

# Top best Samsung smartphones 2021

Samsung always launches ideal products for everyone, from flagship devices like the Samsung Galaxy S20 to more affordable models like the Samsung Galaxy A80, or high-end folding phones like the Samsung Galaxy Z Fold 2.

Here is a list of the best Samsung phones at the moment.

## 1. Samsung Galaxy S20 Plus

The recent Samsung Galaxy S20 Plus has always been in the first place on the best Samsung phone rankings, even beating out the more expensive Samsung Galaxy S20 Ultra.

It's also no surprise that the S20 Plus is a great phone. The design of the device has not changed too much compared to the Galaxy S10 Plus, but most other parts are upgraded. The screen has a refresh rate of 120Hz, has a powerful processor and the camera cluster is also greatly upgraded.

## 2. Samsung Galaxy Note 20 Ultra

Samsung Galaxy Note 20 Ultra is a monster with a heavy price tag. This is considered to be one of the best smartphone screens and cameras on Android phones. There's also a lot of fun to use, thanks to the 5x optical zoom camera, funny filters, and simple camera interface.

Samsung Galaxy Note 20 Ultra does not stop there, it stands out from the competition thanks to the S Pen, allowing you to write comfortably on the screen, synchronize voice with handwriting, .

In addition, Note 20 Ultra has 12GB RAM, using either Snapdragon 865 Plus or Exynos 990 processor (depending on your choice). Both of these chips are incredibly powerful.

### **3. Samsung Galaxy S10 Plus**

The Samsung Galaxy S10 Plus has been in the ranking for a long time on this list thanks to the following reasons.

First, Galaxy S10 Plus has been upgraded a lot compared to the previous generation, a completely new screen design, 3 rear cameras and 1 front cam are working perfectly.

The fingerprint sensor is inside the display, which is a lot better than the S9 series. The 4100mAh battery is also comfortable enough for a day's use. The S10 Plus has a large 6.4-inch display and the most powerful processor of 2019.

### **4. Samsung Galaxy Note 10 Plus**

The Samsung Galaxy Note 10 Plus may still not compare to the Note 20 Ultra, but it's still the best pen-with-smartphone smartphone you can find on the market. It has an extremely large screen, powerful processor and a cluster of 4 cameras located close to the edge of the machine.

The highlight of this device is the S Pen mentioned above, which can help users do a lot of things on the device including drawing, writing and many different adjustments.

## 5. Samsung Galaxy Z Fold 2

Samsung Galaxy Z Fold 2 is the best folding smartphone at the moment, which has improved a lot compared to the Galaxy Fold generation above and gives a much more advanced experience than the Galaxy Z Flip.

The device is a combination of a tablet and a phone, has a modern design, comes with a large Cover Display screen. Samsung Galaxy Z Fold 2 has a screen refresh rate of up to 120Hz like many other high-end Samsung phones.

## 6. Samsung Galaxy A80

In addition to high-end phones like Note or S, Galaxy A series devices also have a lot of good features at affordable prices. Recently, Samsung has launched Galaxy A80 to meet the requirements of users.

The phone doesn't have a front-facing camera in the display that pops out of the device every time you want to take a selfie. This design will help the screen not lose an area of ??space, reducing the uncomfortable experience when playing games or watching videos.

In addition, Galaxy A80 has 6.7 inch AMOLED screen, impressive fast charging speed. This is a great option for those who want to experience Samsung without the need for high-end devices.
