **Contrast ratio**: 15,000: 1
5. **Input** : 1 Composite port, 2 HDMI ports, 1 VGA port, 1 USB port
6. **3D** : No.
7. **Lamp life** : 11 years

### **Advantages:**

1. Images are sharp and clear
2. Impressive brightness
3. Actual color

### **Defect:**

1. Problem with image stabilization

With this compact and great Epson projector, you can get great, great screen images for less than 14 million VND. This LCD projector is perfect for small rooms and small budgets.

The handling of brightness levels, colors and details is ingenious. This may be a Full HD projector, not 4K, but the EH-TW650 brings a bit of cinema magic into your living room without spending a lot of money.

### **3. Epson EH-TW7400 (VND 41.3 million)**

#### **Technical data:**

1. **Type** : LCD
2. **Resolution** : Full HD with 4K enhancements
3. **Aspect ratio** : 16: 9
4. **Contrast ratio** : 200,000: 1
5. **Input** : 2 HDMI ports, 1 VGA port, 1 USB port
6. **3D** : Yes
7. **Lamp life** : 5000 hours

#### **Advantages:**

1. Powerful image, vivid
2. Rich and delicate colors
3. Electronic lens

#### **Defect:**

1. Not 4K at all
2. There is no 3D glasses

Even though only Full HD chips are available, Epson still supports 4K and HDR content thanks to its intelligent 4K enhancement technology. It's actually not the best 4K projector yet, but still delivers great images for the price. Epson does a great job of bringing sharpness and color to images, highlighting details in dark scenes. If you want something bigger than a flat-screen TV but more affordable than a true 4K projector, then this is a great solution.

## 4. Optoma UHD65 (14.7 million VND)

### Technical data:

1. **4K Capabilities** : Yes
2. **HDR** : Yes
3. **Connectivity** : 2 HDMI ports, 1 VGA port, 1 USB port, Ethernet, 3.5mm analog optical port
4. **Speaker** : 2 x 4W

### Advantages:

1. Impressive level of detail
2. Good color
3. Upscale good HD and SD movies

### Defect:

1. Dark scenes need more detail
2. Avoid converting SDR to HDR

This is a sophisticated 4K-capable HDR projector at a competitive price. Those who are looking for projectors at top restaurants should seriously consider the Optoma UHD65.

It may not have all the advanced features of a high-quality 4K projector but at a lower price and can be used for years is an appropriate choice for many.

## **5. Sony VPL-VW270ES (142 million VND)**

### **Technical data:**

1. **Resolution** : Native 4K
2. **Control panel** : SXRD
3. **HDR10** : Yes
4. **HLG Support** : Yes
5. **Input** : 2 HDMI ports
6. **Lamp life**: 6000 hours
7. **HDCP 2.2** : Yes
8. **3D** : Yes

### **Advantages:**

1. Great sharpness
2. Stunning contrast
3. Support HDR10 and HLG

### **Defect:**

1. Does not provide 3D glasses

If you want one of the best 4K projectors and really compelling images, it's hard to miss the VPL-VW270ES. Like many Sony 4K projectors, it uses its proprietary 4K SXRD control panel to achieve true DCI 4K 4096 x 2160 resolution. The smooth image of the VPL-VW270ES has raised its caliber on cheaper rivals. If you want true 4K and don't care about price, this is the right projector.

## **6. Sony VPL-VW550ES (VND 153.6 million)**

### Technical data:

1. **Resolution** : Native 4K
2. **Control panel** : SXRD
3. **HDR** : Yes
4. **Maximum image size** : 300in
5. **Connectivity** : 2 HDMI 2.0 ports, 1 LAN port, 1 PC port, 1 USB port
6. **HDCP 2.2** : Yes
7. **Brightness** : 1800 lumens
8. **Lamp life** : 6000 hours
9. **Contrast ratio** : 350,000: 1

### Advantages:

1. True colors
2. Upscale SD and HD impressive
3. Easy to set up and control

Sony has been offering some 4K projectors to the market for the past few years, all of them high-end and very commendable. The Sony VPL-VW550ES projector focuses more on authenticity and accuracy than eye-catching color saturation. Setting it up is also relatively simple, and when you own this projector you will enjoy movies with eye-catching images.

## 7. LG CineBeam HU80KSW (nearly 56 million VND)

### Technical data:

1. **4K Capabilities** : Yes
2. **HDR** : Yes
3. **Speaker**: 2 x 7W
4. **Brightness** : 2500 lumens
5. **Lamp life** : 20,000 hours
6. **Contrast ratio** : 150,000: 1
7. **Maximum image size** : 150in
8. **HDCP 2.2** : Yes

9. **Connectivity** : 2 HDMI ports, 2 USB ports, 1 3.5mm port, Ethernet, Bluetooth, Wifi, Miracast
10. **Streaming apps** : Netflix, YouTube, Amazon Prime Video and BBC iPlayer

**Advantages:**

1. Is a system block, really mobile
2. Impressive 4K HDR images
3. Easy to set up

**Defect:**

1. Lack of a little detail
2. Motion needs to be better
3. Integrated speakers just enough to hear

LG CineBeam is one of the most fully featured projectors you can find. The performance of the LG CineBeam HU80KSW projector may not be the best on this list but it delivers great 4K HDR images.

This projector is equipped with a great webOS platform, so you can access all video applications via Wi-Fi and Miracasting and Bluetooth capabilities can ad-hoc easily with all mobile devices. want to play from there.

## 8. Nebula Capsule (nearly 7 million VND)

**Technical data:**

1. **Resolution** : 854 x 480
2. **Brightness** : 100 lumens
3. **Streaming apps** : Netflix, YouTube, Amazon Prime Video and BBC iPlayer
4. **Connectivity** : AirPlay, Chromecast, Miracast, HDMI, microUSB, Bluetooth speaker mode
5. **Operating system** : Android 7.1

**Advantages:**

1. Neat design

2. The sound is clear

**Defect:**

1. Images in dark scenes are unclear
2. Few applications
3. Missing connection

This small boxy portable projector has an Android app store built in. The capsule can also be used as a dedicated Bluetooth speaker.

Whether streaming from Netflix, Amazon Prime or YouTube, Capsule delivers beautiful images compared to other pico projectors. It's not perfect, but those looking for something a little different, easy to carry and easy to use will love the Capsule.
