

Top app for recording iPhone call history

iPhone call history stores more than a thousand calls, but you can only see the most recent calls you have made. However, you can download some applications that record call history.

iPhone call history stores more than a thousand calls, but you can only see the most recent calls you have made. However, you can download some iPhone apps to give you all call history records for a specific time period.

As soon as you connect to an app like this, it will download all your call history in the background. If you want to delete call history then you can delete on iPhone, the application will not lose call history. You can always check your call history from the app.

1. Spyzie

Spyzie

Want to track activity on your child's phone? Spyzie is the tool you need. Spyzie is one of the best apps used to track activity on smartphones. If you want to keep your children safe from the dangers they face on smartphones or want to monitor the smartphone your employees are using, then Spyzie is the perfect app for you.

With this tool, you can find out all the activities of the target, battery percentage, location, call logs, etc. When you want to stop tracking, you can do it directly from app on your device. Spyzie subscription price is about \$ 40 (VND 960,000) / month.

How to use Spyzie to check iPhone call history?

It is not as difficult a task as you think. All you have to do is create a Spyzie account on the website or in the Spyzie application. After creating an account, you can use it both on your computer and in the app.

1. First, you must create an account on the Spyzie app or on the website at **spyzie.com**
2. Now, you must enter the details of the iPhone you want to track after logging in to your Spyzie account.
3. You will then be taken to a new page, where the setup wizard will guide you through the process of tracking an iPhone device, by entering information such as the name of the device's user, the operating system of phone, etc.
4. After that, you need to enter your iCloud account details, then verify it.
5. After setup, the call log will be synchronized and pushed to the Spyzie application as long as the device is connected to the Internet.

It can be said that browsing the call history of iPhone is not really difficult if you follow the steps correctly and you have the appropriate iPhone call log application.

2. WePhone

WePhone

WePhone is a VoIP phone service that helps you save money, by using your phone's high-speed Internet connection or WiFi from another device, to make domestic and international calls in about 200 countries.

Free calls and texts to other WePhone users. So make a call to friends and family from this iPhone call log app. You can even earn some free minutes with exciting actions.

To view the call history, tap the "Store" tab in the app, swipe down the "Query" section, you'll find the menu "Billing History" and "Payment History" .
