

Top best apps to turn men into women, boys into girls

The trend of transforming men into women and boys into girls is becoming a fever in the online community. If you want to join this trend, discover the top applications that help you easily 'transform'.

1. Snapchat

Snapchat has over 200 million daily active users and offers a treasure trove of fun face filters and effects. Whether you want to create funny photos or unique transformations, the app has you covered.

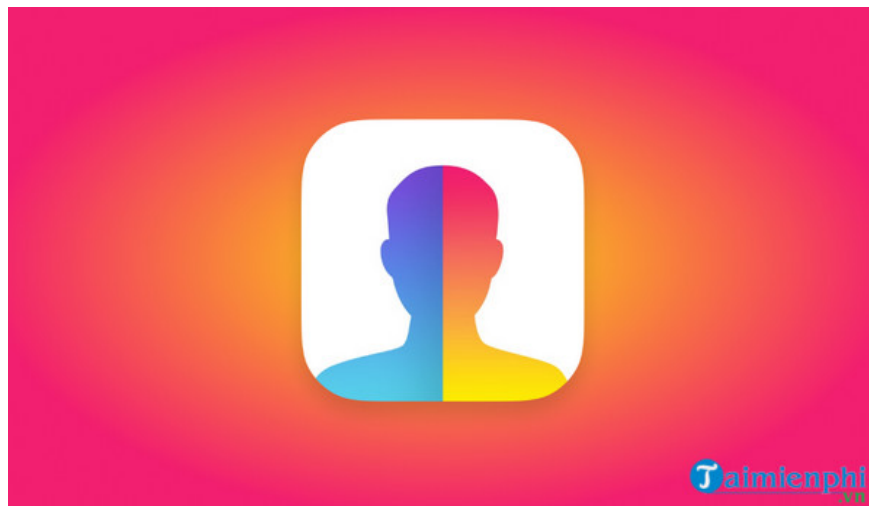

Not to mention, the app has recently added a new gender "swap" feature, turning men into women, boys into girls. Just open Snapchat and start taking a photo or video, then find and tap the gender swap filter icon in the bottom corner of the screen to start taking a photo.

5. Magic Face

The next male to female, male to female transformation application that TipsMake introduces to you is called Magic Face.

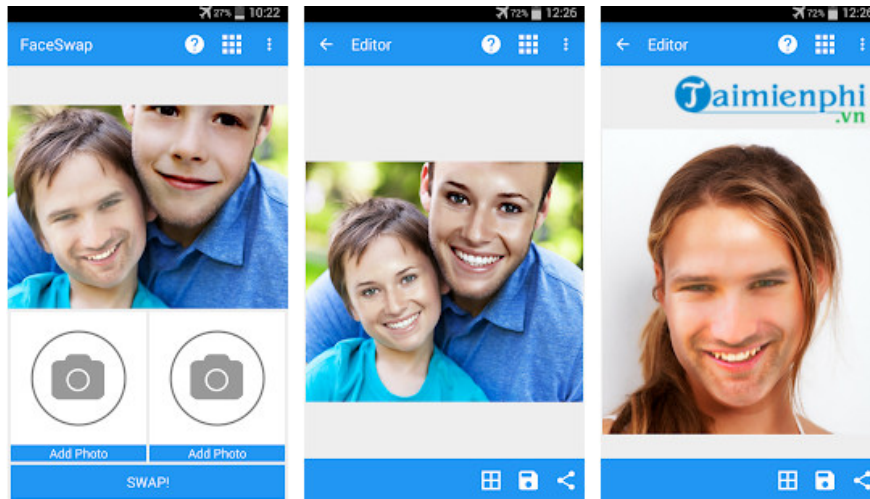

Magic Face includes a variety of filters, including a gender swap filter that instantly transforms a man into a woman. The app also includes a filter called Past-Life, which lets users see what they will look like when they get older.

6. Face Swap

Unlike the other apps mentioned in the article, the filters on Face Swap are quite limited. Just open an existing image or you can take a new photo on the app, then apply filters in real time to swap faces.

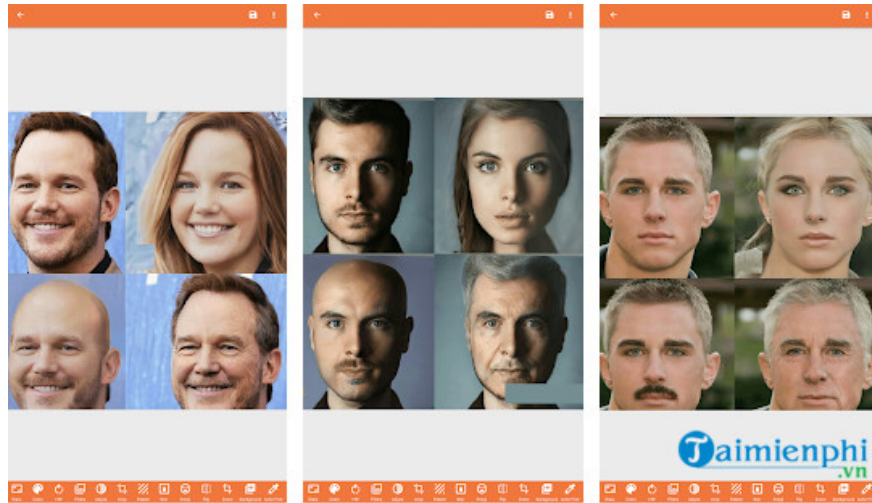

A small note is that users can only swap up to 6 faces in the same photo.

7. Face Lab: Gender Changer

Developed by WAKANA and integrated with gender swap filters, Face Lab: Gender Changer will definitely be the ideal choice for those who are looking for an application to transform men into women, boys into girls.
