

Top mobile survival shooter and download link

In this article will synthesize for you the hottest shooter games with many different configurations from high to low for you to choose.

It can be said that since **PUBG** launched until now, the **survival shooting** genre is still being loved by many gamers, although not participating in PUBG but Battle Royale-style games are many games. The player received and is gradually becoming a popular game genre in the game world.

Especially in this period, mobile games are growing strongly and there have been many mobile game tournaments with very large scale. The **Battle Royale** genre is also the same, in the past, players often target mobile games with either MOBA or RPG or 2D games, but with the appearance of PUBG, many mobile games have followed the survival shooting genre and have achieved a huge number of participants.

To help you choose the shooter titles on the phone, in the article below, **QuanTriMang** will help you classify the hottest survival shooter games with games from configuration High to low, suitable to choose for each phone segment.

Top mobile survival shooter and download link

1. 1. PUBG Mobile
2. 2. Fortnite
3. 3. Rules of Survival
4. 4. Knives Out
5. 5. Garena Free Fire
6. 6. Grand Battle Royale: Pixel War

1. PUBG Mobile

Perhaps there is no need to mention the hotness of PUBG Mobile at the present time, in addition to playing on Mobile, gamers also play PUBG Mobile on PC with the Tencent Gaming Buddy emulator . This simulator is released by a publisher dedicated to PUBG Mobile to support gamers playing on PC.

Currently PUBG Mobile international version is stopping at 0.9.5, with the Halloween update gives the game a collection of new weapons, new features as well as exciting reward hunting events . Definitely with what PUBG Mobile brings gamers, the number of players will increase constantly with this game.

However, this is a game that is considered quite heavy on mobile with the graphics requires a high mobile configuration, so many gamers have to upgrade their phones to play smoothly PUBG Mobile, to be able to play PUBG Mobile On the phone, your device must be equipped with the minimum configuration as shown below.

1. Download PUBG Mobile for Windows
2. Download PUBG Mobile for iOS
3. Download PUBG Mobile for Android

PUBG Mobile for Android:

1. Android version 5.1.1 or later.
2. RAM capacity: 2GB or more.

3. ROM memory capacity: 3GB or more.
4. For CPU, you should prioritize **Samsung** 's **Snapdragon** or **Exynos** line, these two CPUs are very suitable for gaming so PUBG Mobile will be handled smoothly if operating on devices using these two chips.
5. Internet connection required

PUBG Mobile for iOS:

1. IOS version 9.0 and above.
2. Free memory capacity: 2.2 GB or more
3. Compatible with iPhone 5 and above, however, if to play smoothly, you should use iPhone 6s or higher with HD settings.
4. Internet connection required

Some tips to play PUBG for gamers:

1. How to mark the map position in PUBG Mobile
2. PUBG Mobile: How to choose the right accessories for each gun
3. PUBG Mobile: The best gun combos to win the TOP 1 in the game
4. Ambush tips on PUBG Mobile

2. Fortnite

Fortnite is also a **PUBG-** based **game** , but Fortnite knows how to attract players by their own unique points, first of all "animated" graphics that make a different impression than shooting games. Survival guns appeared at the same time. The second point that Fortnite is more popular than PUBG Mobile is the built-in element of the game.

Gamers can collect resources in the game and create their own protection from enemy bullets, Fortnite recently updated Thanos's **Extreme Gloves** gamer, making the gameplay diverse and more attractive.

If compared to PUBG Mobile above, Fortnite is more diverse in gameplay but makes it difficult for new gamers to get used to it because there are many other factors in the game, not simply loot style and running like PUBG Mobile. Another weakness of Mobile version of Fortnite is that it requires quite a high configuration compared to PUBG Mobile, below is the configuration of Fortnite requirements on Mobile and PC.

1. Download Fortnite for Windows
2. Download Fortnite for iOS
3. Download Fortnite for Android

Fortnite for Android operating system

1. Android version 5.1 or higher (64-bit)
2. 3GB RAM capacity
3. GPU Adreno 530, Mali-G71MP20, Mail G-72 MP12 and above.
4. Internet connection required

Fortnite for iOS operating system

1. IOS 11.0 or later version
2. Compatible with iPhone SE and iPhone 6s / 6s Plus and above, not compatible with iPhone 6 / 6Plus down.
3. Internet connection required

3. Rules of Survival

Before PUBG Mobile set foot in the Vietnamese game village, **Rules of Survival** was the name most often mentioned in the mobile survival shooter genre. Currently, the Rules Of Survival is still competing with PUBG Mobile but compared to before, it was good. The suction has decreased slightly.

The reason why players from ROS switched to PUBG Mobile was mostly due to the hacking of the game, both on PC and Mobile. But now NETEASE has taken strong measures to break the game components, which is a permanent account and upgrade anti-hack system to ban the cheating game components.

This is a good sign for gamers who love Rules Of Survival, which has a lot of incentives for gamers, in addition to many events that help gamers earn expensive Skin for their characters. The game has just enough configuration to help most gamers play Smooth Rules Of Survival on their computers.

1. Download Rules Of Survival for Windows
2. Download Survival Rules for iOS
3. Download Survival Rules for Android

Rules of Survival for iOS

1. 2GB of free memory capacity.
2. Requires iOS 9 or later.

3. Internet connection required

Rules Of Survival configuration for Android

1. 2GB or more of free memory capacity.
2. Requires Android OS 4.0 and above.
3. Internet connection required.

Some good tips for gamers when playing Rules of Survival:

1. Shortcuts control the Rules of Survival game
2. How to switch first-view mode Rules Of Survival PC
3. How to create a team playing Rules Of Survival
4. Many gun combos are used in Rules of Survival

4. Knives Out

The same oven with NetEase, Knives Out was brought into Vietnam with two versions of Mobile for iOS and Android, but Knives Out couldn't stand by Rules Of Survival when participating in Vietnamese game village in the shooting genre of survival due to the time. There is no PC version yet.

For that reason, Knives Out couldn't capture the number of players compared to Rules Of Survival at the time, although Knives Out was not inferior to his brother. Just like ROS, when you join Knives Out you will only have one task to fight and become the last to survive.

Knives Out's configuration is not too high since the player only needs to equip the same configuration as the Rules Of Survival. You can optionally configure Knives Out to suit your device to optimize frame movement in the game.

Knives Out configuration requirements for iOS

1. 2GB of free memory capacity.
2. Requires iOS 9 or later.
3. Internet connection required.

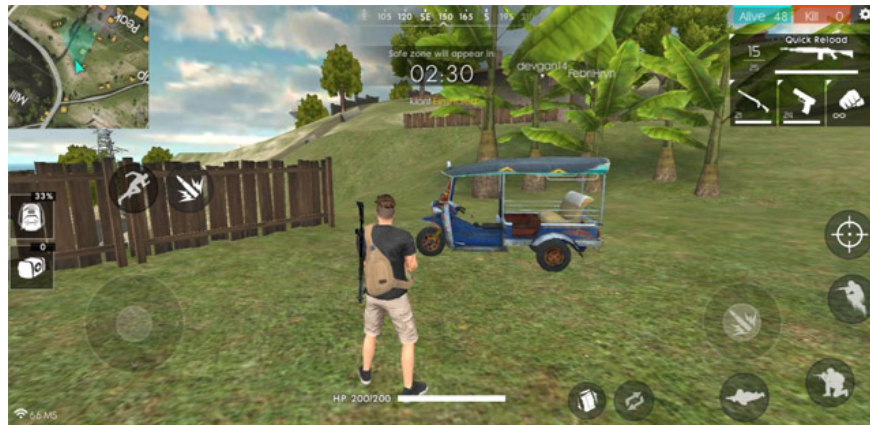

Knives Out configuration requirements for Android

1. 2GB or more of free memory capacity.
2. Requires operating system Android 4.2 and above.
3. 1GB RAM capacity
4. Internet connection required.

5. Garena Free Fire

Continue a light **Battle Royale** game for mobile gamers, **Garena Free Fire** is pretty much loved by gamers because of the fast playing speed and simple graphics, you will fight with 50 people on the same map and Become the last survivor to win.

Because of having a fairly light graphics level, the configuration requirements of Garena Free Fire are also very pleasant on both iPhone and Android. Users can play Free Fire on devices with the lowest configuration.

1. Download Garena Free Fire for Windows
2. Download Garena Free Fire for iOS
3. Download Garena Free Fire for Android

Requires configuration of Garena Free Fire for iOS

1. Requires 1GB of free space
2. Compatible with iOS 8.0 and above
3. Internet connection required

Requires configuration of Garena Free Fire for Android

1. Requires 1GB of free space
2. Compatible with Android 4.0.3 and above
3. Requires 1GB RAM
4. Internet connection required

6. Grand Battle Royale: Pixel War

Next is a very light Battle Royale game, **Grand Battle Royale: Pixel War** has graphics combined with Minecraft, a game that is also a genre that survives a lot of participants and has a level of graphics. quite light. Therefore, Grand Battle Royale also has a very comfortable graphics level for mobile gamers.

Furthermore, **Grand Battle Royale** 's tempo : **Pixel War** is quite fast when there are only 20 players in the map, which is also a factor that many people choose this game when they want to play a Battle Royale fast. .

1. Download Grand Battle Royale: Pixel War for iOS
2. Download Grand Battle Royale: Pixel War for Android

Grand Battle Royale configuration requirements: Pixel War for iOS

1. 400MB free memory
2. Operating system: iOS 8.0 or later
3. RAM capacity: 1GB

Requires Pixel Battle for Grand Battle Royale: Android

1. 400MB free memory
2. Operating system: Android 4.1 and above

3. RAM capacity: 1GB

Above are some Battle Royale games with high to low graphics for you to choose, in addition to downloading and playing these titles on Mobile you can play on PC with different emulators.
