

# Top cheap quality virtual reality glasses

Virtual reality glasses are cheap, medium-range now, there are many, only about 1 million dong or less.

Today's virtual reality technology is bringing advances in life, science, research or education when launching hundreds of real-world projection applications like the series of Octagun Studio with Animal 4D + or Dinosaur 4D + ,. And the concept of virtual reality glasses is no stranger to many people, especially those who work in technology or often learn about technology equipment.

Virtual reality glasses provide a vivid space for users, when you are immersed in the tight footage of movies, games or even watch 4D dinosaurs on virtual reality glasses. There are many types of virtual reality glasses available at different prices. If you are not too shabby about money, there are not many needs to use, you can refer to some types of cheap virtual reality glasses below.

1. 12 super attractive AR apps for Android people
2. Top 8 best virtual reality glasses 2018
3. 4 steps to clean Samsung Gear VR virtual reality glasses
4. Top 6 virtual reality games worth playing today

## List of mid-range virtual reality glasses

### 1. Samsung Gear VR virtual reality glasses

Product information:

1. Support OS: Android 5.0 and above
2. Weight: 345g
3. USB Type-C & micro USB
4. Bluetooth 4.2 BLE + HID Gamepad profile
5. Sensor Type: Gyro / Accel, Proximity
6. Products compatible with Note5, S6, S6 edge, S6 edge +, S7, S7 edge, S8

Compared to the actual glasses that cost a few million dong, Samsung Gear VR costs less than 2 million dong, but the quality is worth considering. The device is made of hard plastic, has high strength and durability, has the ability to adjust the flexible focus so users only need to adjust the gear above the body to change the focal length accordingly.

The strap part of Gear VR has good elasticity so it fits a lot of people. In the new version, the device adds a sensor handle to increase the virtual reality world experience for users.

Reference price: VND 1,950,000

## 2. Lenovo ANT VR virtual reality glasses

Product information:

1. Equipment size: 160 x 61 x 104mm
2. Weight of glass: 160g
3. Supported phone line: Android, iOS
4. Product material: Hard plastic and leather cushion
5. Support 5.5 inch screen or less

The design of Lenovo ANT VR is very simple, with a strap to adjust the length to be easy to use. Especially for those who are nearsighted, Lenovo ANT VR will have a concave space so you do not need to use glasses anymore. If you use Lenovo's smartphone, it will increase the experience with glasses, because it uses TheaterMax technology to help experience a cinema-like image.

In addition, Dolby Atmos surround sound technology on Lenovo smartphones gives users the most realistic and vivid experience of sound.

Reference price: 470,000 VND

## 3. Virtual reality glasses BOBO VR Z4
