

## Top best selling mini mini fridge today

Mini fridge is suitable for use in rooms, rooms, apartments, private rooms or hotels. Mini refrigerators usually have capacity from 50 to 100 liters. Here are the top best selling mini-mini refrigerators in September 2018.

Compared to the 2-wing or 3-wing family refrigerator or the popular side by side, the mini fridge has a compact design, ideal for small spaces such as rooms, private rooms or hotel rooms. This refrigerator line usually has a capacity of 50 to more than 100 liters, suitable for use in storing food and beverages in small quantities.

### Top 5 best mini refrigerators

1. Advantages of mini fridge series
2. Evaluate 5 best-selling mini-mini refrigerators today
  1. Refrigerator AQR-55AR Aqua
  2. Funiki FR-71CD refrigerator
  3. Funiki FR-91CD refrigerator
  4. Electrolux refrigerator EUM0900SA
  5. Funiki Refrigerator FR-132CI

### Advantages of mini fridge series

1. **Compact size** : Individual refrigerator with small capacity (usually under 100 liters), designed with a compact door, easy to transport with any location.

2. **Low price** : Due to the small capacity and the use of simple cooling technology, the selling price of mini fridges is now quite cheap in the market. Types of cabinets with a capacity of 50 liters to 90 liters fall in about 2 million - 3 million VND.
3. **Power saving**: Lower power consumption compared to conventional refrigerator products. 50-liter mini fridge has a power consumption of about 50W, 90-liter type with a capacity of 64W.
4. **Easy to repair**: Mini fridge is a small version compared to a normal refrigerator, so common problems are quite simple, making it easier to perform repairs.
