

Top 9 best free fighting games on mobile

Below are great free mobile games that any fighting lover does not want to miss to show off their fighting skills.

The fighting game with beautiful martial arts moves and attractive double attacks makes any gamer excited. Below are great free mobile games that any fighting lover does not want to miss to show off their fighting skills.

1. Samurai Shodown II

Any fan of 90s arcade fighting games will recognize the name Samurai Shodown. Samurai Shodown II is the best game for players new to the franchise. This mobile port contains all the features found in the original version, in addition to user-friendly features such as game controller support.

Samurai Shodown II is a classic fighting game designed for arcades, so the controls may be difficult for some. But don't be discouraged; There's a lot of fun here once you've mastered the controls.

2. Brawlhalla

Picture 1 of Top 9 best free fighting games on mobile

Unless you own a Nintendo console, Brawlhalla is probably the closest you can get to playing like Super Smash Bros. Brawlhalla pits you and up to 7 other players of the same level in a battle to see who falls the least.

This crazy fighting game released on PC and PlayStation 4 in 2017, with an Android release in 2020, and has received steady updates since then. Brawlhalla has over 20 different game modes and over 50 unique characters to play as. Since this is a Ubisoft game, you'll find characters from the company's other titles, such as Ezio and Rayman.

But Brawlhalla is constantly introducing new crossovers, including characters from other franchises, movies, and even real-world fighters. Expect to play with the likes of Lara Croft, Negan, and John Cena in this game.

3. Dragon Ball Legends

Picture 2 of Top 9 best free fighting games on mobile

Dragon Ball Legends is based on the popular anime/manga and features hundreds of characters from the long-running series. There's a lot to love about this vibrant fighting game, including the artwork by Akira Toriyama, who's best known for creating the art for the Chrono Trigger and Dragon Quest games.

Battles take place in an open 3D environment. Following series tradition, the characters float above the ground and unleash physics-defying super moves.

Collect Arts Cards to attack opponents at close range or destroy them from afar, in the game's unique storyline or battle with online players. Dragon Ball Legends also boasts RPG elements, meaning your character will level up and grow stronger as you win more battles.

4. EA Sports UFC Mobile 2

Picture 3 of Top 9 best free fighting games on mobile

When it comes to licensed fighting games on mobile, you don't really have many options. Specifically, if you follow UFC and feel like recreating matches between famous fighters, you will have to choose EA Sports UFC Mobile 2. Fortunately, this is a special simulation game of the sport. This.

EA Sports Mobile 2 features fighters, both male and female, in every weight class. You can look forward to competing as world-famous athletes such as Nate Diaz, Stipe Miocic, Jade Namajunas, Holly Holm, etc. Each fighter has their signature martial arts move sets, which you can further improve through the game's engaging RPG system.

5. Final Fighter: Fighting Game

Picture 4 of Top 9 best free fighting games on mobile

Final Fighter has a more modern interface, similar to the Tekken series. Even certain character designs will remind you of Bandai Namco's signature fighting franchise.

Final Fighter has a set of commands, different combinations of which will result in many combos and special moves. More powerful combos require specific input with the game's on-screen joystick, but the game also caters to players who want button combinations.

The English version of Final Fighter left a lot of room for improvement and the story didn't make much sense. But in terms of believable fighting mechanics and character designs, Final Fighter is worth your time.

6. Garou: Mark of the Wolves

Picture 5 of Top 9 best free fighting games on mobile

Nothing comes closer to playing a coin-operated arcade fighting game than Garou: Mark of the Wolves. Originally released on NeoGeo, a console known for its exceptional fighting games, Garou is the final entry in the popular Fatal Fury series on the platform. In other words, you can expect a 2D fighting game that feels like a peak '90s release.

Garou features key characters in the series, led by Terry Bogard, Jenet Behrn, and Butt. And if you want to experience the game to its fullest, in addition to using on-screen digital controls, Garou allows you to connect a bluetooth controller of your choice.

Granted, unlike the other games on this list, Garou costs \$3.99 on the Play Store, but it will never bother you with in-app purchases or lootboxes.

7. Injustice 2

Picture 6 of Top 9 best free fighting games on mobile

Injustice 2 puts you in control of Batman and other notable heroes from the DC universe in an effort to rebuild the Justice League. By completing quests, you will collect useful pieces to add heroes/villains to your roster.

From superhero icons like Superman and Wonder Woman to mischievous villains like the Joker and Harley Quinn, Injustice 2 lets you build a team of your favorite characters and unleash their unique moves. Fight off any enemies that stand in your way.

8. Kung Fu Do Fighting

Picture 7 of Top 9 best free fighting games on mobile

Thanks to games like Kung Fu Do Fighting; No need to invent a time machine to enjoy classic fighting games. With arcade-inspired 2D visuals, Kung Fu Do Fighting is reminiscent of titles like King of Fighters. On the other hand, its story is inspired by the win-or-die approach of Mortal Kombat.

Currently, Kung Fu Do only has two game modes. But fortunately, the large number of fighters and arenas make up for that. Fighters specialize in boxing, Muay Thai and Taekwondo, leading to many different approaches to fighting. And the arenas span the globe, from Europe to Asia. The nostalgic image alone is enough to attract this game.

9. Marvel Contest of Champions

Picture 8 of Top 9 best free fighting games on mobile

Marvel or DC? If you're hesitant, you might want to play Marvel Contest of Champions instead of Injustice 2. Contest of Champions has pretty much every Marvel character you can think of: Spider-Man, Venom, Iron Man, Hulk, etc.

Furthermore, the game also receives bonus points when combined with other characters with legendary significance. Gather the Guardians of the Galaxy and watch their stats grow exponentially. Each character boasts a range of devastating attacks, all of which are further emphasized by the game's semi-destructive levels.

Contest of Champions will test you and your teammates' skills to the max through a story against Marvel's most formidable villains.
