

TOP most difficult achievements in Minecraft 1.19

Achievements in Minecraft help guide new players and provide challenges to complete, similar to the basic achievement system in Bedrock Edition.

By following and completing them, the player will know all the systems in Minecraft.

However, this process is not an easy task, as there are many difficult steps in the game that gamers will have to put in a lot of effort to complete. In this article, let's explore the TOP most difficult achievements in Minecraft 1.19 The Wild Update.

Uneasy Alliance

1. How To Complete: Rescue a Ghast from the Nether, bring it safely home to the Overworld, and then kill it.

This achievement requires the player to take the Ghast through a portal to the Overworld. Since Ghasts are hostile creatures with ranged attacks, luring them through a portal is no easy task. To do this, the player needs to build a portal as close to the Ghast as possible, preferably with the help of stealth potions. Of course, gamers can also increase or dodge the fireball, as a lone Ghast is not too dangerous. Then use a fishing rod to drag the Ghast into the portal and kill it when it reaches the Overworld.

Free the End

1. How to complete: Defeat Ender Dragon.

Although killing Ender Dragon is the main goal in Minecraft, but many players with the purpose of building and crafting, almost never reach this boss. First-time players need to complete a long and tedious sequence of quests, including finding a portal to the Nether, then identifying a stronghold and entering its End Portal to reach the End.

Beaconator

1. How to unlock: Make a beaconator full power.

A Beaconator is a block that projects a ray of light into the sky and can provide status effects such as Speed, Jump Boost, Haste, Regeneration, Resistance or Strength to nearby players. It can only be created with an item dropped from the Wither. The player needs to kill the Wither to get the Nether Star, craft it into a Beaconator, and then place it on top of a pyramid made of blocks. Defeating Wither can be a huge challenge, especially for new players.

Star Trader

1. How to Unlock: Trade with villagers at a certain height limit.

This achievement requires the player to stand on any block higher than 318 and trade with the Villager or the Wandering Trader. This means that gamers need to build a tower and a bubble elevator to push the villagers to the top of it.

Two by Two

1. How to unlock: Breed all animals.

To complete Two by Two, gamers need to breed a pair of all the animals that can breed in the game. This process takes a lot of time and effort, as some mobs will be scattered throughout the biomes.
